### S-L-I-P-P-E-R-S

is only another way to spell COMFORT.

When father gets home at night what does he ask for? When mother comes home after a hard shopping trip what does she first ask for—even before she hunts up a house dress.

And when the children get ready to settle down for an evening at home among the picture books, blocks and dollies, what do they do first thing? PUT ON THEIR SLIPPERS.

So Slippers Are Good Christmas Gifts.

because they symbolize comfort, good will and restfulness. This store is well supplied to supply the new kinds as well as the good old fashioned ones, but we must warn you to be prompt for some of the better kinds perhaps will not be here long and cannot be reordered.

## When Franklin Discovered Electricity

He discovered an element whose usefulness in providing for the comfort and welfare of the human race is greater than even we, two hundred years later can fully realize. Professor Fisher of Yale University says that when all homes are electrically light ed, cooled, cleaned, heated and ventilated, tuberculosis of the lungs will disappear forever. Hundreds of lives are being saved, thousands are being prolonged and millions are made happier by the use of this unseen, immaterial force of nature. But its value is no greater than the service which provides and distributes it.

## A Service Department That Actually Serves

The Monongahela Valley Traction Company maintains a corps of skilled electrical mechanics who are at the service of every person in Fairmont who uses or desires to use electricity. This is not a newspaper advertising statement, but a fixed policy of the company, and everyone is urged to avail themselves of the feature.

This service itself is free. All you need to do is to telephone. If your electric iron refuses to work, call Bell 1000, Consol. 423-Y. We will send for it and loan you another until your own is repaired. There is no charge for services, only for the material actually required.

If you contemplate wiring your house, our service department will give you the best advice and assistance obtainable.

If you contemplate electrifying your manufacturing plant, we urge you by all means to consult our engineers. They have made a specialty of studying the requirements of every business. They know the obstacles and how to overcome them, and you will find their advice will save you operating expense as well as installation expense.

For the home we have every convenience at our display room, First Street and Fairmont avenue. Washing machines, mangles, electric irons, electric toasters, electric heating pads, electric percolators, motors and what not, all of the best quality and guaranteed to be satisfactory. Courteous attendants will be glad to demonstrate any of these to you.

#### MURDER IN CLARKSBURG

CLARKSBURG, Dec. 8.—Louis Carboni was killed and Salvatore Nastasio was wounded in a Baltimore street speakeasy here last night when Frank Candler, a cousin of the murdered man, emptied the contents of an Automatic revolver into Carboni's body. Candler made a confession to the police when they arrived on the scene. He made no effort to escape. It is thought Nastasio was wounded by a stray bullet from Carboni's gun.
