Town Talk

MOVING PICTURE FUNNIES.

Cut on the picture on all four sides. Then carefully fold dotted line 1 its entire length. Then dotted line 2, and so on. Fold each section underneath accurately. When completed turn over and you'll find a surprising result. Save the pictures.

RADIO PROGRAM

Program Tonight

7 p. m.—Weekly fashion talk (of interest to women) prepared by Joseph Horné Co. United States Public Health semi-weekly bulletin.

8:00 p. m.—Bed time stories for the kiddies.

9 p. m.—Musical program by Elizabeth Berland, pianist; Burt Mustin, dialect monologuist and soloist, and Carolina Hoechstaetter.

Program Tomorrow

7 p. m.—Tri-weekly letter from Farm and Home Weekly summary of the "Iron Age."

8 p. m.—Bed time stories for the kiddies.

8:30 p. m.—"Savings versus Strikes" by Samuel Bailey, Jr., secretary of Dollar Savings Bank of Pittsburgh.

9 p. m.—Concert by the Gordon concert company: Estelle Healy Close, soprano; Mabel King, contralto; Lessel S. Jamieson, tenor; John W. Lawther, baritone; Miss Katherine Grundman, accompanist, Scotch bagpipe, selections by "Piper" Finnie.

Today's Word

Today's word is—APLOMB.

Generally it's pronounced—a-plum, with accent on the second syllable; but strictly speaking, the word being French the two syllables should be accented equally, and the second one should finish with a sound somewhere between "m," "n" and "ng," in a nasal with no exact equivalent in English. Webster gives it as "a-plon," with the first syllable accented but the second more heavily so.

It comes from—French "a," to and "plomb," lead.

Literally it means—perpendicularly; but ordinarily has the sense of "assurance of manner, self-possession."

It's used like this—"Kemal Pasha's aplomb in his dealings with the allies doubtless is due, in great measure, to his assurance of French and Italian sympathy with Turkey's claims."

Brain Testers

Anxious to fatten the treasury of the little suburb they lived in, two village constables ambushed themselves behind a hedge alongside a road where automobile scorchers were frequently to be had for the catching. One of the two was gazing down this road. The other one looked up it. Thus they aimed to see approaching speeders whichever way they might be coming. "Si," said one of the two constables, without turning his head "what in tarnation be you a-grinnin' at?" How did he know the other constable was smiling?

Yesterday's answer: The bootlegger had 10 cases of hooch. Proof: 10 plus 10, plus 5, plus 7 equals 32.

THE WEATHER

West Virginia—Fair tonight and Wednesday.

Local Readings Creed Bolyard, Observer

Temperature at 8 a. m. today 53.

Yesterday's weather clear; temperature, maximum 83; minimum 51; precipitation 0.

Home-Coming Planned—Addresses by former Senator R. A. Polock and the Rev. G. F. Thomas will be features of the home-coming reception to be held next Saturday evening, beginning at 7 o'clock, by Love Castle No. 37, Knights of the Golden Eagle, in the Castle Hall at Montana. Special music will be furnished by a string orchestra, and refreshments will be served. Members of the lodge and their families in this section have been invited to attend.

Neck Broken—Pete Lavigna, 38 years old, a miner employed in the mines at Kingmont, is a patient at Cook Hospital suffering from a broken neck, the injury having been sustained when he fell from a swing at his home at Kingmont on Saturday. The man was admitted to Cook Hospital last evening where his injuries are considered serious. He is a married man with a family.

Cook Hospital—Mrs. Boyd Reed of Morgantown underwent a severe major operation at Cook Hospital Her condition satisfactory today, following the operation. Michael Angotti had his tonsils removed today at the hospital.

At Fairmont Hospital—Joe Ditoro, an employe of the Consolidation Coal Co., was admitted to Fairmont Hospital today for treatment. Other patients receiving treatment there are J. E. Qilhelm of Watson, James Elliott of Cataba and Mike Tonlandick of the Dawson Coal Co., of Harrison County.

Going to Morgantown—The men of Grace Lutheran Church will hold a sociability run to Morgantown on Thursday evening. The men will make the trip by auto and will meet at the church at 6:30 sharp. The men will be the guests of the brotherhood of the Lutheran Church at Morgantown. The indications are that twenty five men will make the trip. Warder Tutt heads the committee to furnish the autos for the occasion.

Returns to School.—Clyde R. Baker, who is a senior in the Ohio College of Dental Surgery, left today to resume his studies after spending the summer vacation at his home here.

