NOT YET DECIDED

But it Seems Probable the Out-the Pike Grounds Will be Chosen by the Wheeling Base Ball Club-Pitcher Mahaffey Signed Yesterday.

It was supposed there would be only the formality of the signing of the pa-pers by the Wheeling & Eim Grove Railroad Company and the Wheeling Base Ball Club yesterday morning to dispose of the grounds question, but through a misunderstanding between the interested parties the matter still remains unsettled, and at one time yesterday it looked as though the club-would abandon the Sunday ball proposition and close for the Island grounds. Later in the day negotiations for the out-the-pike park were resumed, and it is now thought they will be closed up satisfactorily this morning.

The hitch occurred yesterday morning when the ball club and railroad officials conferred and discussed the articles of ment that had been drawn up by the attorneys. It is said the railroad company wanted the club to bear half the expense of building the park and wanted a five years' agreement, with a guarantee. etc. These propositions were opposed by the club, and as stated above it looked for a time as though the club would relinquish its desires for Sunday ball and play on the Island grounds.

Sunday ball and play on the Island grounds.

Early in the evening the club had a conference with Secretary Shirley, of the Wheeling Railway Company, who agreed to put the Island park in good shape for ball playing. Later in the evening the club conferred with Mr. Paul O. Reymann, of the Wheeling & Elim Grove Railroad Company, who was accompanied by Arjorney Bernie Handlan. As a road of the conference it is said the company has withdrawn the objectionable features of the agreement presented yesterday, and will present another agreement this morning which it is supposed the ball club will agree to.

The Wheeling management signed another pitcher yesterday in the person of Mahaffey, who was formerly on the twirling staff of the Washington League team. Last season he pitched two games here for the zanesville team of the Ohlo State league, and his work was not hone of the property of was enthusiastically received by the lo-cal fans. In his latter to the local club he says the salary offered is not as large as he thinks he can get elsewhere, but he is desirous of playing in this city and is willing to sacrifice semething to

GARDNER'S NEW VENTURE.

We and Winnie Winder buy out the old Metropolitan Club - A Match Between Gardner and Goulette Pro-

The Metropolitan Club passed into the control of a new management yesterday afternoon. The stockholders sold out their interests in the club to Oscar Gardner, who, with Winnie Winder, will run the club in the future. The consideration is said to be \$1,000, which largely represents the Fulton club house. It is expected that under the new management the club and boxing in general here will take on a new lease of life and furnish local patrons of the

of life and furnish local patrons of the game with the real article.

The chub seemed to have been minus a rabbit's foot in the past six months, for it ran against some kind of a hoodoo or spell, and whether the cause be traced to this source or that, the fact remains that none of its recent contests was satisfactory. The public often judges hastly, and the club has been criticized in many instances where it was not to blame. As a financial venture in the past twelve months the club has been a frost.

a frost.
Oscar Gardner's name and fame insure the best the market has in stock. He intends pulling off twenty-five round contests as often as he is warranted in doing and for the first he will try to get on a match for himself with KiG Goulette, who lately has been defeating all comers. Oscar will try to bring Goulette here for an April date, and failing in this effort he will seek another match. The members of the old Metropolitan

Club were Philip Maurer, Killian Bader, Lealie Pearce, Jack Arthurs. John Loo-mis, William Sherry and William Burns. MADDEN'S BOXING RULES

Will be put in Force at Some of the New Yerk Clubs.

NEW YORK, March 30 .- The new boxing code, as devised by Billy Madden, will be put in force by several local clubs. Johnny Reagan, matchmaker of the Pelican athletic club, says that boxers who appear at his club in the future wil have to fight under these rules. "Madden is just the person make up a new code." Reagan furth said, "and the suggestions he has made are practicable. I like to see boxing and, and the suggestions he has made are practicable. I like to see boxing contests conducted in a clean and manly manner, and I guess the patrons want to have the sport conducted in a way to give them a full return for their money."

money."
Charley Bangs of the Greenwood athletic club has also made up his mind to utilize Madden's rules. He told a reporter that bereafter all boxers who are to meet before his club will have to fight without the stipulation of breaking clean or with one arm free. would advise any boxer who appears at the Greenwood, said Bangs, "to study

THEY RIDICULE IT.

Many People Ridicule the Idea of an Absolute Cure for Dyspepsia and Stomach Troubles.

Ridicule, However, is not Argument and Facts are Stabborn Things.

