

LIVES OF PAUL AND LUTHER REVIEWED BY DR. BROOMFIELD

Illuminating Description of Famous Biblical Martyrs Given by Minister.

The audience at the Methodist Protestant Temple last night was taken to Rome and Worms in the sermon by the pastor, Dr. J. C. Broomfield. Paul and Luther were the two characters around whom the address was built, and interesting descriptions were given of the prison occupied by Paul and the heated place of his execution.

In opening his address, Doctor Broomfield intimated that since yesterday was World's Temperance Sunday it was appropriate to consider places and movements and men whose influence were world-wide. He claimed that Rome and Worms, and the Reformation and Paul and Luther were in this class.

He asserted that no city that has come down to modern times has figured more largely in the history of the world than the city of Rome. The old assertion, "All roads lead to Rome," has been reversed, and Rome's influence in law and religion leads today into all the world, Doctor Broomfield declared.

After riding all night in a common coach, Doctor Broomfield said, "I approached Rome in the cool of the early morning. The first things I saw were the ruins of her walls and aqueducts, reminding me of the ruins of her former civilization."

He insisted that he went to Rome not because of its being the Eternal City, the City of the Caesars, the City of the Caesars, or the one time Mistress of the Mediterranean world, but because two men, Paul and Luther, had been there.

In an interesting way he traced the events leading up to the coming of these men to Rome, the migration of the early Christians, Jews and Gentiles, for business purposes, and Paul's desire to keep in touch with them.

Especially vivid was his description of how he imagined, when in Paul's cell, seeing him writing, with chains dangling from his wrists, his great letter to Timothy, in which he says, "Whatever happens, be self-possessed; cling from now on to your work as an evangelist and discharge all your duties as a minister. The last drops of my own sacrifice are falling; my time to go has come. I have fought in the good fight; I have run my course; I have kept the faith. Now the crown of a good life awaits me, and which the Lord, that just Judge, will reward me on the great Day—and not only me but all who have loved and longed for His appearance."

Before dealing with Luther's famous visit to Rome, he described his visit to the Coliseum, in which so many early Christians were thrown to the wild beasts, and the Catacombs, in which multitudes of Christians spent their days, hid away underground.

Doctor Broomfield claimed that whilst the Reformation was conceived elsewhere, Rome was its birthplace. In support of this assertion he reviewed the life of Martin Luther.

"Born of humble parents at Eisleben, Saxony in 1483 and educated at Mansfeld, Magdeburg, Eisenach, and Erfurt, in 1503 he was called to a professorship in the new university which had been founded at Wittenberg in 1527 by Frederick the Wise.

Recent resentment in Luther, and brought him into the open. "In his now famous ninety-five theses, posted on the door of the castle church at Wittenberg, he claimed that no indulgence of a pope can avail anything if there is not genuine repentance toward God. He invited all who might wish to oppose him to a joint debate. No one came. But the theses, to the surprise of Luther, aroused all Germany. On June 15, 1520, Luther was excommunicated by Leo X. Luther's answer was the publication of his 'Appeal to the Nobility of the German Nation'; 'The Babylonish Captivity of the Church'; and on December 15, 1520, the public burning of the bull of excommunication in the market-place at Wittenberg. In 1521 Charles the Fifth cited Luther to appear for trial before the Diet of Worms. He was found guilty, and made an outlaw. His famous rejoinder was, 'I can and will retract nothing. Here I stand, God helping me, I cannot do otherwise.'"

In this review, Doctor Broomfield continued until the death of Luther February 18, 1546. The sermon closed with an illuminating description of the relationship of Paul, Luther and Wesley. Paul's great work was the writing of the Book of Romans. Justification by faith is its great keynote. Luther's great discovery was the truth as taught by Paul in Romans, and one of the classics in theological literature in Luther's 'Introduction to the Romans.' Doctor Broomfield declared.

It was the reading of this 'Introduction' that convinced John Wesley of the validity of experimental religion, and led him to seek and find the assurance in his own experience of sin forgiven, Doctor Broomfield continued. This new found assurance made John Wesley the flaming evangelist of his great joy in the epistle of Paul to the Romans, he added. An appeal to those present to seek the assurance, closed the interesting discourse.
