Distress in the Stomach.
There are many people who have a distress in the stomach after meals. It is due to indigestion and easily remedied by taking one of Chamberlain's Tablets after meals. Mrs. Henry Padgugasi, Victor, N. Y., writes: "For some time I was troubled with headache and distress in my stomach after eating, also with constipation. About six months ago I began taking Chamberlain's Tablets. They regulated the action of my bowels and the headache and other annoyances ceased in a short time." Obtainable everywhere.

CHARITIES NURSE HERE.
