IS COURTS' CRITIC

GOV. HADLEY MAKES CENSORIOUS SPEECH BEFORE LABOR CONVENTION.

SAYS ROOSEVELT IS RIGHT

Upholds Ex-President's Denunciation of Judicial Bodies--Asserts Judges Render Biased Decisions Through Environments in Which They Live.

St. Louis.—In an address on Tuesday before the American Federation of Labor convention, which is in session in this city, Governor Hadley of Missouri strongly upheld Theodore Roosevelt's denunciation of the courts. He said that Roosevelt was right. "I believe and every honest man believes," said he, "that there should be just criticism of any public official, whether judge or any other official." This sentiment aroused the greatest enthusiasm in the convention. "Roosevelt was right when he denounced the courts, because they are governed by their environment. The great trouble with the judges, they live within their own environment, and their decisions are made accordingly," said Governor Hadley. "It might be a narrow environment, and it might be a large environment, and as lawyers know why they make a decision. "I believe in an employers' liability law that does not take into consideration the fellow servant or the assumption of risk. I am prepared to appoint a commission of labor, lawyers and citizens to draw up a compensation act and I will do all I can to have the legislature pass it. That will mean not a proposition involving delay, but something which will hasten relief for those who suffer injury. I do not see why the judiciary should not have the correctness of their reasoning subjected to criticism. "Legislature and court made law both are only the expression of the people of the time and a decision which may be just at one time may be quite impossible at a later date. Governor Hadley then referred to his fight with the Standard Oil company. "When I attacked the Standard Oil company four years ago it was protected by a rule of law that it could not be required to produce books and papers that might result in the conviction and fining of the company and that a corporation had the same rights as an individual."

ROBIN J. COOPER IS FREED

Alleged Slayer of Senator Carmack Is Acquitted on the Advice of Attorney General.

Nashville, Tenn.—Robin J. Cooper, charged with the murder of Senator Edward Ward Carmack November 9, 1908, was Tuesday acquitted in the criminal court on recommendation of Attorney General A. B. Anderson. This was brought to a close the final chapter in one of the most celebrated cases in the court annals of Tennessee. There was complete silence as Attorney General Anderson arose to address the court. "Your honor is probably familiar with this case," he said. "This defendant, his father, Col. Duncan B. Cooper, and John Sharp were indicted jointly for the murder of Senator Carmack. The case came up for trial and resulted in the acquittal of Sharp. Colonel Cooper and this defendant were found guilty of murder in the first degree. The supreme court affirmed the case of Colonel Cooper, but as to this defendant there was a reversal. "Judge A. B. Neill then stated to the jury that, in view of the statement of the attorney general, the sworn officer of the state, and in view of the further fact that there is no further effort made to prosecute the case, the jury would return a verdict of not guilty, which was accordingly done."

Taft Replies to Pinchot

President Gives Ex-Forester Permission to File Briefs in Connection With Alaska Claims.

Washington.—President Taft, responding to the request of Gifford Pinchot, former forester of the United States, and his brother, Amos Pinchot, for permission to submit a brief on the question of issuing patents in the Cunningham Alaskan coal land claims, has informed Mr. Pinchot that he may submit such a brief and advised him to send it to the executive office before December 1. Mr. Pinchot is thus informed in a letter authorized by President Taft and written by the secretary to the president, Charles D. Norton, which was made public Tuesday. The letter is in reply to a recent communication to the president from Mr. Pinchot and his brother, expressing fear that the interior department will recommend the patenting of the Cunningham claims. "New York.—Members of the Methodist Episcopal church in the United States will give \$1,000,000 for missions during the year 1911, if they meet the expectations of the committee of bishops who have been in session here for the past week. "Washington.—William H. Miller, for seven years United States consul at Teneffo, Canary islands, died here Tuesday. Miller was well known in New York city politics. "Columbus, Ohio.—The body of a man who was killed in a street car crash Tuesday, bringing the total victims up to seven.

PREPARING FOR A NEW WALK

TAFT IS IN PANAMA

PRESIDENT ON ARRIVAL AT COLON PROCEEDS AT ONCE TO CULEBRA.

