Just a Nod in Passing. Murrayhill—They say fortune raps on every man's door at some time. Broadway—Well, she hasn't so much as called me up on the telephone!

Preaching Monkeys. The author of "The History of Brazil" tells of a species of monkey called "preachers." Every morning and evening these monkeys assemble in the woods. One takes a higher position than the rest and makes a signal with his fore paw. At this signal the others sit around him and listen. When they are all seated he begins to utter a series of sounds. When he stops these cries he makes another signal with his paw, and the others cry out until he makes a third signal, upon which they become silent again. This author, Mr. Maregrove, asserts that he was a witness to these preachings.

A Use For Him. "That horse of yours looks terribly run down." "Yes," replied Uncle Si Simlin. "Why do you keep him?" "Well, it's a kind of comfort to have him around. As long as I've got him I feel that there ain't much danger of my bein' cheated in a hoss trade!"—Washington Star.

FINANCIAL FILOSOPHY  
"NUMBERS ELIMINATE CHANCE"

"The Business Corporation was a device of the Romans. The original idea came from Julius Caesar, and was suggested by the uncertainty of Human Life. It was an insurance against the dissolution of a project in case of death. The intent was to provide for the continuance and perpetuity of enterprises which probably no man could carry out during his lifetime. The first application of the corporation was for building Water Systems and laying out Roadways. Hence, History gives the first corporation as being a PUBLIC SERVICE CORPORATION."

Since the days of the great Caesar the Corporation principal has been successfully applied to most all branches of Commerce and Industry, but the Public Service Corporation continues to rank first. The securities of Public Service Corporations are considered the most profitable investment that can be made with ABSOLUTE SAFETY. Experienced Financiers, those having practical knowledge of Investments, rate the securities of Public Service Corporations as being the most profitable of all SAFE INVESTMENTS.

We would like to tell you about a Public Service Corporation here at home. One whose future is unusually bright and whose securities offer an exceptionally attractive investment. It's Safe, too! ABSOLUTELY SAFE! Let us tell you about it.
