When I ask her to marry me she began to shrink like a flannel shirt.

That's an odd comparison. What do you mean?

Well, its true. She got up all around my neck.

An old sister was hearing her lesson in American history, the subject being the capture of Ticonderoga by Ethan Allen, who demanded the surrender "in the name of Jehovah and the Continental Congress." The sister asked, "What was the Continental Congress ?" and the child gave a satisfactory answer. "Who was Jehovah?" "Well, I don't exactly know. I think it was either Columbus or George Washington."

THE YOUGH PUMP.

Boyts, Porter & Co have been awarded a premium and a medal on their Yough pumps exhibited at the World's Fair. One of the pumps was in practical use from early in the spring until the close of the Fair, as a boiler feed to the immense battery of boilers which supplied power for Machinery Hall.

It was a 16x8x18 single doublegratifying official endorsement of the excellence of these pumps, not only as boiler feeds, but more particularly as mine pumps. The Yough pump stood in the forefront of the many mine pumps exhibited at the Fair. The pump is very popular in the Connellsville coke region, where its use both as a boiler feed and a mine pump is almost universal. The H. C. Frick Coke Company use the Yough mine pumps at all their works.

They are used in every part of tne United States and many are in use in the West Virginia mines.

There is one in use at a water works in China.

The Yough pump is an institution which reflects credit upon the enterprise and push of the manufacturers whose plant at Connellsville Pa., is one of the most complete in the country.