BE ON ISTHMUS FOUR DAYS

Trip to Panama Uneventful—Party is Welcomed in Harbor by Reception Committee and Salute is Fired as They Disembark. Colon, Panama.—President Taft reached Colon aboard the cruiser Tennessee, convoyed by the cruiser Montana, Monday morning. Lieutenant Colonel Goethals and the others of the receiving party were waiting on the tug Cristobal, which approached the Tennessee as soon as the latter hove in sight. When the president's vessel reached her anchorage the tug drew alongside and the receiving party went aboard and welcomed the president. Mr. Taft and his party boarded the tug and came aboard. As the president left the Tennessee a salute was fired. The visit is one of business, and it is expected his time will be well occupied with issues involved in the construction of the Panama canal. The president did not delay here long. Shortly after his arrival he boarded a train for Culebra, the site of the big Culebra cut. A special train had been prepared for the president. He was accompanied to Culebra by Lieutenant Colonel Goethals and the other members of the canal commission. The voyage of the Taft party was uneventful. En route home President Taft will stop at Guantanamo, Cuba, for a brief time, to inspect the American naval base there.

MEAT PACKERS SCORE POINT

New Jersey Appellate Court Rules Concerns Need Not Submit Book to Grand Jury.

Trenton, N. J.—The Chicago meat packers won an important point Monday in their defense against the prosecution now in progress in this state. The state court of errors and appeals reversed the decision of Supreme Court Justice Swayze directing the National Packing company and the other big packing concerns to produce their books before the Hudson county grand jury. The evidence expected from these books, it is believed, was one of the main reliances of Prosecutor Garvin in making out a case against the beef men on the charge of conspiracy to control prices. Another case against the packing concerns for the dissolution of the National Packing Company is now in the state supreme court. "Two Shot in Mexican Riot. Guadalajara, Mex.—Carlos B. Carothers, a real estate dealer, shot and killed Jesus Loza, a fourteen-year-old Mexican boy, and wounded Prudento Chavez, a gendarme, in defending his home against a riotous attack by Mexicans Saturday. Carothers surrendered to the authorities and was lodged in the state penitentiary. "Quits Porto Rico Place. San Juan, Porto Rico.—A. P. Sawyer of Seattle, Wash., who succeeded G. C. Ward as auditor of Porto Rico in October, 1909, presented his resignation to President Taft and it was accepted Tuesday. "Seventh Car Victim Dies. Kalamazoo, Mich.—Clara Crawford, aged eighteen, injured in the Michigan Central wreck here when a train crashed into a street car, died Tuesday, bringing the total victims up to seven.

YOUNG FOR DOLLIVER'S SEAT

DES MOINES EDITOR APPOINTED U. S. SENATOR.

Will Serve Until Next Legislature Meets in January—Has Reputation As Orator.

Des Moines, Ia.—Lafayette Young, editor of the Des Moines Capital, has been appointed as United States senator for the unexpired term of the late Jonathan P. Dolliver by Governor Carroll. Senator Young will serve until the next legislature meets, on January 8. It will be the duty of that legislature to elect a senator to fill the unexpired term of the late Senator Dolliver, which ends in 1912. Mr. Young was born in Iowa in 1848. Most of his life he has devoted to the newspaper profession. In politics Mr. Young has vigorous support the administration of President Taft. He has been a staunch supporter of Governor Carroll. The new senator has a national reputation as an orator. In 1900, at the Philadelphia Republican convention, he nominated Theodore Roosevelt for vice-president. He has been twice delegate-at-large to the Republican national convention from Iowa, and accompanied President Taft on his trip to the Philippines. Carl F. Frank of Parkersburg, Ia., who for two years has been chairman of the Republican state central committee, named a formal announcement of his candidacy for the position of United States senator, to succeed the late J. P. Dolliver. Mr. Frank is the first man in the state to formally announce his candidacy.

WILL HURRY CENTRAL BANK

ALDRICH SEEKS TO OBTAIN ACTION AT SHORT SESSION.

