## UN PROMISED IN POLITICAL FRAY

### Union Eaters and Cabbage Heads to Cast Ballots Friday Night.

MANNINGTON, Oct. 19.—The culmination of the annual struggle between the Union Eaters and the Cabbage Heads is the way the Methodist Epworth League designated the spot to be given by the organization at the church Friday evening.

This event will open the social season for the winter, and at this time it is claimed there will be a complete "precipitation of all social and political interests into one vast vortex of fun, and the Goddess of Pleasure will reign supreme."

One of the most interesting events of the entire entertainment will be the election of campaign officials, and the voting is expected to be fast. It is pointed out by the campaign managers that this is a splendid opportunity to cast ballots upon Squashville, and the landing of politics and society by sitting as many ballots as possible. They will cost only a penny each.

The candidates nominated by the Union Eaters are:

Roy Eshenbaugh, president of the music club; Pearl Snodgrass, the most popular and desirable social whirl in town; Earl "Pie" Brumage, exalted dog catcher; Prof. Samuel J. Clark, L. D. P. O. campaign manager.

For the Cabbage Heads:

Walter "Pete" Price, president of the music club; Harriet Lowther, the most popular and desirable social whirl in town; Billy Eshenbaugh, exalted dog catcher; C. D. Haught, campaign manager.

## Pithy Paragraphs From Mannington

Sure the city water is rusty. But we're used to it now.

Now honest, ain't them two bridges pretty things?

"Darling mine, didn't you hear me purring blissfully contented?"

For a love letter, that sure is the lizard's knees.

Or maybe the bee's whiskers.

And then she says, "I know I am a crazy cat."

Maybe she meant Crazy Kat.

Mrs. Eldenor Rhinehardt Mills ought to have written a book on "How to Write Love Letters."

Wouldn't the Pyles Fork bridge be a swell place for a hurdle race?

Maybe that accident at Barrackville will hustle along the signals for Mannington crossings.

"It is said the express company will get a Ford when the horse and wagon wear out."

## MONONGAH

### WOMAN'S CLUB CENSORSHIP

Criticism and comment on the attractions at the local theaters appearing in the columns are furnished by the noble general committee of the Woman's Club of Fairmont. The West Virginian does not assume any responsibility for the opinions expressed.—The Editor.

### The Nelson

In line with new motion picture theatre advertising the Nelson is giving in an attractive manner advance showings of scenes from films to be presented in the near future.

The feature picture today is "Honor First" in which John Gilbert plays a dual role as twin brothers, one of which is a fine, clean cut young fellow, and the other just the opposite.

The scenes are laid in France during the world war and there are some stirring and dramatic incidents in which the brothers are the principal characters.

The added feature is a comedy of the rough stuff variety, but introduces a comedian who is really very clever.

### The Dixie

We have to take a lot of things just for what they are worth in motion pictures as well as in real life, and so we try in giving our opinions of the films we see, to tell of their real value to the theater going public.

The first half of the week the Dixie presented a strong forceful story that provided plenty of food for thought, and those who saw "One Clear Call" were made to see the serious side of certain phases of life.

Today, on the contrary, "The Beautiful Lie" as played effectively by Katherine McDonald, is a story that is intended only as light diversion though which runs a humorous vein.

It is really the romance of Helen Hayes, secretary to a broker, who has for a client one Bobby Bates, (Charles Meredith), a handsome and wealthy young fellow who falls in love with Helen while she is posing as Elsie Parmelee an actress, but his love remains true even when he learns the truth.

Miss McDonald plays dual roles as the actress and the secretary, and draws a fine line of distinction between the two.

It might be termed a modern fairy tale, for it is much like some we have read, and if Cinderella can be taken with a grain of salt, this story may be said to be in the same class.

An educational film and a comedy-complete the program.

### The Princess

The widely advertised film, "Foolish Wives," beginning a three days showing at the Princess today, had its inception more than two years ago, when the vogue for spectacular effects, and sensationalism in motion pictures was at its height; and the producers were vying with each other to get out the biggest films possible before the impending agitation for censorship all over the country began to show results.

However, so long a time was necessary to screen this rather massive and long drawn out Von Stroheim effect that the American version is not as lengthy by several reels, nor as sensational by several degrees, as was the original, due to the work of the censors.

It is said that the Universal Company declare that it cost in actual cash over a million dollars, and it required eighteen months in which to produce it, and while the money involved is not always a test of true value in screen outputs, the time taken for a production means of course, greater care as to detail, and in that respect this picture is noteworthy.

But the story is not a pleasant nor happy one, and for those who want only to see the cheerful and

## VLADIVOSTOK NOT YET CAPTURED BY VICTORIOUS REDS

### American Building Guarded by Guns of Cruiser in City's Harbor.

TOKIO, Oct. 19.—(By the Associated Press)—Lawlessness reigns in Vladivostok as the result of the approach of a victorious "red" army, official dispatches say. The French consulate was attacked yesterday, and foreigners have appealed to their governments for protection. The American consul has engaged as a refuge retreat a building under the American flag and guarded by the guns of an American cruiser.

Two Japanese destroyers and three Japanese destroyers also are in Vladivostok harbor to aid in the protection of foreigners. Recent reports have related the practical annihilation of the white guards, under General Dietrichs. The invading army of the Far Eastern republic of Siberia apparently was marching on Vladivostok unhindered, and the capture of the Siberian port was expected momentarily.