Stomach troubles are so common and in most cases so obstinate to cure that people are apt to look with suspicion on any remedy claiming to be a radical, nament cure for dyspepsia and indi-ion. Many such pride themselves

permanent cure for dyspepsia and indigestion. Many such pride themselves on their acuteness in never being humburged, especially in medicines.

This fear of being humburged can be carried too far—so far, in fact, that many people suffer for years with weak digestion rather than tink a little time and money in faithfully testing the claims made of a preparation so reliable and universally used as Stuart's Dyspepsis Tablets.

Now Stuart's Dyspepsis Tablets are vassily, different in one important respect from ordinary proprietary medicines for the reason that they are not a secret patent medicine, no secret is made of their ingredients, but analysis shows them to contain the natural digestive ferments, pure aseptic pepsin, the digestive acids, Golden Seal, bismuth, hydrastis and mux. They are not cathartic, neither do they act powerfully on any organ, but they cure indigestion on the common sense plan of digesting the food eates thoroughly before it has time to ferment, sour and cause the mischlef. This is the only secret of their success.

Cathartic pills never have and never can cure indigestion and stomach

came the mischer. This is the only se-cret of their success.

Cathartic pills never have and never can cure indigestion and stomach troubles, because they act entirely on the bowels, whereas the whole trouble is really in the stomach.

Stuart's Dyspepsia. Tablets taken after meak digest the food. That is all there is to it. Food not digested or half digested is poison, as it creates gas, acidity, headaches, palpitation of the heart, loss of flesh and appetite and many other troubles which are often called by some other name.

They are sold by druggists every-where at 50 cents per package. Address F. A. Stuart Co., Marshall, Mich., for little book on stomach diseases, sent free.

Easter Flower Display.

To-day and to-morrow, at C. A. House's music store, on Market street. Florist Max L. Hess will make his annual Easter flower display. The flowers were being brought to House's yesterday afternoon and they indeed form a most beautiful display. Included in the display is the largest and dieset collection play is the largest and finest collection play is the largest and amest collection of lilies ever seen in this city. Mr. Hess is a florist who enters into his work with remarkable enthusiasm, and he can feel a great degree of pride in the exhibit he makes to-day and to-morrow at House's. Doubtless he will receive many callers and customers during the two days of the display.

ABOUT FALSE TEETH.

How They are Made and What Be comes of Them-Like Pins no one can Ever Tell.

Chicago News: Hundreds of thouands of artificial teeth are manufagiered and sold every year. What becomes of them? It is like asking what be comes of pins and other things which are practically indestructible, says the Boston Herald.

Before making a guess it is worth while to consider how artificial teeth are made. The story is told in Nantucket of a sea captain who was a great whistler until he lost one of his front teeth by accidental contact with a belasing pin. For some time he bemoaned his lost accomplishment, until he could whistle very well with an artificial tooth whittied out of a piece of wood. When a performance was desir-

wood. When a performance was desired he would calmly carve out an incisor and put it in position. Then the audience would wait until the tooth was swelled by the moisture of his mouth so that it would not allo out.

When the plates were discovered and the expert dentist was able to supply a whole mouthful of new teeth, the teeth themselves were carvedout of twory. But constant grinding would wear away the ivory and these elephant teeth were not satisfactory.

To-day all artificial teeth are made of porceisin and will outlast a Methuselah. Those which are known in the trade as "store teeth," being carried in stock by the big dental supply houses, are manufactured in enormous quantities.

The porcelain material, which

Ies.

The porcelain material, which contains various mineral proportions, is worked up like a sort of dough or plaster, forced into molds and fused by intense heat in a furnace. Each tooth is covered with enamel and has one or more metal plus in the back to hold it to the plate.

In large lots these teeth can be made very cheaply, but there is one item of expense that cannot be overcome, and that is the cost of the metal holding the plu. The only metal which will stand the intense heat of the porcelain furnace is platinum, and that costs at the rate of a cent a pin simply for the raw material. A great deal of monsy has been spent in experimenting to discover some substitute for platinum, but nothin has yet been found.

While a cheap grade of "store teeth" can be bought for a few cent aplece, they are not nearly as satisfactory as

they are not nearly as satisfactory as the standard commercial article which is used by most dentists. A big supply company will carry hundreds of sam-ples of teeth, all of standard qualities, but differing greatly in size, shape and color. To observe the standard that the standard of the color. To observe the standard of the st is used by most dentists. A big color. In color alone from twenty-five to one hundred variations may be pre-

But as there are people who are not satisfied with ready-made clothing there are people who are not satisfied with ready-made teeth. False teeth may look just as well or better than reaf ones, but public speakers, singerand other prominent people want their own teeth reproduced in all their peculiarities of form and color, and fillings, if they have them. They want teeth that cannot be told as false, and they get them-not all at once, perhaps, bu one by one, as the originals give out In teeth that are made to order noth ing is impossible, from the short, white teeth of normal youth to the long, dis-

R. T. BOOTH COMPANY, 20-21 Audtorium Bailding, Chica-

colored ones of extreme age, and the prices range with those of watches.

