WOMEN MEMBERS TO USE Y.M.C.A. POOL

Special Swimming Plans are Now Being Made for Them.

CAN YOU SWIM?

Swimming will probably be the feature at the Y. M. C. A. this summer, and the question, "Can you swim?" probably will be the most asked of any of the questions propounded by the members of the new women's quarters.

In their new quarters which will be built in the "Y" the women will have everything convenient, the rooms being so arranged as to open directly into the gymnasium and from there directly to the pool.

For the special benefit of the women's classes, special instructors will be secured for the swimming pool, and before the summer is over, it is hoped by the "Y" officials to have at least sixty per cent. of the women's membership skilled in the mermaid art.

Wesleyan Again Blanked in South

MACON, Ga., April 2.—Wesleyan college for the second time this season was shut out as a result of rotten fielding when yesterday afternoon Mercer University whitewashed the Rockingham boys 7 to 0.

In the sixth, as he was trying to tag a runner at the home plate, McClure was so seriously injured that he had to be replaced by Beck. Morrison was found for a total of ten hits while Stevens for the Mercer nine, gave Wesleyan but four scattered bops.

Colts Too Speedy For Has Been Team

Hawkins' Colts ran all over the Has Beens in the first of the indoor baseball games at the "Y" last night. The absence of Hamilton, the star pitcher for the Has Beens, was largely responsible for their defeat.

In the second game the Ruffs defeated the Clouters by a 16-3 score.

INDUSTRIAL FAIRMONT

The Shinnston Garage company has secured from the Standard Garage a sub-agency for Hudson cars and in the future the people of that community can place their orders without coming to the Standard which has previously had the exclusive agency for these cars.

An addition to the Willets Pottery company's plant on the East side is about completed and in a few days will be ready for occupancy.

T. L. Burchinal secured the contract for the alterations to be made in the residence of the First National bank property and work will be begun at once in order that it may be completed by the first of September.

NO HOPE FOR THE PIRATES AS PRESENT LINEUP STANDS!

MAMAUX IS A REMARKABLE YOUNG PITCHER AND WOULD DO EVEN BETTER IF HE COULD CONTROL HIS TEMPER AND APPETITE

By PAUL PURMAN

(The West Virginian Special Sport Writer Touring the Major League Training Camps to Size up the Teams as they Prepare for the 1917 Campaign).

COLUMBUS, Ga., April 3.—If the Pittsburgh club is to break into the first division this year the pitchers must come through with the same high class brand of pitching which marked their work last year and Manager Jim Callahan must strengthen his infield by 50 per cent. over what it has shown up to this time.

Pittsburgh should have one of the best pitching staffs in the league. There is Cooper, one of the best pitchers in the league in 1916, and Cooper looks like a repeater.

Mamaux is young—not yet 22—and he is likely to allow his youth to get away with him.

Mamaux has no really bad habits but he has temper and a temperament which he has never tried hard to control and he has a rather weak stomach, which is not materially helped by the practice he has of eating heavy lunches at night.

Callahan has two good looking youngsters in Carlson and Grimes, either one of which has the possibilities of former has been under the care of Dr. Biggs for a week.

Mrs. Will Arnett, of Little Falls, is the guest of her sister, Mrs. A. S. Helmick, on Maryland avenue.

W. J. McElhenny, of West Union, formerly of this city, was a business visitor here today.

Mrs. Vaughn Jolliffe, who had spent the last several weeks in St. Louis and Chicago with relatives, has returned home.

Mrs. Joseph Lehman and daughter, Miss Josephine, returned yesterday from Grafton where they had spent the week end with relatives.

Miss Josephine Ogden, of Chicago, Ill., is the very attractive guest of her sister, Mrs. O. L. Stannard, at her home in Third avenue.

Mrs. C. N. Martin and daughter, Miss Nellie, of the East Side, left today for Delaware, O., where they will reside.

Mr. and Mrs. W. B. Ice will return tomorrow from New York where the

a great pitcher if started in the right direction. The Pittsburgh catching staff is not brilliant, but it is steady and consistent.

The infield is Calaban's great problem. Warren Adams probably will be at first. He is a high class fielder and a mediocre hitter.

Callahan will also carry Al Ellis, a promising youngster, Carson Bigbee, who can play either the infield or outfield with a chance of one or two other youngsters staying for a short time.

Charles O. Anderson, of Walkersville, passed through Weston last week going to and returning from Prunty town. He didn't go there for reform, but to get some pointers on the raising of beans.

L. Stuart Riffe, of Rock Camp, Monroe county, 83 years old, has with his own hands grubbed and cleared two acres of land this winter.

Weston boasts of a cook who is rather extraordinary for a person holding such a position. Read the following from the Weston Independent of last week:

Wm. S. Jackson, the popular cook at the Camden hotel, gave his usual anniversary reception on last Monday night to a host of his gentlemen friends.

BITS OF STATE NEWS

The West Union Record is responsible for the following: "A foreigner brought from McClellan district to West Union last week and adjudged insane was taken to Clarksburg and detained in jail.

Alfred Simmon, aged 40 years, whose home is in Friendly, West Virginia but who for the past two weeks had been working at the Eagle and Manufacturing company of Weisburg was killed in a most unusual manner one day last week at Hannah's boarding house in the Fourth ward.

When you seek to find the best examples of unselfishness, go back into the hills of West Virginia where that far-famed native hospitality and the spirit of helpfulness have not been destroyed by too close contact with the urban communities of our country.

indications point to a busy season of back yard farming in Shinnston this year according to the Shinnston News. The unprecedented high price of food stuffs, including the commonest vegetables makes it necessary for the average family to utilize every available foot of ground for gardening purposes.

AN EXPERT ON COLDS

Comparatively few people realize that a cold is a signal of physical weakness.

To treat a cold with weakening physics, alcoholic syrups or drugged pills, may smother the cold but they also reduce the body powers still further and invite more serious sickness.

Scott's Emulsion has always been an expert on colds, because it peculiarly enriches the blood, quickly tones up the forces and strengthens both throat and chest. Try Scott's. Refuse Substitutes.
