GOVERNOR GRATIFIED BY SCHOOL ATTENDANCE

Sees Sign of Awakening in Usually Large Enrollment in Schools and Colleges.

Columbia, Sept. 27.—"The reports of unusually enrollment in our public schools and colleges are very gratifying to me," said Governor Manning today, in discussing education and prosperity in South Carolina. "It is a healthy sign to note the awakening of our white citizens to the very great necessity for universal education, especially along practical lines—cooking, sewing, farming, mechanics, etc. It is also an evidence of the return of prosperity to our land. What a marked contrast to the conditions existing a short while ago, when an effect of the European war our financial system was in a turmoil, large numbers of our people, though clamoring for the education of our boys and girls, were not in position to gather together enough money to pay even the small expense items incidental to the education which they so much desired for their children. Many of them could not purchase the books necessary to be used in their schools. Now I learn, the most important question before us is how we are to provide the teachers and room necessary to properly care for the large numbers applying for admission. The cry 'hard times' has been forgotten in South Carolina, and our people are looking to the future with a degree of optimism heretofore unknown. There is no questioning the fact that if we are to continue to progress along business and moral lines, we must provide for the children of South Carolina the education to which they are entitled. A grave responsibility rests upon the mothers and fathers of South Carolina in this matter, and I have such great confidence in the honesty and integrity of our people, that I know this responsibility will be met with the proper response and the necessary facilities for the training and education of our youth will be provided. If we cannot provide as well as we would like, then let us by all means provide as well as possible. Well lighted, well ventilated and well heated school buildings with first-class teachers are always desirable, if possible, but a log cabin, with a good teacher, makes a much better place to train a child than no school at all. It is far better that the parents make personal sacrifices, if necessary, rather than have the training of the mind of the child neglected. "The people of South Carolina are aroused along educational lines as never before. This is best evidenced by the fact that in approximately 1,400 school districts out of a total of 2,000 in South Carolina the people have voted on themselves a special tax for the improvement of their educational system. In other words they have, by their ballots, spoken in no uncertain terms in favor of the progress of the state and the advancement of our civilization through the training of the minds of our children. Especially is this true in the mill villages and rural communities. "Another commendable feature about our educational progress is the advanced ideas our people are putting into practice along the line of vocational training. I am especially interested in this particular branch of the work. We have come to the point in our educational life where our children are now being taught to use not only their brains, but their hands as well. Every year we note that the schools are turning out more skilled mechanics and farmers, and more mechanics' wives and farmers' wives than ever before. This is true, not only of the colleges and universities, but of the smaller public and high schools as well. My whole heart is in this work," said the governor, "and I hope that we may soon see the day when our educational facilities, especially those in the mill villages and rural districts, are brought to the highest standard. The money we spend in the improvement of our common schools is an investment, the return from which cannot be estimated in dollars and cents, but in the improvement of the minds of a rising generation, thereby assisting them in making of themselves better citizens. "It is the duty, and I believe the pleasure, of every true South Carolinian to offer to the younger generation every opportunity to properly prepare themselves for the struggle that awaits them in this life, and to my mind, the best method of performing this duty is to provide for them the education and training that is best suited to the needs of the individual child. "The governor has always been an enthusiastic advocate of education, especially in the common and high schools of South Carolina. He is devoting a great deal of his time to the study of this subject just now, and will likely have some important recommendations along this line at the proper time. A Summer Deceit. He, so he said, was a millionaire, and she was a banker's daughter, at least she said she was as they stood on the sandy beach by the water. They talked of the wealth that each one had and their future seemed much brighter—and then he returned to his job as clerk and she to her old typewriter. Our Plan. From a health column—"Irritability in a woman can often be cured by feeding her with cream." We generally give whey to her. Geisberg's Potato Chips Fresh and Crisp Daily, Phone No. 733.

PORTUGUESE OBJECT TO RADICAL GOVERNMENT

Recent Uprising Brought About By Adherents of Conservative Form of Government.

