

SHERIFF'S OFFICE HUNTS FOR DEAD MAN

Name of Decedent is on List of Draft Board

Twenty sheriffs are today hunting the young men who failed to report to the county district board for physical examination for the National army after their numbers had been drawn.

Trailing down their men the deputy sheriffs find that they have a dead man on their list. This party is Walter Gallahue of Union district, who expired after he had registered.

The men for whom the sheriff's office is looking for are as follows, the serial number being given first and the order number second:

- Johnnie D. Davis, Mannington No. 1, 555, 13, farmer. Pasquale Aloe, Annabelle, 1943, 23, coal miner. Elmo Blaine, Worthington, 199, 157, coal miner. Douglas Alexander (negro), 154, 1121. James Rogan (negro), Worthington No. 1, 93, 51, watchman. George Williams (negro), Worthington No. 1, 117, 75, trackman. Thomas Harden, Montana Mines, 2100, 68, coke drawer. Mike Mehlek, 2132, 108, laborer. August Dorch, Grant Town, 2476, 112, coal miner. Pilegrin Cittelh, Grant Town, 5502, 138, coal miner. Anthony Morris, Grant Town, 2434, 70, coal miner. Louis Trues, Grant Town, 2479, 115, coal miner. Ralph Constantino, Farmington, 741, 281, machine man, Jamison No. 8. Yaco Rieckreich, Farmington, 588, 128, miner, Jamison No. 8. Charles Marsh, Worthington, 221, 179, Western Maryland railroad laborer. Albert Williams, Watson, 1896, 101, B. & O. section hand. Joe Augustine, Monongah, 1682, 68, B. & O. railroad laborer. Robert Arthur Ball, Watson, 1891, 96, B. & O. section hand. Henry Bennett, Watson, 1894, 99, B. & O. section hand. John Speer, Farmington, 848, 20, laborer, Ida May mines. Lloyd Shaubka, Worthington, No. 2, 926, 98, coal miner, Carolina mines. Mike Kalls, Worthington, 900, 72, laborer, Carolina mines. Mark Fola, Worthington, 927, 99, loader, Carolina mines. Gueseppe Anvalo, Monongah, 1626, 12, laborer on tippie. Mike Cabolich, 134 Center street, Monongah, 292, 21, coal miner.

NEW CHURCH

(Continued from page 1.)

the basement from an inclined floor-way and no steps stand out as a barrier to convenience.

The church which stands at Jackson and Jefferson streets is built of Kingswood stone—a quartzized granite, which has all of the advantages of granite. The trimmings are of Indiana limestone. The church really has its main entrance on Jackson street and extends along that thoroughfare 82 feet and has a frontage of 118 feet along Jefferson street.

One of the features of the church is the indirect lighting system, which is especially praiseworthy. Right in the centre of the roof of the church there is a handsome dome. This is one of the prettiest in the state of West Virginia. It cost more than \$5,000. The Gothic system of architecture is carried out to the letter and everything goes to indicate that the church has been well planned. The lighting system was installed by the National X-Ray Company large rich colored plate glass windows and to the rear is a third one repre-

LOCAL SOCIAL EVENTS

Entertained Circle. The Hope Circle a popular organization of young women was delightfully entertained last evening by Mrs. Cliff Perit at her home on Chicago street.

senting the biblical saying of The Savior, "Come Unto Me." This painting was executed by The Von Gerich-ton Art Glass company, of Columbus, Ohio.

The floor is covered with Whitall's carpet furnished by J. M. Hartley & Son. The pews and furniture were secured through The Dittmar Furniture company of Philadelphia.

The pipe organ, which had been in the former church on the site, has been installed, but the First Presbyterian congregation plans for a new instrument in the future for they have already at both ends of the church with that thought in view. Interstices for echo organs are also provided. The organ is placed immediately in the rear of the pulpit.

