LEONARD SAMPEY DIED HERE MONDAY AFTERNOON

Leonard Sampey, old time resident of Box Butte county, died at the St. Joseph hospital Monday afternoon, the cause of death being bronchitis. Mr. Sampey, who was over eighty years of age, had been declining in health rapidly for several months, and last Sunday an immediate operation was found necessary. The operation, which was entirely successful, was performed Monday by Dr. J. P. Weyrens, but due to advanced age and weakened condition, his bronchial tubes became clogged, and death resulted.

Mr. Sampey was a native of Ireland and came to America when he was 22 years of age, settling on a homestead five miles south of Hemingford in 1885, and since that time has been prominent in farming and public work. From 1891 to 1892 he was a county commissioner. His wife died about ten years ago and he then removed to Hemingford, where he made his home with his daughter, Mrs. Barney Shepherd. At Mrs. Shepherd's death in 1920 he made his home with his son, John, of Hemingford. Funeral arrangements have not been made. His son is the only surviving relative.

In 1913 Mr. Sampey visited his old home in Ireland, and on his return tried to get passage on the ill-fated Titanic, but was unable to do so.

GOVERNOR AND STATE ENGINEER HEARD FROM

(Continued from Page 1.)
Won't Build Track Road.

Division Engineer Gaddis was in Alliance one day last week. He brought the information that the letter written by the Box Butte commissioners, in which they said that they weren't at all favorable to the present routing of the Alliance-Bridgeport road, and that if it couldn't be made to follow the Burlington tracks, would prefer the Broadwater road, has never been made public in Bridgeport. The Morrill commissioners have not held a meeting since the letter was mailed, and consequently no indication of their sentiments has been received here.

Mr. Gaddis was quoted by a county officer as saying that the Morrill commissioners were not in a frame of mind to consider the track road. The impression gained was that if Box Butte county wouldn't accept the present sandhill route, no road at all would be built.

The Box Butte commissioners wrote to State Engineer Johnson about the same time that they wrote the Morrill commissioners, and to practically the same effect, but Mr. Johnson has not yet favored them with a reply. The commissioners asked him to meet with the Box Butte and Morrill men and see if some other road couldn't be designated.

Kinkaid Willing to Help.
The Broadwater men, unwilling to leave any avenue of assistance unopened, has also appealed to Congressman Kinkaid. The congressman, in the following letter, indicates that his hands are tied, but that his heart is with them:

WASHINGTON, D. C., Dec. 30.—Mr. G. R. Harries, Broadwater, Neb.—My dear Mr. Harries: Your esteemed favor of the 20th inst., written in behalf of Federal Aid in the construction of the portion of the so-called Gulf-Plains-Canadian highway, has been received and noted.

Making response, I assure you that I shall be pleased to do everything I can to assist your people in securing Federal Aid, but it will be necessary that the matter be presented to the Bureau of Public Works, Department of Agriculture (which Bureau has jurisdiction over such matters)—in the first instance by the Nebraska State Highway Commission. I suggest that your county commissioners and the county commissioners in the other counties which the road traverses make application to the State Highway commission for State and Federal Aid.

I regret to say nothing can be done here in Washington to further the proposition until an application has been made to the Bureau of Public Roads in the manner above described. I shall hold myself in readiness to do everything I can to bring about favorable action in the premises, and shall be pleased to have you advise me of any steps taken. Very cordially yours, M. P. KINKAID.

To My Friends

I have been informed that several articles have been sent, and many others will be sent to the papers in my defense and expressing indignation at the attack made upon me. Now, if you really mean to help me, please desist from writing any more articles, as I have asked the editors to decline any more articles or letters written in my behalf. A mistake has been made, let us be big enough to forgive; for two wrongs will not right one.

Furthermore let us realize that no individual is as big as the community, and we should be willing to lay down our individual interest for the general welfare of the community. Let us not make a whole community suffer for the mistakes of an individual or two. Hoping that you will honor me this far by dropping this unfortunate affair as far as our side is concerned, I am,

Thankfully yours,
B. J. MINORT.
