

## RAIN HELPS TROOPS TO STOP CHICAGO RIOTING

### TEMPORARY GYM GOING UP AT THE NORMAL SCHOOL

Expected That Structure Will Be Completed By Sept. 15.

### LIKE THE W.V.U. ARK

Will Be Used Mainly By the Young Women Students.

A temporary gymnasium is in the course of construction on the grounds of the Fairmont State Normal school and if nothing happens to impede the progress of the work the building will be completed and ready for occupancy by September 15.

The legislature made an appropriation for the erection of this gymnasium but so imperative was the need for such a building that the Board of Regents saw fit to divert some funds from elsewhere in order to construct it.

Although a temporary structure yet the building will be substantial and will provide for the needs of the school for several years, or at least until the legislature sees fit to provide for a permanent building.

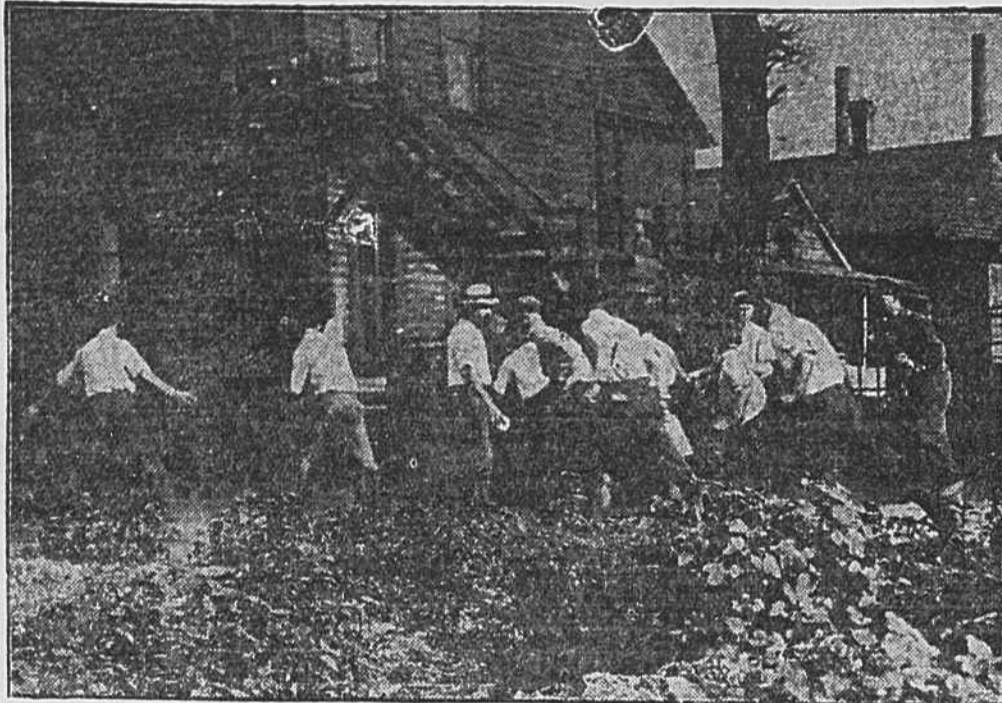

Little new equipment will be purchased at this time but the main attention will be devoted to a playing floor. This floor will be 45 by 70 feet and will be utilized for indoor baseball and basketball and similar amusements and exercises and will be used mainly for the girls, though the young men will also have access to the building at certain times.

The building will be a one story affair with a high ceiling and will be well ventilated and lighted. Grading has been finished. The foundation is progressing nicely and it is hoped to have the carpenters at work on the framework by next week. Architect Gillis is in charge of the construction of the gymnasium. The building will be built after the plan of "the Ark" a temporary gymnasium which is in use at the state university.

Showers baths are being placed in both the girls' and boys' dressing rooms on the lower floor of the main building at the Normal and these will be used in connection with the gymnasium work.

For a long time the school has been greatly hampered for a place in which the pupils could receive physical education and training of this character and the building is being erected to meet this need.

### CHASE AND DEATH OF A NEGRO IN CHICAGO RACE RIOTS

This mob cornered a negro under an outside stairway near 46th-st and Wentworth avenue. The men who "got" him are in the right of the picture, just running to join the group about the stairway. And at the right is the dying negro and the pair who were "in at the death". The arm of the one in the cap is still unraised. He has just thrown the last stone. The N. E. A. staff photographer who took these pictures trailed with the mob under fire of revolver and stones until the quarry was run down and killed.

### MARTIAL LAW AT LAST IN CHICAGO'S BLACK DISTRICTS

Mayor Thompson Appeals to Governor Lowden for Aid.

### 6,000 PATROL STREETS

Some Sharp Fighting Took Place During Outbreak's Fourth Night.

