A \$1,000,000 moving picture corporation, to be known as the Golden Production Company, with studios in San Mateo county and the head office in San Francisco, was formed in San Francisco last week, following the arrival of G. M. Anderson, who years ago was known as the daring Broncho Billy, who will be the directing genius of the new film corporation. Anderson says he intends to act in the film productions, which will be limited to eight complete photodramas each year.

Three San Franciscans will be interested with the moving picture star in the venture. They are Herbert Rothchild, A. M. Rosenstirn and Judge I. M. Golden.

Anderson said he intended to angle for well-known moving picture actresses and actors whose contracts are about to expire. These stars, Anderson admitted, were now engaged in productions in and about Los Angeles.

"Our corporation will spare no expense to give the best to the public," said Anderson. "I have selected San Mateo county for our studios. There the climate is ideal for the taking of pictures. In a comparison of the climatic conditions we have learned that there was but eight days difference last year between Los Angeles and San Francisco." Broncho Billy, some six or eight years ago was one of the most popular men on the screen in western style productions, and no doubt he will make many new friends as well as to renew old acquaintances. He has a wonderful personality, and as an exponent of fair play, he wins instantly the favor of his audiences.

Comedy and Drama.

A good combination will be seen at the Nelson today, when a Mack Sennett comedy is followed by a Vivian Martin in a retortation of Locke's famous novel "Viviette."

Miss Martin portrays the role of a young, impulsive English girl whose charms attract men to her as the flame attracts the moths. When Dick Ware, a primitive Englishman, strong and masterful, declares his love for her, she coquette with him and then devotes her attention to Dick's brother Austin, and later to Lord Banstead. She dangles the three upon her fingers, sporting with them, loving each in greater or less measure, but in her heart of hearts, the big primitive man's image lingers with increasing affection.

So it happens that when Dick becomes jealous of her and she banteringly suggests that he fight a make-believe duel with Austin, he carries out the program with murder in his ear. Fortunately for all concerned, however, a catastrophe is providentially averted and Viviette realizes that she has done a foolish thing. After many scenes of intense and not a few serious complications, Dick's strong primitive nature wins her love and both find happiness in their mutual affection.

The comedy is an amusing story about Jack Darling, movie idol who is watching himself in one of his pictures. A butler and his fiancée come in and seat themselves by the screen, and she returns her engagement ring to the butler and swears she will marry only a hero like Jack. This opening introduces a lot of fast and furious fun.

Red Beach Story.

One of the best sellers in its day, "The Barrier," a Red Beach story, is at the Dixie today. It is a story with wonderful heart interest, surging with every emotion that can be the main spring in human action. The fifth release of the Allied War Review is also shown today.

Princess Program Unchanged.

The program announced for the Princess yesterday stands for today. The attraction is Mabel Normand in "Joan of Plattsburg," a war comedy drama, playing on the popularity of Joan of Arc, and also featuring camp life in American cantonments.

"GLOBE-UPS"

Friends of Don Fleming and wife have received word that these popular show people are rehearsing in New York with "The Fashion Revue," a big musical comedy organization. Here, hoping the new season brings them additional laurels.

The works of Count Leo Tolstoy have attracted wide attention throughout the world because of the conditions that existed in Russia, but none of them have been more widely read than "The Resurrection," which not only exposed the wanton cruelty and brutality experienced by Siberian prisoners, but made a terrific onslaught upon the double standard of morals. This book has been turned into pictures with Pauline Frederick in the leading role of "Katusha."

When Roscoe Arbuckle, comedian, reaches Los Angeles in the near future, the draft board will be looking for him. He tried to enlist but was rejected because of overweight. It is

GOES TO PROVE THIS COUNTRY IS A UNIT

This One Way to Defeat the Expected German Peace Drive.

LONDON, July 21 (Correspondence of Associated Press)—Members of the mission sent to England and France by the Social Democratic League of America declare that the day to defeat the expected German peace drive is to convince the Socialist and labor leaders of the Entente nations that America stands solidly behind President Wilson and backs up his peace terms to the limit.

Their purpose in coming to Europe to confer with Socialist and labor leaders of England and France is to convince them that American Socialists and working men are in unit in support of President Wilson's peace terms.

The mission is composed of John Spargo, A. M. Simons, Louis Koplin and Alexander Howat, the latter of the Kansas Mine Workers.

"The next step," they said in a statement given to the Associated Press before leaving for France, "is to convince the world of labor that the whole people of the United States is devoting all its fighting strength to nothing more or less than to secure the peace laid down by President Wilson."

"Once this fact is accepted by the Socialists of the Allied nations, there will be an end of pacifism there and a spread of peace sentiment in Austria and Germany. Already it is claimed that the Socialists of Austria and Germany have agreed to accept substantially these terms. If this is true, the need of an inter-belligerent Socialist conference disappears since the Socialists of all nations will have agreed upon the peace terms asked by the United States."

"Whether the expected German peace offensive finds sufficient response among the labor and Socialist bodies of the Entente nations to insure morale to the extent that Germany may obtain peace while her military autocracy remains a danger to democratic nations depends largely upon the possibility of convincing such bodies that America stands solidly behind President Wilson's peace terms."

"The overwhelming mass of British laborers and Socialists wish to win the war. They are misrepresented by a small group controlling their political organization. Even this group protests its desire for victory, but some believe victory impos-