The teeth are set in plates of rubber, gold and aluminup, but the highest achievement is considered to be a platinum plate upon which has been fused a lining of thated porcelain similar to that used for sum work. Tinted plates have been range of the same material as the facth, but as the porcelain shrinks in the firing the fitting of such plates is uncertain. plates is uncertain.

And now for the answer to the que tion. "What becomes of false teeth?" Sometimes they are lost, sometimes sto-len and sometimes left as a family leg-

len and sometimes left as a family legacy. Generally, however, they are barled with the owner and the forever hidden in the ground.

It is occasionally suggested that there is quite a business in second-hand false teeth, but if there is such a traffic it is not of large proportions. Second-hand teeth are valuable only for the platinum wire they contain and when they fall into the hands of regular teeth-makers they are smashed up to get the platinums out.

Not fong age a man who found a

the platinus out.

Not long ago a man who found a double set of teeth went with them to a dealer, thinking that he had a prize. The finder was surprised when the dealer refused to make an offer and said that ten cents a set was all they were worth to any one but the person whose result fless that the counts are the said they were the these that and the said they were the said they were the said t

worth to any one but the person whose mouth they fitted.

The expensive teeth are not market-able and the marketable teeth are not expensive. That is the whole thing in a nutshell.

Yet teeth have been used over. Yet teeth have been used over. A woman went to a dentist with a set of teeth which had belonged to her mother, who was dead. She said that she had always admired those teeth when her mother wore them and now that her own were some she wanted the old set remounted for herself. It was done.

"AN EASTER SURPRISE.

Pretty Parisian Idea for a Novel Fa vor for Easter Luncheon.

Any one seeking an Easter novelty will find it in the unique idea which has just reached here from Paris, comprising an egg in the egg cup and contain-ing a souvenir of the occasion. The egg cup is a dainty bit of Limoges, and the surprise within is a plump little bisque cupid nestled in a bed of rose

This idea is likely to be carried out to a great extent at Easter luncheon favors, which may be made as inexpensive or as costly as one desires. As a matter of fact, the main surprise lies

alve or as cosily as one desires. As a matter of fact, the main surprise lies in the amount that an egg shell can hold, whether a dainty handkerchief, a bit of jewelry or bon bons.

The egg must be broiken off evenly at the small end, and the shell carefully washed and dried. The lettering on the shell may be done in either water color or gold, and after the souvenir is Instened to, the cup by a touch of sum here and there. If a number of shells are to be required they might be secured at some convenient bake shop, and for luncheon favors the surprise might consist in bon bons, preserved violets, bisque rabbits or cupids, or there are many little Japanese articles in a humorous way which would be amusing as well as inexpensive. If the articles are heavy, they should be well wrapped in cotton to prevent breaking the egg shells.

Real Cause for Alarm. Mrs. Ferguson gave her sleeping hus

Mrs. Ferguson gave her sleeping husband a shake.
"George!" she exclaimed, "listen!"
Mr. Ferguson merely opened his eyes, grunted and went to sleep again.
"Wake up, George." she persisted, shaking him a second time.
"What is it, Laura?" he asked, sitting up in hed and rubbing his eyes.
"I hear a noise downstairs,"
"Is that what you've spoiled my nap for? What is there for anybody to steal? At the present market price of sliver what do you suppose any burgiar would want of the few spoons that we have on hand? You're a good little woman, Laura, and I love you with an undying devotion, but if you make a burgiar sharm of yourself again when I'm land a start of the start of side of any and a supplement of side outputs. sleeping at a pressure of 200 pounds to the square inch you'll get into trouble. See?"

As he prepared to go to sleep again she shook him for the third time "George," she gasped. "there's a peck of apples in the pentry.

said George, get That's different," ting out of bed, grabbing his revolver, and hurrying down the stairway.—Chicago Tribune.

"The night my house burned, several years ago. I was taken with shortness of breath and palination of the beart," writes Mrs. Susan C. Tulloh, of Sulphur Mines. I could co., 'to. "These grew worse all the time, mill a few months ago. when I commenced the use of Dr. Pierce's medicales. Before that I could accurely eat anything." or work, and could raight, but I am well again, and I give Doctor Pierce's medicines all the credit.

