ARE BATHS NECESSARY? This looks like a foolish question in this enlightened age, but there are nearly a million Americans who knew nothing of Internal Bathing a few years ago and are now eager to testify that they are fully as essential to health as External Baths.

By a purely natural process of properly using warm water the "J. B. L. Cascade" removes ALL the poisonous waste from the Lower Intestine, which physicians agree is the cause of 95 per cent. of all human ailments.

It instantly relieves constipation, properly regulates the bowels and prevents all the dragging down which Biliousness and Liver Troubles always create.

Mr. Hugh Stipe, of Clearbrook, Va., writes: "I feel that I cannot praise the Cascade too much and think every one should have one in the house. I would not be without mine. I have only used the treatment since the last of March and I feel greatly benefited. I have not taken a purgative since then. My digestion is better. Don't have the headache half as much as I used to have. Will ever hold Dr. Tyrell in the highest esteem and would not be without his treatment. Yours truly."

Fairmont Pharmacy has filled a tremendous demand for J. B. L. Cascades in the past few years, and will show and explain it to you on request. A free and interesting booklet on Internal Bathing, "Why Man of Today is Only 50 Per Cent. Efficient," can also be obtained for the asking.

Special Fitting of Gossard Corsets Friday and Saturday, March 16-17

Through a special arrangement with THE H. W. GOSSARD COMPANY, of Chicago, we engaged Miss Towey, of their organization to assist our corsetiere in a special demonstration of the Gossard Corsets.

The radical change in styles this season from the slinker slouch to the erect, well-poised, somewhat military form, calls for considerable care and attention in the fitting of your new corset.

There is a decided tendency toward the adoption of a smaller waist this season and a fitted bodice, with a return to the full skirt of former periods. All of this has a direct bearing on your corset. Authentic information regarding these new styles is yours for the asking during this demonstration.

You can come and be fitted to any of the newer models and make your selection at a later date if you so desire. Whether you expect to purchase your corset at this time or not, we suggest that you arrange to attend this demonstration.

While the original front-lacing Gossard corsets sold at \$25 some ten years ago, increased manufacturing facilities and an international distribution have reduced the price until now you can purchase a Gossard Corset for as little as \$5.00, \$3.50 and \$2.00

It will be a privilege to serve you and to have you visit our Corset Department some time during this demonstration.

You May Choose Your Spring Skirt from a wide variety of different styles

More and more women are appreciating the splendid values we offer in our separate skirt department.

You will find any number of cleverly fashioned new spring models, in plain gathered and plaited styles with novel pockets and many new and unusual belt arrangements.

There are skirts of Black Taffeta, Navy Taffeta, Plain and Fancy Ponzees, Striped and Fancy Silks, French Serge, Wool Poplin, Plaid, Twills, Striped Velours, Checked Velours, Black and White checks.

A complete showing in all lengths and in waist bands from 22 to 40 inches, ranging in price from

Prices \$5.00 to \$17.50.

Spring Coats Are So Lovely many Women suspect high prices

On the contrary there are any number of brand new styles, exceedingly smart tailored coats, whose marking may be anywhere between \$10 to \$30. They are made of wool poplin or soft materials in every wanted color and their lines are fully as good as more expensive garments. They have many new features in the shape of collar, cuffs, sleeves, belt or pocket. In fact, the entire value of these coats is in the good materials and tailoring because, beyond stitching they are untrimmed.

Prices run \$10, \$12.50, \$15, \$18, \$20, \$25 and \$30.

The New Wirthmor Blouses Appeal to the Thrifty-Minded

A little over two years ago we met a man with an idea Today this man is the largest manufacturer of women's waists in America. We are proud to have been one of the first to appreciate and foster his genius.

This manufacturer, appreciating the extravagant waste of manufacturing distribution—expense of traveling men, introduction of new models, unsold garments, etc., made this proposal:

That he would send us weekly a certain number of new blouses, at least four distinct styles, that these styles would be the origination or adaptation of highly-paid designers, that they would be made from suitable materials and faultless in needlework. His saving in cost of selling enabled him to guarantee his output to equal or surpass any waists possible to be secured anywhere at similar cost.

Two qualities only were to be manufactured—

"Wirthmor" Waists at \$1.00. "Welworth" Waists at \$2.00.

We entered into this contract and almost immediately gained prestige which more than doubled our business in popular priced garments. We ask you to see these beautiful, inexpensive waists.
