

LONDON HEARS CROWN PRINCE'S ARMY HAS BEEN DESTROYED

UNION MINERS HOLDING SCALE CONVENTION HERE

Meetings at Willard Hall Are Expected to Last Several Days.

MOTHER JONES HOT SHOT

W. M. Rogers Makes Plea for Big Labor Day Celebration.

The scale convention for the mines of the Fairmont field which have no contract with the United Mine Workers of America is being held at Willard Hall this morning, and opened at 10:30 this morning. The morning session was devoted to the adoption of the call, the filing of credentials and addresses by "Mother" Jones and W. M. Rogers, president of the State Federation of Labor.

Frank Keeney, president of District No. 17, which includes the Fairmont-Clarksburg field, the Kanawha and tributaries field, excepting New River and Loup Creek, the Pomerooy field of West Virginia and the Guyan River and Norfolk & Western to Bluefield and the Big Sandy of Kentucky, called the meeting to order. P. F. Gallens, international board member for District No. 17, acted as secretary in the absence of Mr. Mooney, who is expected to be here on the morrow.

Committees were appointed as follows:

Resolutions: Sam Ballentine, Dave Fowler, Charles Gillespie, W. F. Gould and Isaac Straight.

Rules and Order: Ira Marks, Joe Angelo, Albert Holzhauser, Steve Vass and W. M. Williams (colored).

The call for the convention adopted at the morning session read:

"To all local unions throughout the Fairmont field of district No. 17 U. M. W. of A. who have no contract, greetings:

"This is to officially notify you that the Scale Convention of District No. 17, U. M. W. of A., will be held in the city of Fairmont July 25, 1918, at 10:00 A. M., in Willard Hall. Representatives to the convention shall be elected directly from the local unions they are to represent, and shall have one vote for each 50 members or less, or a major fraction thereof, but no delegate shall be allowed more than five votes.

"In case your charter has not been received, have two witnesses sign the credentials who are members of your local union.

"No delegate will be entitled to represent or cast more than five votes, but this does not prohibit two or more local unions from combining to elect a delegate provided such delegate does not represent more than five votes."

"Mother" Jones' address was filled with interesting discussion of social and economic questions, as well as talk on coal mining and union organization.

W. M. Rogers made a plea for a big Labor Day celebration in spite of the fact that coal operators were opposed.

(Continued on page eight.)

COAL CAR SUPPLY AGAIN FALLS OFF

Only About a Thousand Hoppers in The Region Today.

The car supply in the Fairmont region took another slump today and the number of cars available was but 1,067. This is not enough to keep the region upon its toes, even with the present depleted labor condition.

Coal Notes.

Clarence D. Robinson, Harvey Stagers and T. S. Neptune were Fairmont coal men in Clarksburg Wednesday.

The Beaver Coal Company, which now operates a wagon mine at Weaver, in Barbour county, expects to make a triple mine out of the property shortly. The side track is now in and work is proceeding on the triple.

The Lynch Coal Company, of Horner, between Weston and Buckhannon, of which P. J. Lynch, of Blue Jay, W. Va., is a leading spirit, has 1,300 acres of Redstone coal which will be opened in the near future. The tippie is now being erected. The Redstone vein there is five feet thick though it is seven and eight feet in depth at some points, and six feet at Century, in Barbour county.

C. W. Ferguson, the deputy inspector for the Buckhannon sub-district, was seen at Buckhannon Tuesday night, and stated that he was receiving the heartiest co-operation everywhere. He began his new duties July 15.

J. Walter Barnes is attending the gas meeting at Huntington. He left Fairmont last night, accompanied by Sapper Coleman, one of the oratorical returned soldiers.

Something unusual developed at the special session of circuit court this morning when three bills of complaint were filed by the West Virginia Gas Company against Corbin C. Shroyer and A. Wayne Shroyer, Elmus F. Richardson and Newton Jones to compel them to let the company place meters on their gas lines.