Conferees of Senator Express Belief He Will Press Monetary Commission Measure.

Washington.—That Senator Aldrich will attempt to press for the enactment of a currency reform bill containing a central bank plan at the coming session of congress is the belief of financiers who have just returned from the National Monetary Commission's conference, held in New York city. Such a bill, it was said, is now in course of preparation, though its details still are incomplete. A subject of much speculation here is the question of what disposition of the \$70,000,000 of 2 per cent. bonds now held by national banks will be proposed as the basis of note circulation in a central bank scheme. The market value of these bonds is now much below their purchase price. While one plan of caring for these securities has been to take them up with the postal savings, as it is allowed by the postal savings bank law, it is now considered that such a process might be too slow, and it is supposed that some other plan will be provided in the bill which is expected to be introduced soon after the session opens in December.

BLAST IN MINE KILLS FIVE

Eighteen Are Hurt in Explosion at Panama (Ili.) Colliery—Fifty Workers Are Rescued.

Hillsboro, Ill.—Five miners were killed and 18 were injured in an explosion in the Shoal Creek coal company's mine at Panama, a mining town in the southern part of Montgomery county Friday. Fifty men who were working in the section of the mine in which the explosion occurred were rescued, according to the mine managers. Altogether, 250 men were underground at the time, but 200 of them were in no danger. The cause of the explosion is not known. The dead and injured were buried by the flames of the explosion. G. A. Murray, chief clerk in the mine offices, denied the report that 50 men still were in the mine. Owing to the mutilation of the bodies, the dead have not been identified. "Find Wires Under Maine Divers Discover High Tension Conductors of Electricity Beneath Battleship in Havana Harbor. Havana, Cuba.—A large quantity of insulated copper wire, such as is used for electrical currents of high tension, has been found by divers under and about the hull of the Maine. The wire now lies on board the vessel Manzanillo, presumably to be examined by authorized experts in due course. "Harding Will Quit Politics. Columbus, O.—Warren G. Harding, defeated Republican candidate for governor, who for 12 years has been active in state politics, Thursday announced his retirement from politics. With his wife he will leave soon for a trip to the orient. "Barge Sinks; Six Drowned. Newport News, Va.—The whalback barge Harmona, carrying Captain Berderberg and his crew of five men, sank off Fire Island, N. Y., Tuesday, after being run down by an unknown square-rigged ship. "Dedicate 'Peace' Monument. Chattanooga, Tenn.—On the summit of Lookout mountain, the beautiful monument to 'Peace,' erected by the state of New York, was dedicated Tuesday with impressive and inspiring ceremonies.

FLIES FROM SHIP TO LAND

Aviator Ely Makes Successful Flight From Deck of War Vessel at Sea.

Norfolk, Va.—Eugene Ely flew from the deck of the U. S. scout cruiser Birmingham to land Monday, making a new epoch in the progress of aeronautics, for his was the first flight attempted from a ship at sea. Ely's trip nearly ended in disaster, however, for when his machine cleared the cruiser's deck it dipped so that one wing struck the water. The shock broke a propeller blade, but Ely succeeded in getting clear and continued his flight. The crippled condition of his biplane made a long trip impossible and the aviator returned to the ship at a point of land, Willoughby Spit, a narrow sandy point reaching out into Chesapeake bay. He alighted on the beach only a few feet above the water line. Ely started his daring attempt when the Birmingham was in Chesapeake Bay about twelve miles from the Norfolk navy yard, which was his objective point.

MANY RIOTERS SHOT DOWN

Nicaragua Troops Kill or Wound 75 Liberals Holding Forbidden Political Meeting.

San Juan del Sur, Nicaragua.—More than 75 persons were killed or wounded in a street battle between the government troops and the Liberals at Leon Monday. The Liberals, disregarding the government's orders prohibiting their holding public meeting on the streets, gathered in a park and their leaders began delivering speeches against the government. The police attempted to disperse the crowd, but were quickly overcome. The troops were then called out and were compelled to fire many rounds into the mob before the crowd could be dispersed. The situation is critical and further trouble is anticipated.