Lisbon, Sept. 1.—(Associated Press Correspondence.)—The rising in Northern Portugal which has been suppressed for the time being at least were brought about by adherents of the republic who desire a more conservative form of government than the present extreme radical one in power, and not by monarchists as appears to be supposed outside Portugal. Great reserve is observed in official quarters, but the indications are that the government does not yet consider the danger as past. Troops are kept on constant readiness day and night for service. Searchlights from warships in the harbor play nightly upon the waters surrounding vessels, with the object, presumably, of preventing attacks from insurgents who might attempt to board them from boats or barges. Among distinguished republicans arrested are Miguel de Obren, a deputy and son of a revered republican leader, Dr. Eduardo de Obren. Two Republican provincial civil governors have also been arrested and forty other persons more obscure. Many of the prisoners were stoned and attacked in the streets by Carbonarios, members of the secret political society which upholds the present government. Senhor Tonto Mayor, a great landed proprietor of Oporto and a known Royalist, was arrested and taken to a police station for examination. His body was brought out half an hour later. The authorities say he committed suicide, but there is considerable incredulity and Mayor's death has caused a great sensation in that part of the country. When the revolt broke out two Spanish destroyers entered the Tagus, ostensibly for coaling, but the public took their entrance as a reminder that Spain is now watching the Spanish warships in the Tagus during the uprising. In last May would have disembarked marines to guard legations, consulates and foreigners had such disorders continued twenty-four hours longer.

BRITISH WEST INDIES NOT HURT BY WAR

Barbados, British West Indies, Sept. 1.—(Associated Press Correspondence.)—While economic conditions in some of the islands of the British West Indies have been considerably affected by the war in Europe, it appears, after a year's duration of the conflict, that gains in some lines of business have quite offset losses in others. The war has in fact, caused less depression and less real suffering among the people than a long draught has caused in other years. The islands have contributed freely in both money and men to help Great Britain in war, and as a result of this public expenditure there will be increased taxation; but the improvement in prices of sugar, cocoa, and limes, which it is confidently expected will continue for some years after the war, will prevent the additional burden being felt. The large amounts annually spent by the well-to-do classes of the West Indies in traveling to England and Europe have been saved this year as the private subscriptions to war funds are more than recouped from this source alone, without any exercise of local economy. Some few enterprises have been checked. The electrification of the Barbados Tramway, which was purchased a couple of years ago by an American syndicate, for instance, has been postponed. On the other hand improvements are being made on sugar plantations and machinery orders are being placed in the United States. The trade with South America has declined and the large colony of Brazilians and Peruvians resident in Barbados has dwindled. But the business of coaling steamers, running between North and South America has never been better. Trade between England and the West Indies has fallen off as the Royal Mail Service has been reduced from fortnightly sailings to monthly. The quickest route is now via New York.

Swiss Mails for Goat Farm (Philadelphia North American.) Delaware City.—Negotiations are being completed by Charles J. Winkler, of Wilmington, for the purchase of a tract of land along the Chesapeake and Delaware canal here. He intends to place a herd of at least 200 goats on the farm and to graze it with a dairy, which will be an exact replica of the Alpine establishment.

The goat's milk will be used in the manufacture of Swiss cheese. An unusual feature will be the employment of a score of Swiss milk maids.

The herd will be to charge of these girls, whose lives have been spent upon the snow-capped heights of the Alps and who are experts in handling their troublesome charges. The goats are being shipped from southern Colorado.

Goats are fattened for market in some parts of Europe by confining them in dark rooms, in which light is admitted at intervals, causing them to eat seven or eight meals a day.

"Heart stop 16 minutes, but girl lives." Saw another girl with a hat just like the exclusive design for which she paid \$50—Louisville Courier-Journal.

NEWS ITEMS FROM CLEMSON COLLEGE

Revival Services in Progress—Classes and Literary Societies Elect Officers.