""I took the 'Pavorite Prescription,' the 'Golden Medical Discovery' and 'Pelleta."

Dr. Pierce's Fazorite Prescription is a

Dr. Pierce's Favorite Prescription is a medicine for women only. It cures all forms of female complaint—stops back and side-sche—allays the inflamma—

sind side sche—allays the inflammation which causes those disagreeable weakening drains on the system—promotes regularity of the feminine functions, and makes painful periods a thing of the past.

Dr. Pierre's Golden Medical Discovery is a medicine for the blood, liver, lungs, and nerves. It cures all bronchial and throat troubles, strengthem

chial and throat troubles, strengthens weak lungs, stops bleeding from the lungs, and builds up the entire system. It purifies the blood, stirs up a lary liver,

lungs, and builds up the entire system. It purifies the blood, stirs up a lary liver, and soother abused, crying nerves.

Neither of these medicines contains any alcohol, whisky, sugar or syrup to preserve its properties, but both will keep perfectly in any climate.

Dr. Phrec's Pleasant Pellets cure constipation. They keep the bowels open and regular. They do not gripe.

When you sak a caler for these medicines.

When you ask a dealer for these medi-cines—get what you ask for. Substitutes are not as good. They are, at best, only imitations, and cannot imitate the cures wrought by the genuine.

26 FEET 9 INCHES

River Coal Combine.

Eastern capitalists are securing six months' options on all the mining and floating property owned by the Pittsburgh river coal operators. If the deal goes through, which seems probable, the resulting concern will be one of the most powerful combines in the country. It will control the coal markets of th

It will control the coal markets of the Monongahela, Ohio and Mississippi valleys. It is estimated that it will require from \$16,000,000 to \$20,000,000 capital to buy the various mines, railroad and steamboat property necessary.

A coal operator said that if the combine was a go, it would mean a saving of \$300,000 annually in office expenses alone, not only in Pittsburgh, but in the various office forces which the coal operators kep at Cinclinari and elsewhere. The business of the company would be transacted by one general office. Blank forms have been distributed to the various operators, who are required to make out a list of their various properties and the value thereof. The list includes retail depots, harbors and equipments, number of barges.

The list includes retail depots, harbors and equipments number of barges, model barges, fata, model barges, freight barges, acres of coal and where located, rallroad property and the value of each.

An operator explained that, the deal thus far had progressed in this manner: Each operator is required to make a statement of his property and its value. Then an agent asks what is the lowest price the property (can be bought for, and after this is mamed an option on the property for six months is taken. the property for six months is taken.

It is said that the combination of all the river and steamboat interests would not lessen the number of steamboats required to do the towing business of required to do the towing business of the three rivers. Cairo, however, would be the distributing point of all the coal sent to the Memphis and New Orleans markets, and the boats now in the Mississippi trade would not come further north than Cairo, the Pitts-burgh boats taking their tows to that place. More small steamers would be handled on the upper Ohio river, inas-much as it has been demonstrated that they can be worked to better advantage on this end of the Ohio than the larger ones.

It is figured that the organization It is figured that the organization could make 10 per cent on its investment, which is more than any of the operators are making now, it is asserted. It is also said that the operators have the option of taking cash for their property or stock, or both. It is also stated that every coal operator and owner of river craft has been approached and none of them has refused to enter into the preliminary negotiations.

Pittsburgh River News.

PITTSBURGH, March 30.—The three rivers are falling, the stage at the Davis island dam at noon to-day registering 17.4 feet. The river reached a stage of 18.3 feet at that place during the night. Business in the Monongahela river pools is greatly handicapped, as the boats are not able to bring coal out of the pools. Many of the towboats are going over the tops of the dams, some with empties. All of the packets ket and Sixth streets.

of the pools. Many of the towboats are going over the tops of the dams, some with empties. All of the packets are tied up, but it is supposed that the boats will be able to resume their trips some time to-morrow.

The high water caused some damage at Corks run. A portion of the abutment under the county bridge there was torn away. Traffic on the McKee's Rocks branch of the west end road was suspended for a short time, until a temporary structure was built. A stone abutment will take the place of the old suspended for a short time, until a tem-porary structure was built. A stone abutment will take the place of the old

The Ohlo is on a rampage from Wheeling down, and Pittsburgh tow-boats between there and Cincinnati age experiencing much trouble. There is a very swift current, and boats pushing tows up stream are being greatly detained.
