PRETTY TOGS FOR KIDDIES

In our wash wear department we are showing a pretty selection of dresses for little tots, growing girls and misses. They are made in smart designs that embody service and quality. The materials—workmanship—style—fast colors—together with our reasonable prices, make them thrifty clothes to buy.

Price Range 98c Up.

Children's socks have been very difficult to secure this season. Beginning Saturday morning we will have a complete assortment in fancy colored tops and plain socks in all sizes from 4 to 9 1-2. The price will be 25c and 35c per pair.

We are always glad to have parents bring the little ones to us to be fitted in shoes. We realize the necessity of having a child's foot correctly encased in a good fitting comfortable shoe, that gives them sufficient freedom to "wiggle their wee toes." Our shoes are designed on Nature lasts. We never lower our quality to kiss price—but nevertheless our prices are reasonable.

We will thank our out-of-town friends to send us their mail orders. Our parcel-post service is prompt and efficient.

BUNNY SAYS

Tempest in a tea-cup—Home Brew.

John Bull provided the meat for the "Irish Stew."

Frenchie's idea of reparation is skinning Fritzie.

King Cotton is slowly regaining his strength.

Sall Scroggins was blinded Saturday by the sand storm on our Dusty Main.

Let's make our town look so good that every visitor will become a Booster.

Our square-jawed young council have some hard problems before them in making Winnsboro a better town. Every loyal citizen should give them their sympathy and support.

Nowadays when a good-fellow says "Have one," you don't know whether to take a look or a drink.

After all everything evens up in this old world. The rich have ice in summer—the poor "get" theirs in the winter.

This is not a time for hot heads and cold feet—it is a time for utmost confidence and every shoulder to the wheel of practical reconstruction.

D^EBEVOISE BRASSIERES

Are a necessity as well as a luxury to every woman—whether of slender, medium or full figure, because it contributes so much to her style, comfort and health and adds a charm and beauty to her appearance that nothing else can supply.

We sell these famous Brassieres at .55c up.

SAY MEN DO YOU KNOW

Old Sol will soon slide the heat gear in high? That means you will have to shuck your coat and vest. Don't you think this is a good time to go over your shirts and see if they will bear inspection? You know they are not puncture proof—but ours are tub proof. Rub and scrub them, the colors come up smiling.

Priced \$1.50 up.

Now fellows we know that you are busy working and possibly we ought to try to sell you Headlight overalls instead of real Dress-Up-Togs. But you know you need a nice looking suit when you accompany the good lady to church on Sunday. We have some real clothes to show you. Come in this week and take a peep.

WHAT WILL WINNSBORO BE IN TEN YEARS?

This is the question which should be in the mind of every man, woman and child who has the interests of the town at heart.

The future of Winnsboro depends upon the answer. The answer depends upon you.

Will the merchants be able to meet the competition of the merchants of other towns? Will the manufacturers' labor and transportation wants be supplied? Will there be plenty of clean and comfortable homes? Will there be ample school rooms, playgrounds and other environments so necessary for the development of happy and healthy childhood—the first prerequisite for the citizenship of the future. Will there be developed here that Community Spirit and leadership so vitally necessary in carrying forward all the civic and commercial enterprises of the modern progressive town?

Winnsboro calls you to her service. Service means faith, co-operation, sacrifice. The past is past and no useful purpose is served by clinging to old quarrels and misunderstandings of bygone days. Not Winnsboro "was" but Winnsboro "will be," not regrets but hopes, not fear but faith must be the keynote to future greatness.

Towns and cities are built by men, and Winnsboro will grow in greatness only as the men of this town grow in the same direction.

Winnsboro will be just what we make it.

SUDAN GRASS.

This pasture and forage grass was first introduced in the United States seven or eight years ago when it was brought from the Sudan in Egypt. Trials at various Experimental stations had such successful and satisfactory results that its fame soon spread far and wide and it has

now become one of our permanent forage crops. Sown broadcast, when the soil has warmed up in the spring at the rate of 18 to 20 lbs. per acre, it yields an abundant crop and during the season furnishes two or three heavy cuttings, according to weather conditions. It is a tall-growing, annual Grass, possessing wonderful food value, and is keenly relished by

stock of all kinds. We have the seed in stock. OBEAR DRUG COMPANY

The Story of Our States

By JONATHAN BRACE
VIII.
SOUTH CAROLINA

AS MARYLAND had been made a proprietary government, in like manner the territory

extending from Virginia to Florida was granted by Charles II in 1683 to eight gentlemen as a reward for their efforts in his behalf. The name Carolina comes from the Latin, Carolus, meaning Charles. It was not really named after Charles II, but originally in honor of Charles IX, king of France, by Huguenots who built a fort near Beaufort in 1562.

The fact that the Carolinas became later two distinct colonies was due to chance. It happened that the earliest settlements located at points far removed from each other. The first permanent settlements in South Carolina were about Charleston, while those in North Carolina were around Albemarle sound. The life in the two sections also was quite different. South Carolina was largely devoted to the cultivation of rice and indigo and the planters soon grew very rich with their large estates on which the labor was performed by slaves. In fact, just before the Revolution the population showed twice as many blacks as whites.

In 1729 the government of the Carolinas was turned back by the lord proprietors to the king and there was then formed the two separate provinces.

South Carolina was the eighth state to adopt the Constitution, the vote of ratification being passed in May, 1788. The Palmetto state, as South Carolina is sometimes called, extends over 30,980 square miles, and it participates in the presidential election to the extent of nine electors.