TRAIN HITS CAR; SIX DEAD

Michigan Central Express Coach Slams Into Heavily Loaded Street Car at Kalamazoo Crossing.

Kalamazoo, Mich.—Six persons were killed Saturday night when the Michigan Central express struck a Main street car. Twenty-six other persons were injured, some fatally. Three bodies were removed from the pilot of the freight engine so badly mutilated that recognition is impossible. The names of the known dead are: Ward Abbott, James Broese, Hazel Hart, Miss Bertha Hensler, Harry Holtz and William Shaffer. All of the dead and injured with one exception lived in Kalamazoo and were passengers on the street car.

EDUCATIONAL WORK

State Superintendents Make Plans for Meeting.

The committee appointed by the various state school superintendents at a conference held in Lincoln a year ago to draft a program and arrange for a meeting in Salt Lake City has made its report and is now sending out letters to the educators urging them to attend this meeting. The committee is composed of E. C. Bishop, state superintendent of Nebraska; C. G. Schultz of Minnesota, and Harlan Updegraff of the bureau of education, Washington.

WEIGHT OF A SOUL

ALLEGED DEMONSTRATION IS RIDICULED BY WRITER.

Experiments of Dr. Macdougall of America in Weighing Dying Persons Declared Inconclusive and Not to Be Taken Seriously. "There is a popular notion that the weight of the living body is less than that of the dead one," says a writer in the Lancet. "In a recent issue of the Pioneer Mail a correspondent discusses this question in connection with the behavior of a crocodile which he shot dead while it was basking asleep on a quackstand. "When shot the crocodile began to sink and almost disappeared before it could be reached. The correspondent is clearly inclined to accept the popular notion of an increase in weight at death but for the fact that recent experiments undertaken by some learned authorities in America have proved that a dead body was lighter than a living one. From this they (the learned authorities) deduce that the soul had a definite weight in pounds avoirdupois. "It is possible with the experiments in which the correspondent of the Pioneer Mail refers. They were made and recorded a few years ago by Dr. Duncan Macdougall of Iverhill, Mass. Patients were weighed in the act of dying. The scales used recorded any increase or decrease beyond the fifth of an ounce—not a particularly delicate instrument for estimating the weight of that part of the living body which is usually regarded as immaterial and impermanent. "In the first of a series of six experiments, Dr. Macdougall placed a man dying from pulmonary tuberculosis on the scales. The patient lost weight at the rate of one-sixteenth of an ounce per minute until the moment of death, when the beam end dropped with a audible stroke, showing a sudden decrease of three-quarters of an ounce in weight. What was the cause of the sudden decrease? Dr. Macdougall, after excluding the loss due to escape of breath and fluid contents of the body by evaporation or other natural means, concluded that the marked and sudden decrease was due to escape of the 'soul substance.' In this particular instance the soul was evidently a very material one, weighing three-quarters of an ounce. "The correspondent extended his observations for days, but the results gained were negative. At the moment of death, the dog's body refused to show any alteration in weight. We are of the opinion that the correspondent of the Pioneer Mail in seeking to explain the disappearance of the shot crocodile in the quackstand need not take his 'learned authorities' too seriously. Dr. Macdougall's observations do not appear to be a peculiar bias on the part of his scales or on the part of his friends, who assisted him. At least the scales used by other investigators have refused to reveal any sudden diminution in the weight of the body at death. "In the actual acceptance of the term death occurs when respiration and circulation have ceased, but in a more strict sense the death of the body is gradual, the muscular system, for instance, being really alive some hours after the apparent death of the individual."

RECKLESS IN THE QUEST FOR NEWS

"Gosh!" remarked old "Hen" Gunn, one of the oldest inhabitants of North Hayden, Ind., "I don't beat all get-out what them Chicago papers! I do for news! One of 'em went so far as to call up on the telephone, clean from Chicago, the other day 'ask Hayden Charlie's wife, you know—a question about a relative of her'n. ALL HOPE NOT LOST

"Has her marriage to the count really been indefinitely postponed?" "Yes; there was some little misunderstanding, I believe."
