

## The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

**DR. PIERCE'S GOLDEN MEDICAL DISCOVERY** makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

## FALL IS COMING. BE READY.

WE DESIRE TO SAY to our regular customers and to others that may become customers that we are making ample preparations to take care of our fall trade. We have bought for early shipment an excellent line of Clothing, Shoes, Hats, Furnishing Goods, etc. It is hardly necessary to speak of the merits of our goods to our regular customers, as they are too well known to need comment.

If you really want cheap goods we have some of them, but we talk quality rather than prices. It is always safe to leave the price entirely with us, as we cheerfully refund the money for goods that do not give entire satisfaction.

By all means see our Fall line before buying your Fall and Winter Clothing, even if you are under obligations to buy elsewhere.

You want to be informed on styles, colors, etc., and the information will cost you nothing.

H. B. BAKER

HUNTINGTON, W. VA., June 23, 1909.

To the Public:

Since the announcement of the sale of the town site of Kenova, and the statement that a steel plant had been secured, it has been suggested by those who are not possessed of all the facts in regard to the matter that the steel plant may be only a possibility and not a certainty.

We wish to state that the representatives of the Independent Steel Company of America have been here, have looked over the ground, have selected forty acres of ground in the western part of Kenova, have agreed to occupy same with a steel plant which will in the course of a year employ at least four hundred men, and claim that in the course of three years they will have built and equipped a plant that will cost in the neighborhood of \$3,000,000.00. The contract for the buildings now required has been let to Messrs. Taylor and Robinson of Huntington. The buildings now to be built are to be of brick, and will occupy about ten acres. The management of the company assure us that the plant will be in operation by October first, 1909.

The contracts between this company and the steel corporation have all been agreed upon and signed, and satisfactory guarantees have been executed, insuring the completion and operation of the plant.

B. W. FOSTER,

President Kenova-Huntington Land Company.
