When Mississippi Contest Cases Are Decided by National Committee.

ONE FOR ROOSEVELT

If He Heeds the Roosevelt Instructions, Being on Both Tickets.

CHICAGO, June 13.—The Republican national committee assembled early today to continue hearing contests from Mississippi where it left off last night after voting to seat Taft delegates in the First district. With Mississippi disposed of, Missouri will be taken up, Governor Hatfield, leader of the contested delegation, being on the committee by proxy, the principal fight in Missouri centers on the delegates at large.

Contests in the Second, Fourth, Fifth, Sixth, Seventh and Eleventh Mississippi district were decided by seating Taft delegates. While ostensibly this action added twelve Taft delegates to the list, the name of one delegate, P. W. Howard, of the Eighth district, appeared on both the Taft and Roosevelt tickets and his attorney said that he would heed the Roosevelt instructions.

The case of the Missouri delegates at large was then called. New charges of attempted bribery in the battle for delegates were made today by Senator Dixon, the Roosevelt campaign manager. He charged that a member of the national committee had been offered a United States marshalship if he would vote for Taft on contests now under consideration and he said that he was prepared to name the man if necessary. He dared the Taft managers to give the name of a Roosevelt leader charged with offering a bribe to an Alabama delegate.

OCEAN LINER IS ATHLETES' HOME

Who Will Sail on the Finland in the Latest Style and Greatest Ease.

TO REMAIN ON BOARD

All the Time While Gone When Not Engaged in the Games.

NEW YORK, June 13.—The American athletes who sail for Stockholm tomorrow will travel and live in far greater comfort and have better opportunities for practice than any of the other four teams which the United States has sent across the sea for the Olympic games. By chartering a large ocean liner for the exclusive use of the athletes and their followers, the American committee has overcome many of the hardships which have beset the other journeys and undoubtedly handicapped the athletes, although the records of victories necessitate no apologies.

Once the athletes have set foot on the steamer Finland at New York tomorrow, they will make the big ship their only home until their return early in August. They will be away nearly seven weeks, perhaps longer, but during all that time it will probably not be necessary for them to undergo a single change of diet. At Stockholm they will evade the general scramble for hotel accommodations by keeping their quarters aboard ship.

It is doubtful if the Athletic ocean has even witnessed such an athletic carnival as will take place en route with three score and more sprinters and runners, hurdlers and jumpers and weight men at practice. Trainer Murphy will limit the work to a minimum for training purposes, but even without extra effort it is certain that with so many crack athletes mid-Atlantic records will all be set anew.

The Finland is a much larger craft than those used in previous Olympic trips. Her main deck is large enough for a track of eight laps to the mile, and there is plenty of room for jumping pits and places for the shot-putters and weight men to work. The boat has a fine gymnasium and a large swimming tank.

It is said that the athletes will not be permitted to wear spiked shoes when running on deck, but the steamship officers have helped by laying a five-foot rubber mat around the running circuit of the boat, which will tend to avert the danger of the runners falling. Big wooden boxes fitted with dirt have been placed on board ship as pits for the jumpers and pole vaulters and weight men.

Meservie, of Ritchie county, claims he is entitled to one of the two seats and that two members of the committee from one county is illegal.