Clemson College, Sept. 24.—The union revival services conducted by Dr. A. E. K. Hardin of Washington, D. C., are growing in interest. Dr. Hardin is a preacher of great power, and his sermons are drawing large crowds and accomplishing much good. The classes have elected officers as follows: Senior, C. Rothell, president; R. B. Waters, vice president; W. F. Wright, secretary and treasurer; W. T. Patrick, historian; F. E. McCall, chaplain. Junior class, S. Littlejohn, president; J. E. Hunter, vice president; H. M. Harmon, secretary and treasurer; E. C. Kolb, historian; W. Schirmer, chaplain. Sophomore class, T. M. Jordan, president; E. C. Banks, vice president; R. W. Webb, secretary and treasurer; F. R. Kuykendall, historian; J. A. Eleazer, chaplain.

The first issue of the Tiger was received this week. The paper is in new form, being about the size of the regular daily paper and containing four pages. There is a snap and verve about the style and make up of the paper that indicate success. The editorial staff is as follows: H. Agnew, editor; E. C. Kolb, assistant editor; reporters, W. W. Mallory, athletic; C. E. Littlejohn, alumni; S. C. Stribling, literary societies; A. S. Carville, Y. M. C. A., and lectures. More interest is being taken in the literary societies than ever has been known. There are six societies and many of them have more members than they can accommodate. The officers for the first term follows: Calhoun, R. B. Waters, president; A. B. Carville, vice president; D. F. Folger, literary critic; F. C. Anderson, treasurer; S. W. Graham, recording secretary; L. G. Hardin, corresponding secretary. Carolina: W. L. McMillan, president; W. H. Dicks, vice president; J. P. Derham, secretary; H. M. Adams, treasurer.

Columbian: S. J. Sheppard, president; E. D. Kysor, vice president; C. E. Littlejohn, critic; H. H. Willis, recording secretary; C. G. Harris, corresponding secretary. Hayne: J. P. Jeter, president; L. W. Verner, vice president; J. D. Blair, secretary; S. M. Simpson, treasurer; W. H. Jenkins, Palmetto: C. Fothall, president; S. C. Stribling, vice president; F. E. Field, secretary; C. W. Ward, treasurer; H. R. Agnew, literary critic.

Came to Her Rescue

From her home in Mountain Park, Oklahoma, Mrs. O. A. Strange writes to the Pinus laboratories:

"I am taking Fruitola and Traxo for gall-stones with good results. If it had not been that it came to my rescue, I would have been dead I am sure. I cannot say too much for Fruitola and Traxo.

Fruitola possesses properties that act directly upon the intestinal parts. It is a great system cleanser, softening the congested waste and disintegrating the hardened particles that cause so much suffering, and quickly expels the accumulation to the intense relief of the patient. Traxo is a tonic alterative that acts on the liver and kidneys, stimulates the flow of gastric juices to aid digestion and removes bile from the general circulation. It serves to build up and strengthen the weakened, run-down system.

For the convenience of the public, arrangements have been made to supply Fruitola and Traxo through leading druggists. In Anderson they can be obtained at Evans' Pharmacy, three stores.

Wade Hampton L. A. May, president; J. C. Hamlin, vice president; J. E. Hunter, secretary; J. M. Jackson, treasurer. The Florence county alumni association is the first to establish a scholarship in Clemson. That association has planned to send a new man every year for four years, thus establishing four scholarships. The Charleston chapter will start a scholarship man in 1916. Anderson has sent more men to Clemson than any other county in the state. An Anderson county Clemson club was forced today.

We are recommending our 10-1-0 and 10-2-0 and 10-2-1/2-0 for wheat and oats this fall when you sow it.

This will give it stalk and grains in the head, and that it what you want in grain. If you will sow five acres in wheat and five in oats this fall, after preparing the land well and fertilizing it well with either of these goods, you will find it advantageous. The 10-2-1/2-0 is an especially fine goods for grain. Let us hear from you.

TAKE SALTS FOR THE KIDNEYS IF YOUR BACK HURTS

We Should Drink Lots of Water and Eat Less Meat, Says Nefed Authority on Kidney Disorders

Recommends a Spoonful of Jad Salts In Glass of Water Before Breakfast to Stimulate Kidneys and Eliminate the Uric Acid

Uric acid in meat excites the kidneys, they become overworked, get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water; also get from any pharmacist a few ounces of Jad Salts; take a tablespoonful in a glass of water before

breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only