The company, which is represented by Attorney H. H. Rose, bases its stand on the direction of the Public Service Commission in 1916, which requires the company to make an accurate return of all gas production, and especially the so-called "free" gas, which is given to persons on whose premises gas is found.

The majority of the leases provide "free" gas to the owners of premises where gas wells are developed, covering the gas for fuel and lighting purposes for a dwelling house.

The company has made an effort to place the meters on private lines to ascertain the amount of gas that is being used and there are a number of owners who have forbid them to do so.

This series of suits will bring forth an opinion from the Marion circuit bench. Only one similar case has thus far developed, and that was in Lewis county. This case, however, was settled before Judge Haymond Maxwell.

DON'T WANT THEIR FREE GAS MEASURED

BUCKHANNON AND TYGARTS VALLEY COAL MEN ALERT

Are Doing Their Level Best to Help Win the War.

INTERESTED IN BIG ASSO.

Will Dissolve Their Local Organization And All Join It.

(Special Dispatch to West Virginian.)

BUCKHANNON, W. V., July 25.—E. D. Baker, president of the Buckhannon-Tygart's Valley Coal Operators' association, who has been prominent in connection with the working out of the many vexing problems which have confronted coal operators in northern West Virginia, has mines eight miles from here which are known as the French Creek Fuel company.

"I was greatly inspired by the talks of Messrs. Morrow, Neale, Calloway and others at the mass meeting of coal operators held at the Fairmont County club July 12," he said last night, "and I am satisfied that when the seriousness of the situation is recognized by miners and coal operators generally the output of coal will be still further increased where such a thing is possible."

"I find that members of the Buckhannon-Tygart's Valley Coal Operators' association with whom I discussed the matter prior to the Fairmont meeting and since that time are very enthusiastic regarding the Northern West Virginia Coal Operators' association, the organization of which is now being perfected," he continued, "and we are so certain that the broader and bigger organization is going to fill the wants that there is already under way a movement looking to the dissolution of our local association. The operators in this section intend to give their undivided support to the new organization."

"The coal operators of this portion of West Virginia have set their heart on getting out more coal and winning the war. The miners are equally enthusiastic in this regard. There seems to be perfect harmony from the miner right up the scale to Dr. Garfield, including bosses, superintendents, managers, inspectors and operators."

"Upsur county coal development began about eighteen months ago," continued Mr. Baker when questioned. "The Pittsburgh, Redstone and Freeport veins are being operated in this county. There is little new development under way at this time owing to the inability to get sidings but there will be a great deal of development when conditions once again favor such a course."

"The great drawback at this time is the scarcity of labor. The coal mines are not the only sufferers. The lumber mills are only operating about half of their plants at this time and there is no industrial line in this section which has a surplus of labor or anything like it."

Mr. Baker's mine is on the Coal and Coke railroad and the Freeport vein is being operated. The nearest mine to Buckhannon is the Red Rock Fuel company, five miles out on the Baltmore and Ohio, of which George DeBolt, of Fairmont, is the moving spirit.

There is quite a bit of coal in Upshur county which has not yet been disposed of. There are big acreages in the vicinity of Buckhannon owned by the Posts, Maxwells, Hefners and Leonards, while there is quite a block around Alexander in the southern end of the county and various lumber companies have big holdings. Coal land is bringing \$150 to \$200 an acre for the Redstone vein.

The Buckhannon-Tygart's Valley Coal Operators' association has forty-two members and was organized January 1 last. E. D. Baker is president and James E. Shinn, formerly of Fairmont, is secretary. The membership covered Upshur, Barbour, Lewis and Randolph counties.

WANTED—Reliable men to work on ice wagon. Apply City Ice Co., Merchant Street.

Laborers Wanted in Shipping Department, Apply, Owens Bottle Machine Company.

Boy Wanted Bright boy to work in printing office. Good surroundings. Opportunity for a boy who will stick to the job. Apply Mr. Maple, West Virginian Office.

New Record for Building Destroyers

(By Associated Press)
WASHINGTON, July 25.—A new world's record in destroyer construction has been established at the Mare Island (California) navy yard in the commissioning of the Ward 21 days after her keel was laid, the Navy department announced today.