The church is provided with a boiler and plant by the Kanawha Heating company, which will be heated by natural gas, but provision is made that coal can be used if the necessity arises. The actual work of the installation of this plant was done by the Wiedebusch Plumbing company of Fairmont.

To the east of the pulpit lies the session room, which is seventeen feet square and the library is found at the entrance to the Sunday school room from Jefferson street. The choir room is directly above the session's room and the pastor's study is located over the entrance to the church at a point where the main tower is located.

The basement of the church is most complete. A social room is provided which will seat 300 people at table. Nearby a kitchen is provided together with all of the necessary culinary equipment. Included among these is a range and steam table. A ladies' parlor, 20 feet by 32 feet, is provided, and already the ladies are making arrangements to equip this very elaborately. Midway between the social room and the ladies' parlor there is a stage erected and this will be used whenever children's entertainments are held instead of having them in the church proper. A committee room is also in the basement and the unique feature about it is that it is possible to leave it at the level of the sidewalk and step directly on to the street.

When it comes to modern Sunday school ratings First Presbyterian congregation has a big A for its many rooms and study apartments are patterned after the ideal and for this reason it may be stated that it positively has the last word in Sunday school arrangement. Its spacious room is 35 feet by 90 feet. In the basement is found the beginners' room. Here the children of the kindergarten are quartered in a room thirty-five feet square. Children under six years of age are enrolled here. One of the little pleasing features to the eye in this department is a fountain, which is the creation of B. L. Butcher. Aside from the room of the main school the primary department occupies four rooms; the junior department five rooms; the intermediate department four rooms and on the main floor other classes meet. On the balcony floor there are fourteen class rooms, one of which is at present occupied by the Men's Bible class taught by Commissioner Ira L. Smith, which is one of the most popular classes. Many of the members of other denominations attend this class.

Directly above the balcony there are two rooms that are each thirty-five feet square. One of these will be occupied by the Boy Scouts and the other one will be utilized by the Girls' club.

The main tower on the church is ninety-seven feet high and an opening is left for the chimes, which in all probability will be secured at some future time. The big tower is at Jefferson and Jackson streets, but there is a tower at a point between the Sunday school room and the church entrance along Jefferson street. A third tower rests at the eastern end of the church. The roof that covers the edifice is of Spanish red tile.

On the site where the new church stands there have been two churches. The one erected in 1878 and the present one. Prior to that the church stood on the present site of Hotel Manley in 1851, which was superseded by an edifice on the same spot, which dates back to 1821. The congregation was organized in 1815.

The building was erected by Contractor John M. Kiser, of the East Side, a member of the congregation, and the architect was H. W. Nicklas, of Cleveland, O.

The members of the building committee are as follows: J. Walter Barnes, chairman; H. B. Hungerford, W. S. Pitzer, J. G. Smith, Mrs. Edwin Robinson, Mrs. Hugh F. Smith.

At the present time the congregation is waging a campaign to clear off the remaining church debt and thus far the movement is proving to be very successful.

The corner stone of the new church contains the four dates in which the stones of the various churches of the congregation were laid.

Dedicatory services will be held tomorrow morning at 10:45 and in the evening at 7:30 there will be an interesting service which will be largely attended by the people of other congregations.

PERSONALS

H. C. Sample, former newspaperman of this city, who had spent the past week here, on business leaves tomorrow for his home at Laurel, Md.

Miss Marian Grace Pettit of Mannington is the guest for a few days of her aunt Mrs. L. N. Wetzel.

L. N. Wetzel spent today in Mannington on business.

Mr. and Mrs. Fred Kahr formerly of this city now of Mt. Vernon, O. are guests at the home of Mrs. N. R. C. Morrow on Locust avenue.

Mr. and Mrs. W. H. Himmel and son Paul have returned from a visit with relatives in Parsons and Hendricka.

Rev. H. B. Moose of Tunnelton was the guest this week of Mr. and Mrs. E. W. Toothman at their home on Pennsylvania avenue.

