Immediate Results In Hair Growth

"THERE'S A SURE AND EASY WAY OF HAVING BEAUTIFUL HAIR," SAYS VALESKA SURATT, THE MOVIE BEAUTY-FAVORITE.

BY VALESKA SURATT. **M**EAASURE the length of your hair today, use the formula I give you here, and then measure your hair again in 30 days. The difference will startle you, feel sure. You are an exception if you have not at some time used something for your hair. In trying this you will realize the reason for my urging you so strongly to try it. If you have never used a hair-grower it will also pay you to use it. Go to your druggist and get one ounce of betaninol and mix it at home with a pint of water or a half pint of alcohol and half pint of water if preferred. It contains no oil and is a delight to use. It should be applied every day to get results. Bald spots will fill out quickly, and the hair will take on a new, beautiful lustre. This mixture gives intense stimulation to hair growth. The formula given makes a very economical hair grower, more effective and much less in price than hair treatments sold in ready prepared form.

DISGUSTED—You are no different from other women. You want to be sure to get rid of wrinkles and you want to do it quickly. That can be done will be proven to you in an astounding way in a short time, if you will make up the following cream at home by mixing two ounces of opol and two tablespoonsful of glycerine in a half pint of water. Fifty cents at the drug store will get enough opol to make over a pint of this remarkable wrinkle remover. Here is your chance to make your friends "take it all back."

RETIRING—Just moisten those hairs with some sulfo solution, and in a few moments on bathing the skin with water you will be startled to see that every trace of hair will be gone. This preparation is delightful because it is safe and leaves the skin soft and smooth. It is all ready to use, and there is nothing to get ready. It never falls even on the heaviest growth, and delicate skins may be treated with it with perfect safety. A hair-free skin is always a delight. The sulfo solution will cost one dollar at any drug store.

MISS T. H. Y.—Take a hot wet cloth and sprinkle some powdered norexin on it, then rub the blackheads with it. You will be astonished to see them all disappear in a few moments. You can get enough of the norexin for fifty cents at any drug store to last a long while.

MRS. H. C. E.—If it should occur again that you can not get the betaninol for the hair and the opol for wrinkles, send fifty cents, which is the price of either, to my secretary, addressing, "Secretary to Valesska Suratt, Thompson Bldg., Chicago," and you will be at once supplied by mail.

GERTRUDE F.—I know your difficulty in getting face powder free from chalkiness. I want you to try the new powder made after my own formula, and now sold in drug stores as "Val's Sun Face Powder," at fifty cents, in flesh, white or brunette tints. It is finer than any imported powder, invisible, and gives the complexion an incomparable charm.

By the new Nemo Back-Resting invention, which reinforces weak muscles and strengthens the back. The sketch illustrates—

- 2—The flattening effect of the Back-Resting feature is very noticeable. It also improves the poise.

WEST VIRGINIA FOLKS, ATTENTION!

Auto-Intoxication.

The victims of auto-intoxication are many thousand every day. By reason of the toxins, or poisons bred in the intestines, these poisonous bacteria are sent all through the blood channels and the victim feels tired, sleepy and headachy, or the brain doesn't work as usual. The best treatment for this is to drink hot water before breakfast—plenty of water all day and procure a simple laxative.