$350,000 F. & C. CO. BONDS SOLD

Issue Taken by Union Trust Co. of Cleveland---Improvements Planned.

Three hundred and fifty thousand dollars worth of bonds of the Fairmont & Cleveland Coal Co. today were sold to the Union Trust Co., of Cleveland. The bonds were issued to finance the newly acquired Chesapeake mine of the Fairmont & Chicago Coal Co., in which the Fairmont & Cleveland Coal Co. has large interests, as well as to provide funds to expand the business of the Fairmont & Cleveland Coal Co.

At present the Parker Run mine of the Fairmont & Cleveland Coal Co. has a capacity of 3,000 tons a day, and it is planned to soon develop the Chesapeake mine of the Fairmont-Chicago Coal Co. at Barrackville into a plant having a capacity of 2,000 tons a day, providing the car supply will permit. This will give the Fairmont & Cleveland Coal Co. a daily output of 5,000 tons a day.

The company plans to open two branch offices, the eastern office in Philadelphia, the logical point, and in Cleveland, where the company has a large number of customers and where some of the stockholders reside. The Fairmont & Cleveland Coal Co. has specialized in railroad fuel loading, having business with railroads of the East, Middle West and Canada.

Quite a large sum of money is being expended by the company on its newly acquired Chesapeake mine at Barrackville, where thirty houses are being erected and new equipment is being installed.

The bonds were purchased under the advice of the legal firm of Tolles, Hogsett, Ginn & Morley, Cleveland attorneys, who were represented here by Walter A. Dougherty, who had been here for probably a week in connection with the matter.

REAL ESTATE TRANSFERS.

The following real estate transfers have been filed in the office of County Clerk Lee N. Satterfield for recording:

A. R. Wilcox to Alfred Hawkins, a parcel of land situate on the waters of Mods Run in Lincoln District. Consideration $4,000.

Alfred Hawkins and wife to A. R. Wilcox, a quit claim deed to a parcel of land situate on the waters of Mods Run in Lincoln District. Consideration $1, etc.

Thomas S. Neptune and Rose Neptune, his wife, to the Fairmont & Cleveland Coal Co., a deed of correction giving boundaries to a certain tract of coal sold to the coal company.

Robin A. Hood to Smith Hood, a parcel of land in the Hood Addition to Rivesville. Consideration $1 etc.

Lilliam G. Parks and husband to John Huffman and Beryl Huffman, lot No. 12 in block No. 5 on Palatine avenue. Consideration $1 etc.

Smith Hood and wife to the Consolidation Coal Co., the Pittsburgh vein of coal underlying a tract of land in Fairmont District. Consideration $500.

The Consolidation Coal Co., to Smith Hood, the Pittsburgh vein of coal underlying a tract of land on Bingamon Creek. Consideration $32,500.

Lovie Fisher to the Virginia and Pittsburgh Coal and Coke Co., a parcel of land on Parker Run in Paw Paw District. Consideration $17,000.

MARRIAGE LICENSES

The following marriage licenses have been issued in the office of County Clerk Le N. Satterfield:

Harry R. Cole, 27, and Elizabeth Freeland, 23, both of Worthington.

Frank Lopes, 22, and Mary Malina, 16, both of Hutchinson. Rosa Malina, brother of Mary Malina, appeared in person and gave her consent.

George S. DeBolt, 36, and Jesse Floyd Morris, 35, both of Fairmont.

Elija Hannah, 39, colored, and Lillie See, 37, colored, both of Fairmont.

FURNACES TO START

WHEELING, W. Va. Oct. 3.—Martins Ferry blast furnaces of the Wheeling Steel Corporation will start Monday in full according to official announcement today. The plant has been idle for two years. It has a capacity of 400 tons a day and employes 200 men.

Y WORKERS WILL MEET ON FRIDAY

First General Meeting for Membership Campaign Here Scheduled.

Plans for the Y. M. C. A. drive for 1,200 new members, which will be staged on October 17, 18 and 19, with a preliminary meeting on October 16, are coming along in good shape. A fine meeting was held last night by a number of the captains and workers. The session was held at Y. M. C. A. at 6 o'clock. Several committees and committee chairmen were named and approved and it was decided to have a meeting of the committees and all their workers at 6 o'clock this Friday evening. A dinner will be served at that time.

C. W. Evans, head of the speakers bureau, will have three or four men present at the meeting on Friday evening who will present the cause of the Y. M. C. A. and will give some advice on how to make the campaign successful.

