

# OPENING

## Automobilists' Headquarters

We take pleasure in announcing that our splendid garage on Meredith Street opposite the Post Office is open tomorrow for the accommodation of the public.

We say "splendid" garage because that one word includes every little item that goes into the making of a satisfactory service for the automobiling public,—a public that is keen, intelligent and discriminating.

We serve a clientele of busy people whose minutes are valuable, and who will appreciate a garage service that is instantly at their command. Within three minutes' run of the principal business parts of the city, its convenient location is apparent at first glance.

We offer continuous service, a valuable feature for physicians, or the traveling public who very frequently find it difficult to obtain night service that can be relied upon. Our new garage is open day and night. There is no need to wonder if "they are in" or you can "get them". The night service will be as dependable as the day service.

An innovation that will appeal to the ladies is the rest room we have provided for them. Here we have made every provision for their comfort and convenience, and we pressingly invite every lady autoist of Fairmont and Marion County to make this her headquarters.

Every article on the autoist's want list is here. Gasoline, Oil, Batteries, Tires, Casings and Accessories of all kinds in stock, Repair Work, Vulcanizing, Washing done promptly. The service is superior, and we invite you to prove it to yourself.

As distributors for the Maxwell Automobile Company, we carry a large stock of parts all the time. Autoists will find it much better to order repairs and extra parts direct from us than from the factory. Skilled mechanics will attach new parts at reasonable rates.

We are also local dealers for the Maxwell Automobile, the car that has astonished the mechanical world with the efficiency of its engine, getting more miles per gallon of gasoline than any other car made. This is the car in which Dr. O. C. Hill got 34 miles per gallon, and A. G. Heck got 32.7 miles per gallon. 2040 contestants got an average of 29.04 miles per gallon in the national contest.

1918 Models on exhibit September 1st.

Prices: \$745 Touring Car or Roadster Body  
One Ton Truck Chassis \$865  
FOUR STYLES OF BODIES