Dr. Phoebe Moore of Mannington was a visitor in the city yesterday.

Dr. Howard Burns and daughter Miss Virginia Burns of Coraopolis, Pa., are visiting relatives in this city for several weeks.

Chester Shinn of the Consolidation Co., is spending a few weeks vacation fishing in the Shenandoah Valley of Virginia.

Mrs. Pearl Fear of South Dakota is here on a visit to her mother, Mrs. Olive M. Arnett on Lowell street and her sister Mrs. O. F. Lough on Carleton street.

Mr. and Mrs. E. Helen Hutchinson and son Frank E. Hutchinson of Logan, W. Va., have arrived here and are guests at the home of the former's parents Mr. and Mrs. C. E. Hutchinson at Sonneckcroft. Mrs. Hutchinson and son will spend several weeks here.

Home from Wedding Journey. Dr. and Mrs. Charles Baird Mitchell whose marriage was an event of early September arrived home last night from an extensive wedding journey to points in Canada. They are at home in the latter's parents' home and Mrs. A. B. Fleming on Jefferson street until the first of the year when they will move to their new residence on the Country club drive.

Whitwell, Tenn.—Mrs. G. P. Cartwright, of this place, writes: "About four years ago the dizzy spells got so bad that when I would start to walk I would just pretty near fall. I wasn't past doing my work, but was very much run-down."

I told my husband I thought Cardui would help me, as a lady who lived next door to me had taken a great deal, and told me to try it. This was when we were living in Kentucky.

My husband got me a bottle and I took it according to directions. It helped me so much that he went back and got me another bottle. I got a whole lot better and just quit taking it. I got over the dizzy spells. I took no other medicine at that time nor since for this trouble. No, I've never regretted taking Cardui.

I felt just fine when I finished the second bottle.

Purely vegetable, mild and gentle in its action, Cardui the woman's tonic, may be the very medicine you need. If you suffer from symptoms of female troubles, give Cardui a trial. All druggists.

Department Meeting Monday. The Literature and Art Department of the Woman's Club will hold its first meeting for the official year on Monday afternoon at 3 o'clock in the Masonic Temple. Prof. Walter Barnes of the Normal school faculty will address the department on subject "Literature and Life."

G. Wilson is chairman of the department. All members and prospective members are urged to attend the meeting.

Catarrh of Stomach

Mrs. Mary Fennell, R. F. D., P. O. Box 10, Missouri, writes: "I wish to say a few words in the praise of Peruna. I have used it with good results for cramps in the stomach. Also found it the very thing for catarrh of the head. My sister was cured of catarrh of stomach by the use of Peruna."

Mrs. E. T. Chomer, 69 East 42nd St., Chicago, Ill., says: "Manalim best laxative on the market for liver and bowels, very good for indigestion and heart burn."

Those who object to liquid medicine can secure Peruna tablets.

A Wonderful Bargain If you are Piano Hungry

The arrival of two sample player pianos made by the famous Smith & Barnes piano makers of Chicago, enables us to offer you something of unusual value in a player piano. There are only two of them on our floor, and whether you buy or not, we want you to see them.

Specifications

One is a deep rich mahogany case, the other a beautiful, high finish oak. Both are 88-note players, brass trimmed. The action is a standard player action as far as noiseless as it is possible to make five point motor, and the tubing throughout is metal, and will last a lifetime. No replacing of rubber tubing in a piano of this character. Copper wound strings are an example of the high construction and workmanship throughout. For ease of playing either by hand or by the player, it does not have a superior.

TERMS

We are making a special price on these two sample pianos, and the terms are anything within reason that the buyer wants. We give free 18 rolls of music, scarf and bench. Come in and hear the tone of these instruments and let them demonstrate their own goodness.

C. A. HOUSE CO. 119 Main St. Frank M. Sharpe, Mgr.