General Chairman Francis McQuillan is well pleased with the outlook, and feels that if all the workers get out and work that the drive will go over big. It is thought that there will be some interesting announcements to be made at the meeting on Friday, and every committeeman is asked to be present with three or four workers.

Committees named last night were:

General—Frances McQuillan, O. A. Seyfert, W. C. Cole; publicity—David M. Osgood; speakers at churches and clubs—Charles W. Evans; treasurer—Samuel E. Miller; secretary—Mr. Ludwig. Industrial—W. C. Cole, O. A. Seyfert, R. T. Cunningham, W. J. Weigel, Fred Helmick; copporation—Clarence D. Robinson, Samuel D. Brady; banks—Ward M. Downs, George Hough, Earry E. Engle; retail merchants—J. H. Rowand, James C. Welton, Bert S. Leopold; wholesale merchants—J. M. Jacobs; coal companies—Geo. S. Bracckett, chairman, C. H. Jenkins, J. Floyd, Cole; public utilities—R. W. Lamar, chairman; W. C. Kline, William D. Hall, J. Clyde Morris; lawyers—Clay D. Amos, John G. Pritchard, Trevey Nutter; dentists—Herschel L. Satterfield, chairman, Walter J. Boydston; real estate and insurance—George H. Brobst, J. E. Kelley; automobiles and accessories—T. Luke Cordray, chairman, Robert Henry, E. F. Henderson, Robert M. Morgan; contractors, building and allied trades— W. H. Spedden, Charles E. Mumford; schools—William E. Buckey, chairman, Otis G. Wilson, George H. Colebank, William A. Hustead; city and county officials—Mayor William W. Conaway, chairman, Lee N. Satterfield; Amusements—Charles C. Robb, chairman, Russell Linn.

The organization committee consists of Francis McQuillan, O. A. Seyfert, Daniel A. Maurer, David M. Osgood, J. Floyd Cole, James Trelawney, W. C. Cole, Mr. Ludwig, George H. Brobst and Robert C. Jones.

'FAIR PIED PIPER' ARRIVES

(Continued from page one)

and Miss Wright is "ratting it alone," as it were, but by a little extra effort she is keeping up the record established while she had a partner.

"We can't estimate the success of a rat killing campaign in any community by the number of dead rats about the premises where the bait is placed," said Miss Wright in reply to a question along that line, "because the rats after partaking of the food with barium carbonate in it, go away and die."

It is thought that next week will find Clarksburg or Morgantown (depending on the direction the local rats take) flooded with rodents who are seeking a comfortable and appropriate place to cash in their checks.

The fair rat killer uses scientific methods having the sanction of the government. Infested districts are carefully baited with various foodstuffs treated with barium carbonate, with caution being given to keep pet cats and dogs away. It wouldn't kill the pets, but it would make them quite sick.

Miss Wright plans to visit several feed stores and possibly the city market today to get the campaign under way, and the cost is very, very little for the good that is accomplished, it is claimed. Miss Wright has headquarters at the Fairmont Hotel.

As Shakespeare might have said, "'Tis great to be a rat and die by so fair a hand."

SUNDAY BLUE LAW UPHELD BY COURT

(Continued from page one)

been sufficiently warned of the dangers involved in the work.

Judge Miller filed an opinion dissenting from that of the court, written by Judge Ritz, in the case of Jacob Kro not Warwood, W. Va., against W. A. Eick of Martins Ferry, Ohio. The court's opinion was that under a contract of sale of stock in the Belmont Brewery Co. in which Eick agred to pay dividends earned previous to the sale to Korn, he was obliged to turn out what he received from distribution of money and securities on hand when the company closed up its business. The defendant's contention was that this was a distribution of assets and not a dividend of previous earnings.

The Wetzel County Circuit Court was upheld in deciding that Charles Sine was exempted from trial on a liquor charge because he had given testimony incriminating himself before the grand jury and at the trial of R. R. Anderson for the same offense. The Ohio County Circuit Court's decision was reversed in the case of J. J. O'Brien against Lee Pope, the Supreme Court holding that a notary public was incompetent to certify the affidavit of his co-partner to be used in collecting a debt in the name of and for the benefit of the partnership. Affirming the decision of the Brooke County Circuit Court in the case of Pendleton against Letzkus, the Supreme Court held that a tax sale should be set aside when bidders agred to bid against each other, and ruled as to what evidence was sufficient to show such agreement.

