

We Feel it Our Duty to Warn You—

that most of the imported toys will no doubt be sold before the final rush.

No toys have been imported from Germany this year and while we have as many as usual especially so in dolls, we know we will be literally swamped with customers as soon as the public is aware of this—

Most stores have none at all and those who have are asking exorbitant prices, while our stocks last prices will remain as moderate as ever. But we urge early choosing by those who DON'T want to DISAPPOINT the CHILDREN.