The Ward was launched seventeen and a half days after the first plate was laid. Formerly it required 24 months to construct a destroyer in this country.

NORRIS CONFESSES TO KILLING LEWIS

Entering a plea of guilty to murder in the second degree Robert Norris, colored, was sentenced today to serve nine years in the State penitentiary at Moundsville by Judge Haymond at a special session of circuit court.

Norris was charged with having shot and fatally killed another negro by the name of Fred Lewis at the Baltimore and Ohio roundhouse in this city. Both men were presumed to have been drunk.

At the time sentence was passed Norris was represented by Attorneys Charles Powell and L. C. Musgrave. Prosecuting Attorney W. R. Haggerty represented the state.

One of the peculiar incidents of the case was that two negroes who were eye witnesses, and were detained by the authorities as witnesses were incarcerated since the latter part of May.

The case was postponed at the June term of circuit court because of the absence of important witnesses for the defense. The colored gentry were beginning to get good and sore because of their failure to give bond in the sum of \$1000 they had to be filed. In view of the existing circumstances the state decided to take a second degree confession. The sentence ranges from 5 to 18 years and Judge Haymond broke the maximum in half and gave Norris nine years.

CASUALTY LISTS BEGIN TO SWELL

WASHINGTON, July 25.—The army casualty list today shows, killed in action, 32; died of wounds, 6; died of disease, 3; died of accident and other causes, 3; wounded severely, 123; wounded slightly, 1; wounded degree undetermined, 16; missing in action, 2; prisoners, 2. Total, 188.

The list includes: Killed in action, Corporal Charles McMullen, Spencer, W. Va.; John R. Mullen, Lorraine, O.; Albert Popp, Norwood, Ohio.

Wounded severely, Warren Eckhart, Lansdale, Pa.; Jules Wargo, Monessen, Pa.; Clifford R. Meyers, Mason, W. Va.; Albert Williams, Sciotoville, Ohio.

The Marine corps casualty list today shows, killed in action, 20; died of wounds, 3; wounded severely, 35; missing, 3. Total, 64.

The first list dated July 22 includes: Killed in action, Corporal Francis E. Williams, Alliance, O.; Private Raymond J. Cahill, Manayunk, Pa. Wounded severely, Private James W. Kaiser, East Liverpool, O.

The second list, dated July 23, includes, killed in action, Private Ernest H. Baier, Mason county, W. Va.; wounded severely, Sergeant Irwin Danford, Quaker City, O.

Bloodhounds Figure In Boys' Arrests

Bloodhounds recently purchased by Sheriff A. M. Glover did effective work yesterday when they led to the arrest indirectly of three boys, Albert Hager, Earl Litley and Lorraine Patterson, of the East Side, who are charged with stealing junk from the shop of I. Punt. Deputy Sheriff W. E. Harris had charge of the dogs which got the trail to an Italian's shanty. There the officers found that an Italian boy had followed the alleged culprits and had chased back. He led the officers to the point where they had hid their booty. Later the boys tried to sell the same junk to Punt and were nipped. They are being held before Justice Conway who will certify the case to Judge Vincent's Intermediate court.

Plenty of Youngsters Want in Marines

The United States Marine Corps must certainly be a favorite branch of service with the seventeen year old boys in Marion county and vicinity, or at least this is the impression formed by Sergeant George W. Mains, the marine recruiting officer who has just opened a recruiting station in the Nuzum building on Jefferson street. Despite the fact that the age for enlistment in the marine corps is from 18 to 36, any number of young boys have applied at the recruiting station for enlistment. Sergeant Mains has congratulated them for their patriotism.

This morning Sergeant Mains exercised with the scrub brush getting his new recruiting office cleaned and ready for business. Before noon today the scrubbing had been done and the rooms were ready for inspection.

AMERICAN SUB SHELLED BY AN ALLIED VESSEL

Yankee Craft Popped to the Surface in Suspected Water.

