THE YOUGH PUMP.

Boys, Porter & Co have been awarded a premium and a medal on their Yough pumps exhibited at the World's Fair. One of the pumps was in practical use from early in the spring until the close of the Fair...

It was a 16x8x18 single double-acting pump. The award is a very gratifying official endorsement of the excellence of these pumps, not only as boiler feeds, but more particularly as mine pumps.

They are used in every part of the United States and many are in use in the West Virginia mines. There is one in use at a water works in China.