The Sunday law case was decided in refusing a writ of prohibition to prevent Judge W. W. Wertz of the police court from trying A. M. Smith, one of the persons arrested at the amusement park.

COAL OUTPUT IN FAIRMONT REGION STILL DECLINING

(Continued from page one)

B. & O., has a 50 per cent run. The Morgantown & Wheeling Railway today has a 52 per cent run. The Wyatt-Bingamon & Helen's Run branch of the Western Maryland Railway today has a 65 per cent run.

In the Coke Belt

Mines in Pennsylvania along the Monongahela Railway on Monday loaded 272 cars of coal. Today there were 209 empties placed at the seventy four mines claimed to be at work on the division.

378 Mines Work

Today there were 378 mines at work in Northern West Virginia. The bulk of these were active on the Monongah Division, where there were 148 at work.

Active mines today in Northern West Virginia and the coal loaded on Monday follow:

Railroads	Active Mines	Loaded
B. & O.—		
Monongah	148	592
Charleston	45	27
Connellsville	10	58
Cumberland	42	127
M. & K.	29	95
M. & W.	36	180
M. R. R.	36	331
W. M.—		
W-B & H R.	18	126
B. & W.	14	49
Totals	378	1555

Daily Car Supply

Today the mines in Northern West Virginia ordered 3824 empties, while there were but 813 cars on the nine divisions and of that number but 1641 cars were placed at 7 oclock this morning when the mines went to work.

On the Monongah Division, B. & O., today there were 2050 cars ordered, while there were but 797 on the division and only 588 of these coal cars were placed at 7 o'clock. The mines ordered 500 cars for rail roal fuel; 373 for coke loading; 122 private cars and 1650 cars for commercial loading.

Car supply data follows:

Railroads	Cars on the Div.	Emp. at 7 a.m.	Emp. Ord.
B. & O.—			
Monongah	977	625	2050
Charleston	65	65	320

Total	1813	1641	3824

FIRES BEYOND CONTROL.

DULUTH, Minn., Oct. 3.—Heavy winds have driven the forest fires north and west of Duluth out of control and the situation was so serious this afternoon that the combined there and military forces were conducting all efforts on removing settlers and protecting buildings, according to the forestry field administration.

WASHINGTON NEWS GOSSIP

By CHARLES BROOKS SMITH

WASHINGTON, D. C., Oct. 3—The last of the primaries was New Jersey's. The series began last March. The party managers at the two headquarters here are now totting up results for deductive purposes that may throw an illuminating ray of light into the immediate November future.

At Republican national headquarters today the interesting fact was pointed out that of the 210 members of that party in Congress who were candidates to succeed themselves, but 10 were defeated for denomination. Such a result as that has no parallel that the present generation of G. O. P. steersmen can recall to mind. The argument that they seek to impress by referring to this unusual result of the primary series is that the Republican voters throughout the country, instead of "having it in" for Congress have no kick at all worth anything much else they would have registered said kick.

The opposition propogandists, the Republican impressarios state, started out early in the year to do all they could do to discredit the Harding administration, the congressional branch in particular, and to resurrect bull moosery. The old familiar terms, such as "Reactionaries", "Profressives", "Old Guard", "Radicals" were revived and made full use of by the Democratic organs and spokesmen. Their idea was to start the old factional flame burning from embers that they believed, or at least hoped and prayed, were not dead but smoldering. At the end of the series of state primaries the Republican leaders declare that, that plan of campaign failed by convincingly demonstrating that the Republican party is pretty thoroughly in accord throughout the nation generally, solidly backing up President Harding with especial unity and particularity, and in such condition as to fofecast the election of a Congress in November of the President's own partisan complexion.

"There are three conspicuous elements that are to the forefront as unhappy critics of the new tariff law," remarked Congressman M. Bowers of the second West Virginia district at his office today. "They are," he continued. "Democratic campaign managers and spokesmen for that organization, the London press who speak the melancholy feelings of our British cousins, and the importers of our own country. The rest of our citizenship, which is the most of it, seem to be very well satisfied with the principle and theory of the new law, content to let it get to working before they make up their minds finally as to it, and pretty generally expecting it to make business prosperous and afford labor employment and the opportunity to become contented.

"The history of tariff-making is that that is what follows in the wake of protective tariff laws enacted by the Republican party and that the reverse of such a happy state of affairs follows on the heels of a low tariff law enacted under the auspices of the Democratic party. The freshest example of it which can be cited is the Underwood Law. It was running true to historic form through 1913 and up to close the end of 1914, when the outbreak of the World War came to its rescue.