SUBMARINE WAS HIT

But Merchant's Shell Did Not Explode Fortunately.

(By Associated Press)

WASHINGTON, July 25.—An American submarine has been fired upon by an allied armed ship of the New England coast. The submarine was only slightly damaged and a naval tug is towing it to port.

Reports to the Navy department today said the submarine, which was cruising submerged, suddenly appeared near the allied ship and the latter opened fire.

The scene of the attack was not far distant from the water in which a German submarine recently appeared and when the American submersible came to the surface the captain of the allied ship assumed that it was an enemy vessel preparing to attack him.

Only one shot hit the submarine which quickly made known its identity when the allied ship began to fire. The shell struck on the deck near the conning tower denting several plates. It was announced that the vessel could be repaired in a short time.

The Navy department later issued this formal statement:

"The Navy department is informed that a United States submarine was fired on by mistake by an armed merchant vessel on July 23 off the American coast. One shell penetrated the outer hull of the submarine, but did not explode. No one aboard was injured and the submarine proceeded to her base under her own power."

Fairmont Sub Region Business Men Here

At the rooms of the Fairmont Chamber of Commerce in the Watson building this afternoon the Fairmont sub region committee on war resources and conversation is in session. R. T. Cunningham, chairman, is presiding.

Monongalia county is well represented there being J. L. Keener, Col. E. M. GGrant and M. R. Warwick, of Morgantown in attendance. Taylor county is not represented, but the GGRAffon business men are wide awake and have sent in their share of the money to maintain a sub district office. The other counties are doing well. Preston county was not represented today.

Here's a Chance for a Turk to Do a Bit

Red Cross headquarters is in need of an interpreter, or perhaps it would be more accurate to say, in need of interpreters. The Home Service department which in the course of its duties acts as a go between for people in foreign countries and people here in America must know just what the letters contain so that it will not get into trouble with the censors of this or foreign governments. Just at present it has on its hands one letter for Austria and another for Turkey and it needs some one who can read them and who will volunteer to serve in a similar capacity from time to time. Any who can do this will confer a favor upon the officers of the Fairmont chapter if they will get in touch with Red Cross headquarters in the City Hall.

ALL REGISTRANTS HELD FOR ARMY

Registered men of neither the 1917 or 1918 classes will be released for enlistment in the navy, marine corps or the emergency fleet heretofore. An order from Charleston this morning was received by the local draft board asking that no more releases be given.

The telegram which is and which will be of much interest to many local young men who have been waiting to enlist in the navy or marine corps reads as follows:

"All local draft boards shall refuse to release to the navy, marine corps and emergency fleet all registrants of the 1917 or 1918 classes who have been or will be classified in Class 1 until a sufficient number of physically qualified Class 1 registrants are in sight to fill promptly all calls up to August 31 with generous allowance for men rejected at camp. This applies whether registrants have been finally classified or not."

The order is likely a safety measure to assure that there will be enough Class 1 men to fill the big calls which are coming for next month. Doubt is expressed in the telegram as to whether some boards will have enough Class 1 men physically qualified to fill the August calls.

CARS START ON NEW LINE TOMORROW

Forty Minute Service as far as Willett's Pottery.

Regular service on the Norwood loop of the Monongalia Valley Traction company as far as the Speedway corner near the Willett's pottery will begin tomorrow morning.

Ballasting has not been completed all the way out the Speedway, but work on this is going ahead with all possible speed, and it was said at the office of General Manager E. B. Moore this morning that it was the expectation to have the cars operating all the way to Norwood before very long.

For the present one shuttle car will be operated on the new line from the corner of Merchant street and Morgantown avenue, giving a forty minute service and connecting with the regular East Park cars at the transfer point, Merchant street and Morgantown avenue.

From this point the new line runs by way of Merchant, Market and Haymond streets and Morgantown and East Park avenues.

The car making the connection will be marked "East Park and Fair Grounds" instead of "East Park."

The operation of the new line will be of great benefit to the many residents of the Morgantown avenue section and for the employes of the Willett-Clay Company plant.