(By Associated Press.) CHICAGO, July 31.—The main negro quarters of Chicago today were patrolled by 6,000 soldiers accounted as for war after four nights of race rioting that caused 30 deaths, 17 negroes and 13 whites, and the injury of more than 500 persons, 200 of them severely, and a dozen of whom may die.

No deaths were reported during the night but many injuries and fires were recorded. Gov. Frank O. Lowden ordered the troops out last night on request of Mayor William Hale Thompson after darkness had brought renewed rioting and the city's 3,000 policemen found themselves exhausted. The First, Second and Third reserve militia and the Tenth and Eleventh Illinois Infantry were sent on duty by Adjutant General Dickson while the Ninth regiment remained in reserve at the stock yards and the Fourth reserve on the west side.

Fighting kept up after the troops reached their stations shortly before midnight and one squad of soldiers had to fight a crowd of negroes to reach their station, while other soldiers were fired on from ambush on the way to duty.

The most serious riot of the night took place at Fifty-third and State streets where 200 policemen fought nearly two hours a crowd of negroes, firing several hundred shots before the rioters were subdued and 45 of them arrested. It was only after the patrolmen had chopped their way into some of the buildings and seized a dozen negroes with rifles and 600 cartridges that the struggle ceased.

Rain which had threatened during the early hours of the morning began falling heavily shortly after 6 o'clock. It seemed effectually to dampen the spirit of the stragglers remaining about the riot area, for they disappeared without awaiting the appearance of soldiers. Officers in command reported that to all appearances the district was practically deserted and they were of the opinion that this marked the end of the disorder which for five days had crippled Chicago.

Thomas Copeland, a negro, 18 years old, died today of bullet wounds received in yesterday's riot. Negroes early today wrecked the windows of a shoe store in East Thirty-fifth street, owned by a white man and carried away a quantity of shoes.

With the coming of daylight it was discovered that rioters in a number of streets on the South side had stretched steel cables across, the pavement with the evident intention of preventing the fire department from answering alarms and perhaps wrecking the apparatus.

### Busy Days for the Sheriff's Hounds

Deputy Sheriff Bells Harris and John Glover returned this morning from the Continental Mine No. 1 near Uniontown, Pa., where they were called with Sheriff Glover's bloodhounds to assist in trailing a foreigner who had shamefully attacked a young American girl. When the Fairmont officers arrived there with the hounds, the foreigner had already been captured.

Just to see if the hounds could follow the trail accurately, they were put on the trail and they went directly a distance of about three miles to the place where the foreigner was arrested.

This morning Sheriff Glover received a call from McWorter, a small town near Jane Lew, where robbers had entered a store some time last night. The dogs were on their way from Uniontown when the call was received and were not available for the case.

**YOUNG WOMAN DIES.** Katherine Hoti Nickoloff, a young woman employed in the restaurant of Harvey Paiste on Madison street died yesterday at her rooms on Grant street. The body was prepared for burial at the Cunningham undertaking establishment and this evening will be sent to LALKEWOOD, N. J., her former home for interment.

### FORTY-FOUR MINES IDLE IN REGION DUE TO CAR SHORTAGE

### Forty-Two Mines Affected on B. & O. and Two on Monongahela Railway.

With 666 cars on the Monongah division of the Baltimore and Ohio railroad today the car supply is exceptionally short. The placement is down to 571 and as a result there are forty-two mines idle.

The cars today are classified as follows: Coal, 558; coke, 8. Cars left over from the previous day number 105. Many operations are affected today. The Consolidation Coal Company is shy cars as are The Hutchinson Coal Company, the Clark interests and others. Car shortage is felt by the Jamison Coal and Coke Company as there are only enough cars for handling the coke output at Jamison No. 8.

Cars shortage has struck the Monongahela Railway also. Only a twenty per cent car supply is on. (Continued on page four.)

### Scores in Trolley Car Escape Death By Hair Breadth

(By Associated Press.) PITTSBURGH, July 31.—Two scores of persons narrowly escaped death or serious injury this morning when a crowded Carrick trolley car went through a derailing switch in South Eighteenth street and after running wild along the top of a hundred foot cliff came to a stop at the head of the embankment.

Several women fainted and a dozen persons were crushed in a panic during the car's mad dash. Two men jumped from the speeding car but were not seriously hurt. A rush of passengers to the rear of the car, it is said, only prevented it from plunging over the cliff and being shattered with its human freight on the rocks below.

### DIVING ACCIDENT CAUSES DEATH OF BAXTER YOUNG MAN

### Slow Hemorrhage Developed at Base of Earl McKnight's Brain.

As the result of injuries he sustained on Tuesday when he dived into the river and struck his head on a stone Earl McKnight, aged 26, a well known young man of Baxter, died this morning at 2:30 o'clock at Fairmont hospital where he was admitted late yesterday evening for treatment.