"I have come from canvassing the counties of the district I represent. I talked with the people there to find out what their views are on the new tariff law, as well as their expectations as to what its results would be. I found them well informed and apparently glad of the opportunity to discuss the subject with me, since, as a member of the committee on ways and means, they knew that I had had a direct hand in framing the bill. I found practically no opposition to it, save and except here and there an intense partisan who could not discuss it with calmness. The farmers as a class spoke most favorably. They seemed pleased that their interests were so well looked after and that the bill has been called, as no other tariff bill has ever been referred to, 'a farmers' tariff'. Representative laboring men took the same favorable view of it. Organized labor, as is well known, is out-and-out for protection, as evidenced by resolutions to that effect it has passed time and again at its annual meetings.

"If there is any complaint agitating the people in the district I represent over the tariff, I have not as yet encountered it. They are fairly representative of the state as a while, I think it fair to assume, and, therefore I am led to conclude that West Virginians generally have no fault to find with the work of my committee in framing and helping to put through the new schedules of protective duties. I take it that they generally are well informed of the fact that, in this bill, West Virginia's interests were decidedly well taken care of, and that in the good to result from the operations of the new law, West Virginians as a while will share proportionately from the highest to the humblest."

J. Cecil Fee, well known as a brilliant-minded young man who is at the head of a large glass manufactory at Wheeling, said today to the writer that he expected business to soon "hum" in the great Wheeling industrial district as a direct result of the enactment of the new protective tariff law. "It has already made itself felt there," he said, although it has not got to working and despite the vast stores of allen-made products that were rushed to our shores in great fleets of ships that arrived before the law became effective, by instilling confidence in our manufacturers. They have started to get their plants in readiness to work at full capacity. The future looks bright to all of us in the Wheeling section who make things and employ labor in large numbers and at good American wages when we have a market."

It may not be generally known, but it is a fact of record nevertheless, that Mr. Fee was called before both the House and Senate committees which had the tariff bill in the making to give expert advice on tariff economics and in regard to schedules touching upon the particular business he knows most about and has had most experience in glassware, raw and manufacturered.

It is better known, however, especially in the First congressional district, that Mr. Fee is a most aggressive Republican and takes an active and influential part in political affairs. Discussing that topic today, he said:

"There is no question in my mind but Senator Sutherland will carry the first district by a big majority and that the re-election of Congressman Benj. L. Rosenbloom by a substantial majority is assured. Both are strong and popular men with the public. Public sentiment favorable to them is easily to be seen as an outstanding sign and forecast of their success in the First district. Our people by a very large percentage express themselves as highly pleased with the services that Congressman Rosenbloom has rendered during his first term and their disposition to stand by him and keep him in his present useful capacity for another term is noticeable. He deserves this good repute and kindly regard for he has done much in his one term in the House to merit it, and to justify their confidence that his usefulness and influence in the House membership will increase in proportion to the opportunities offered by an extension of his tenure."

KINCAID

John Kisner met with a painful accident one day last week, while working at the North Fairmont Mines. His arm was broken and he was returned to his home near Triune.

James Davis spent the week-end with relatives at Grafton. His son Denzil accompanied him home, but he will return home in a couple of days.

Mary Gemas was visiting Mrs. Jennie Jacobs one day this week.

Alcinda Phillips and daughter Landis were recent business visitors at Morgantown.

G. H. Williams went this week to Lee Guthrie's, where he will be employed for some time.

Harold Phillips was visiting his grandmother last Tuesday and Wednesday.

Fleming Price was a business visitor at Morgantown Wednesday.

Virgil Robes is spending a few days with his parents, Mr. and Mrs. Nelson Robes.

Mrs. Mary Jane Moran is visiting Mr. and Mrs. Clarence Moran and Mr. and Mrs. Elbert Holland at Fairmont this week.

Mrs. Jennie Jacobs was a business visitor at John Phillips Thursday.

COAL EXPORTS INCREASE.

WASHINGTON, Oct. 3. — Resumption of the mining of soft coal in August was reflected in exports which increased heavily over the previous months although still much below shipments of last year, according to foreign trade reports issued today by the Commerce Department.

Bituminous exports during August aggregated 425,000 tons worth $3,000,000 compared with 366,000 tons worth $2,000,000 in July and with 1,700,000 tons worth $8,000,000 in August a year ago.

