## FURNISHING A HOME

If you're thinking of building, or have built, bear in mind that however anxious you may be to have an exterior to be proud of, it's the interior that should most concern you.

There's where you live. There's where you eat, sleep, lounge, read and entertain your friends. There are formed those sentiments and influences which are all contained in one word of weighty significance—

HOME.

PRINDLE'S have made a careful study of that word.

Our merchandise is not merely a collection of Housefurnishing generalities, but a studiously assorted display of the finest, up-to-date that the Furniture country has produced.

### Carpets and Rugs

We have them, but that's two general. We want you to know that these Carpets and Rugs were selected for you; with the most careful regard for your wishes as well as to meet all the demands of your peculiar environment. You can't buy cheaper elsewhere; can't buy as well.

### Stoves and Gas Ranges

The wonderful past business we have experienced on Stoves and Gas Ranges is sufficient proof that we are selling our line of High Grade Stoves and Ranges at the right prices. We guarantee every Stove sold

to give perfect satisfaction in every respect, and if not we will replace same with a new one.

### FURNITURE

In Furniture we are always foremost in this territory. Not only do we have the largest assortment in the State, but the little fads and conceits that appeal to your taste for the "difficult" are always here. We mention one example—a magnificent Bed room Suite in figured walnut, one of the most up-to-date, artistic and all round high grade suites to be found anywhere.

### About Our Prices

We do not claim to sell our goods at what they cost us. We make something on everything we sell. But we don't believe in large profits. We believe in Honest Profits alike to the dealer and purchaser. When we sell a \$2 chair we want it to be the best chair that \$2 will buy. That's our style. Again we urge you to visit this store.

In our issue of the 15th ult. we stated that Rev. J. R. Campbell, of Ceredo, would conduct a series of meetings at the city hall, this place, beginning on the following Saturday evening. This was an error on the part of our informant and seems to have done the reverend gentleman a great deal of harm, inasmuch as it caused a number of people to go to the city hall when the minister knew nothing of the advertised meeting and of course was not present. Mr. Campbell informs us that he will conduct a protracted meeting at the city hall beginning on Wednesday evening of next week.

**Judge Keller to Hold April Term of Court.**

The host of friends of Judge Benjamin F. Keller in this and other cities where he is so well known and favorably thought of will be more than pleased to learn that he expects to return to the district in time to hold the April term of federal court in Huntington.

Clerk Edwin M. Keatley is in receipt of a letter written by Judge Keller at his camp in the west, in which he says that he will leave as his health has so greatly improved since his sojourn in the west he fully expects to be able to resume his duties as Judge of the Southern District in April.

When the letter was written the judge weighed two hundred and nineteen pounds and one quarter, and he expects to gain more before he leaves the country.

Judge Keller has been in the west for over a year owing to his health, but he now feels that he is stronger than ever before and is more than anxious to take up his court work again.—Charleston Mail.

### SENATE GETS BUSY.

The Upper House of Congress Rushes Its Work.

Washington, Feb. 25.—The senate today passed the agricultural appropriation bill carrying nearly \$10,000,000; the postoffice appropriation bill carrying \$210,000,000; the pension appropriation bill carrying \$145,000,000; and the bill authorizing the establishment of an agricultural bank in the Philippine Islands. The principal fight today was over the agricultural bill and took place on the Beveridge amendment requiring the packers to pay the cost of the meat inspection. This amendment was defeated on a point of order. Beveridge secured the adoption of amendments which requires the date of canning and inspection to appear on the label of each can containing meat products.

The postoffice bill passed in an hour and fifteen minutes. Amendments adding \$1,383,750 for the extension of the pneumatic mail service and requiring that postal cars be lighted with electricity were adopted.

Mr. Lodge secured the passage of the Philippine agricultural bank bill. An amendment to this bill was offered by Mr. Culberson declaring the intention of the United States to abandon the islands as soon as a stable independent government should be established was defeated.

The senate also passed a bill granting a service pension to army nurses. Those who are disqualified to earn a livelihood and have reached the age of 62 years are to receive \$12 a month, at 70 years \$15 and at 75 years \$20.

At tonight's session the senate passed 300 private pension bills clearing the calendar of such measures.

**The Legislature.**

Charleston, W. Va., March 4.—

The conference committee has completed about half of its labors and enjoyed a day of rest. It is understood the idea of give and take has marked the attitude of the conferees of both branches.

The geological survey has been the main point of difference. It is now realized an adjournment is impossible Monday.