When he failed to arise after diving a distance of only four feet his companions went to his assistance and took him from the water. He remained unconscious for a few minutes but upon regaining consciousness seemed to be all right and little more was thought of the affair although he suffered with some dizziness.

Yesterday evening about five o'clock he again became unconscious and was rushed to the hospital where he was found to have a temperature of 110.

According to officials at the hospital the man suffered from a concussion at the base of the brain which caused a slow hemorrhage which did not develop until after several hours, but probably began at the time of the accident.

Little could be done for him at the hospital and he only lived until early this morning when he died. He was a married man and was employed by the coal company at Baxter.

The body was prepared for burial by Carpenter & Ford.

**BOYS DENY CHARGES.** The trial of Mike Tedesco and John Securi, the two boys who are now in the county jail charged with robbing the shoe shining parlor in the basement of the Watson Hotel building will likely be held this afternoon. Attorney H. H. Rose is handling the case for the state. Both boys have denied being implicated in the theft.

### Aged Man Arrested in Railroad Yards

John Smith a man who looked to be about 55 years of age but who insisted at police court that he was past the age of 73, was before Mayor Bowen this morning charged with loitering on Baltimore and Ohio railroad property.

Smith was arrested as a suspicious character by Patrolman Province late last night when he was found loafing about the yards near a carload of merchandise. He was brought to the city jail and went before Mayor Bowen this morning. He was without any money and upon his promise to get a job and go to work was dismissed.

My examining and fitting rooms are now open. Showing newest styles in glasses and advanced methods for correct eye examination.

### BIDS FOR PAVING MORGANTOWN AVE.

### Board of Affairs Acts Now in Order to Save Time.

Bids for the paving of Morgantown avenue from a point adjacent to the residence of Dr. J. A. Graham to the corporate limits at the Fair grounds, a distance of three thousand lineal feet, will be asked for at once by the City Board of Affairs. This was decided upon at a meeting of the Board held this morning.

This is a time saving step and is taken so that it will be possible to put the work through this year if present plans go through. That matter is contingent upon the signing up of all the property owners and one or two other matters. If these are not arranged satisfactorily the project will be dropped. If the plans as now outlined by the Board of Affairs are carried out work will begin on this thoroughfare as soon as the bids have been opened August 16, and the contract has been awarded.

Under the plan the residents and property owners along this thoroughfare are to pay one-third of the cost of building thereof the city is to bear one-third of the cost while the county pays for the remaining third.

It is proposed to build the road of concrete 16 feet wide without curbs. City Engineer S. B. Miller was authorized to at once draw up plans and specifications for the construction of the road so that contractors would be in position to bid on the proposition.

**BROTHERHOODS WANT ACTION.** WASHINGTON, July 31.—William G. Lee, president of the Brotherhood of Railway Trainmen announced today that unless the Railroad Administration had taken action by October 1 on the demands of the Brotherhood and the wages of the trainmen either be increased or the cost of living reduced steps looking to the enforcement of demands would be taken.

**BRANDEIS COMING HOME.** NEW YORK, July 21.—Justice Louis D. Brandeis of the United States Supreme court has completed a tour of Palestine and now is en route to Paris, according to word received here today by the Zionist organization of America. The Jewish colonies were reported in a flourishing condition.

See Shurtleff and Welton's ad on back page.—Adv.

### President Is Hot Foot After Old High Cost

(Associated Press) WASHINGTON, July 31.—President Wilson is giving "deep and very thoughtful consideration" to the high cost of living, it was announced today at the White House, and all branches of the government that might aid in solving the problem are at work.

### McGough Quits the B. & O. Railroad Co.

F. P. McGough, Grafton, division engineer of the Monongah division of the Baltimore and Ohio railroad, has resigned that position to accept another with the Pittsburgh Railways company. Arthur W. Thompson, former general manager of the B. & O. lines is president of the company.

H. H. Tedrick, supervisor of the Fairmont terminal will leave during the early part of August on his vacation.

Engine 2557 backed out of the round house on to the turn table pit while no one was in the cabin. The wreck train placed it in the round house.

Richard Bartlett, the popular clerk at the trainmaster's office, has purchased a new motorboat. Soon he will be will have the boat afloat on the Monongahela river.

Raymond Hadler, B. & O. brakeman, has reported for duty after having been in the service.

### Warrant Issued for Dakota Mines Man

William Burlson, of Dakota Mines, came before Justice M. R. Musgrove this morning and swore out a warrant for the arrest of Bill Austin, the latter colored, charging Austin with assault. The warrant was issued and Austin will be arrested this afternoon.

Burlson, who is a white man, claims that Austin, the colored man, struck him with a shovel at Dakota Mines yesterday.

Another Suffrage Ratification. HENRIETTA, Mont., July 31.—The Montana state senate yesterday ratified the federal suffrage amendment to the constitution by a vote of 38 to 1. The house unanimously ratified the amendment yesterday.