SOME SPRING WATER IS VERY DANGEROUS

Investigations which Dr. H. L. Criss, Fairmont health officer has been making have confirmed the suspicion that some of the typhoid existing in this city came from infected springs and an effort will now be made to prevent the public from using the water of springs that produce water deemed to be dangerous to the public health.

To that end Water Commissioner Smith today is trying to make arrangements to have bacteriological tests made locally either at the splendidly equipped laboratory which the Consolidation Coal company maintains here or at Cook hospital where the equipment is especially adapted to that kind of work. When arrangements have been completed tests of the city water will be made every day or so and the results printed in the newspapers for the guidance of the public. Water from the springs roundabout will also be tested and dangerous springs will be closed.

The city water is believed to be entirely safe now, but it will be advisable for the public to boil all of it used for drinking and in cooking until further notice. Samples of the city supply have been sent to the state chemists and a report on it is expected either today or tomorrow.

City Will Have Frequent Tests Made of Local Water Supply.

Rotarians to Dine at 6 Prompt Tonight

The Fairmont Rotary club will hold its regular weekly meeting this evening at the Country club. The meeting will be the regular business meeting and matters of importance will be considered.

Automobiles will assemble in front of the court house at 5:30 o'clock, convey the members to the club, luncheon will be served at six o'clock promptly. Heretofore the luncheon has been served at seven o'clock. It is probable that some out of town guests will be entertained at the club this evening. Fried chicken will be the principal item in the menu.

ALLIES PUSH ON THREE MILES IN PAST TWO DAYS

Germans Making Desperate Efforts to Keep Pocket Open.

PERSHING REPORTS GAIN

Teutonic Counter Attack in Region of Dorman Was Repulsed.

FRENCH HEADQUARTERS IN FRANCE (via Ottawa) July 25—

French troops are now within three miles of the town of Fere-en-Tardenois, in which is the meeting point of eight roads.

It is the center of the German communication in this region. The town is being heavily shelled daily, and bombs are being dropped by ten allied air squadrons.

WITH THE AMERICAN ARMY ON THE MARNE (1:30 P. M.) July 25 (By Associated Press)—

American troops this morning advanced their lines north of the river Marne more steadily. The Germans continue their retreating movement to the north.

The French and Americans also made gains on other parts of the 55 miles of battle front. The Germans viciously resisted in a majority of cases.

LONDON, July 25—The Fall Mail Gazette says that rumors or current that British troops have made a great advance in the direction of Flanders about midway between Rheims and Soissons. It is also reported that French forces have advanced on another part of the Aisne-Marne salient and that the armies of the German crown prince have been placed in a position out of which it seems to be impossible to extricate them.

WITH AMERICAN ARMY ON THE AISNE-MARNE FRONT, Wednesday July 24, night.—(By Associated Press)—

With their lines of communication reduced by operations on their flanks and their rear north of the Marne being constantly pushed the Germans have been forced to give up more territory. The French and American troops rested tonight some distance in advance of the point where they started this morning.

WASHINGTON, July 25—Further progress by the American forces in their attacks between the Croupe and the Marne is reported by General Pershing in his communique for yesterday, received today at the War department.

Northwest of Jaulgonne American troops penetrated the enemy position to a depth of from one to two miles.

LONDON, July 25.—Nine divisions of reserves from the army of Crown Prince Rupprecht of Bavaria and a division from the eastern end of the line have been rushed to the aid of the German Crown Prince. But says the Soissons and Rheims, but says the Soissons correspondent with the American troops in France, the Germans may well hesitate to push more troops into the already crowded salient since the difficult they have of feeding those already there. German resistance on the southern sector of the salient has been reduced to a mere shell it is added and the enemy doubtless is concentrating efforts on keeping open the northern outlet of the salient.

The allied drive toward Cully in Chateau not only threatens the enemy communication with Fere-en-Tardenois, but is a serious threat for the German troops around Eples where line of retreat would pass through Fere.