NEW HIGH MARKS SET BY STOCKS

Prices Continued Upward Trend With Few Exceptions on Stock Exchange.

NEW YORK, Oct. 3—Foreign dispatches indicating a peaceful settlement of near east problems furnished the impetus for another advance in prices in today's stock market. Resumption of activity on the part of pools resulted in several special stocks being pushed up to new high records for the year. Sales approximated 1,000,000 shares.

Prices continued their upward trend during the morning. The bidding up of several specialties to new high records indicatde active resumption of pool operations which apparently was influenced by the better tone of foreign and domestic news and the prospects for easier money rates. Uncovering of a few weak spots, such as Crucible, Republic and Midvale steels and Retail Stores failed to halt the advance elsewhere. Short covering operations indicated that there had been a substantial increase in shorts during the past tow weeks. Kresge and American Radiator were among the stocks to break through for the new high records ,the former gaining 8 ¾ points. Call money opened at 4 ½ per cent.

The buying movement was extended to new groups during the afternoon, copper and can issues being bid up sharply, as were some of the low priced rails, oils and rubbers. The closing was strong.

Chicago Grain

CHICAGO, Oct. 3—Uneasiness regarding a possible unfavorable outcome of the peace conference between the Turks and Allies led to higher prices in the grain market today during the early dealings. The fact that the Canadian visible supply showed an increase not withstanding heavy receipts, it was also a subject of conversation that Liverpool quotations were showing more firmness than had been looked for. The market here, which varied from ¼ to ½c higher with December $1.05 ⅛ and May $1.08¾ was followed by additional gains.

Corn and oats displayed independent strength offering small and demand good, opening ¼ to ⅝c higher, December $.66¾ to $.66¾. The market scored a little further advance.

Oats started ½c to ¾c higher, December $.37 ¾ and continued to ascend.

Absence of any pressure intended to uphold the market despite lower hogs.

Liberty Bonds

New York, Oct. 3—Liberty bonds 1 p. m. 3½s $100; victory 4¾s uncalled $100; victory 4¾s called $100.1; 4¼s $100.22 second 4¼s; third 4¼s $99.84; fourth $100.

Chicago Produce

CHICAGO, Oct. 3—Butter higher; first 40@43; second 32@33 1-2; standards 39.

Eggs unchanged; receipts cases; first 28@35; ordinary 25@26; miscellaneous 37; refrigerator firsts 25@26.

Poultry alive steady; 23; springs 19; roosters

Pittsburgh Livestock

PITTSBURGH, Oct. 3. receipts 4,500; lower; $11.25; heavy yorkers $10.50; light yorkers and @$10.25.

Sheep and lambs receipts sheep, $7.50; lambs, $14.

Calves receipts 200, steady $14.75.

FIRE PREVENTION DAY TO BE HELD

Observance of Safety Campaign in Schools of County Urged.

Special programs observing Fire Prevention Day next Monday in all the schools of the county are urged by George M. Ford, state superintendent of schools, in a letter to I. A. Barnes, county superintendent of schools. Ministers are also requested to announce Safety Week at their services next Sunday in the letter from Superintendent Ford, which reads as follows:

"Safety Week in West Virginia is to be observed from October 8 to 14.

The governor in a letter has called attention to the observance, especially of Fire Prevention Day, October 9. In this connection we might call attention to the tremendous loss of life and property due to carelessness. Especially is this true in regard to accidents on the public highways, and destruction of property caused by fire which originates from careless handling of matches, cigarettes, gasoline, etc. Most of the accidents on our highways and streets, and the destruction of property by fires, are avoidable.

"It is not the intention to devote a full week to the specific study of "safety." The regular teaching of safety in our schools should be intensified during Safety Week. It would be a good thing to observe Fire Prevention Day on Monday, October 9, by some special program stressing the causes of fires, results, and how to prevent losse by fire. Daily fire drills in schols should be a part of the week's program. It would add material interest to the program to have a local fire insurance agent discuss fire losses.

"The state superintendent of schools, through the courtesy of the state fire marshal, has been able to furnish all teachers a copy of 'The Teaching of Fire Prevention' (Teachers who do not have a copy may secure one from their county superintendent). Make use of your copy.

"Request ministers to announce Safety Week at their Sunday services, October 8. Notify your teachers in so far as you are able to do so. Use every effort to give as much publicity as possible to this special observance of Safety Wek."

Very truly yours,

GEORGE M. FORD.
