Mother-love is mixed with daily, hourly sorrows. The love increases with the sacrifice it entails. The more a mother suffers and endures for her little one, the more precious it becomes. She loves it because she has labored and suffered for it. The physical organs concerned in maternity affect a woman's entire constitution to a degree only half realized by many doctors.

by many doctors. Women are often treated specially for sick headaches, dyspepsia, melancholy, or what is supposed to be a liver or kidney affection or heart-disease, when in reality the whole trouble is with the reproductive organs. This delicate and intricate organism and its peculiar ailments are treated for the wisest physician a higher repute in this special direction, than Dr. R. V. Pierce, Chief Consulting Physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. His "Favorite Prescription," is the most perfect remedy ever known for all "female complaints." It gets at the source of the trouble from the inside. It is not merely temporary, external, local, blotting-out or palliative. It is a cure. It directly tones and strengthens the internal organs, restores them to health and regularity, and completely banishes the continual weakness, drag and drain which wear out body and mind. Its sale exceeds the combined sales of all other medicines for women.
