## PAVING THE WAY TO LUXURY.

Every citizen must admire the gallantry and bravery of the American soldiers in the Philipines. The commanding officers seem to be far superior to those at Santiago, and they are conducting an admirable campaign. While Americans admire the conduct of the American soldier, the thought of what effect this war will have on the future history of the Republic is a very serious one. The average man doubtless does not stop to think through what changes we are passing; he does not realize that we are uprooting principles which have been our guides since the foundation of the Republic. Many superficially inclined look upon it as merely changing the colors on the map of the world, without stopping to consider that we are violating all of our traditions and entering upon a course which threatens the Republic

Too much can not be said on the subject. It is an issue to the settlement of which all other questions between political parties and factions should be temporarily put aside. Every citizen should be made acquainted with the true situation that he may be alive to the great events now shaping the destiny of the United States.

Annexation has gained some strength in this country, originating we believe in powerful syndicates which expect to operate in the new possessions. Not satisfied with oppressing at home, they demand larger and greater fields. Others desire it merely because they like to see a change, and think it a fine thing for a great country to own and control possesions over the world.

But sober and reflecting people must ask themselves: What are we to gain by territorial expansion? What have we gained by annexing Hawaii? Some say that it was needed as a strategic point, for by its being our territory we have command of the Eastern Pacific, and our southern and western coasts can thereby be better protected. Many for a similar reason want Cuba as it commands the Caribbean Sea. America is already strong, and it is a question whether Hawaii does not add weakness to our strength. Competent authorities always name Russia and America as exceptionally strong against attack, because neither of them have any insular territory to defend. All of the territory of the United States, except Alaska, is continuous land territory, hence no naval power can cut off one part from another, but it is quite different with a lot of islands scattered over the face of the earth. No country would think of invading Russia or the United States. They have too much contignous territory. With islands separated from the United States, the Government must have a large and powerful fleet to protect them They will be the first object of attack in case of war. Great Britain has vast insular territory, hence that Government must have a great fleet. This explains why Britain is the naval power of the world. If the United States, therefore, is going in "the island business" the Government will be forced to follow the example of Britain. James Boyce, member of Parliament, whom we have had occasion to quote before, writing in 1897 in the Forum, and that too before our war with Spain, says: "Britain has to defend not only Ireland, but her vast colonial and Indian dominions, France has colonies which are practically hostages to England or to any other naval power that might be able to drive France off the seas. * * * Similarly, the even less valuable colonial possessions of Germany are hostages both to France and England, as both these countries have fleets stronger than the German. Just in the same way, Cuba and Hawaii, in the hands of the United States, would be liable, at the outbreak of war, to be seized by any enemy stronger at sea; and the only way to prevent this would be for the United States to maintain a fleet in the Pacific and another in the Gulf of Mexico powerful enough to defend both islands. * * * But is it worth her while to do so? Why should she spend the hundreds of millions of dollars that would be needed? Of all the great powers of the world, she is the one least likely to be attacked; not only because she has few occassions for quarrel with other states, but also because no other state has anything to win by fighting her. * * * In other words, a great navy would be to her a luxury, and very costly luxury. We in England are unluckily obliged to have a formidable navy, because we are confronted by formidable and not always friendly rivals. * * * We deplore the gigantic sums that we are annually obliged to devote to our fleet,—sums all the larger because fashion in naval matters changes so fast that a ship which has cost some millions of dollars may in a few years be pronounced obsolete. It is however supposed—whether rightly or wrongly I need not enquire—that Britain cannot help herself, and must go on increasing her annual naval vote."

In the Philipines we are preparing to follow the example of Britain. Will it pay?

If you have a cough, throat irritation, weak lungs, pain in the chest, difficult breathing croup or hoarseness, let us suggest One Minute Cough Cure. Always reliable and safe. McMaster & Co.

No one doubts that the United States will ultimately conquer in the Philipines, but it seems hard that so many American lives should be lost fighting against a people struggling for liberty and self-government. The people of the United States have had no heart in this war. It should be called the war of the administration carried on for the purposes of greed.

Sometimes we think that imperialism has found favor in the United States merely for the sake of imitating and rivalling great European powers Some people have a pride in contemplating the large space covered by our possessions on the map, without stopping to consider how tremendous will be the cost. Great Britain is not to be envied in many of her possessions. Of all of her colonies, Canada, South Africa and Australiasia are about the only possessions suitable to receive the overflow of her own population. It is worth remembering that these colonies are in the temperate zone. Possessions in the tropics are quite different. The Rt. Hon. James P. Boyce, a member of Parliament, writing for the Forum a few years ago wrote: "India constitutes a large market for European goods, but a market equally open to the United States and to Germany or to Britain; for no differential tariff has been imposed. So far as drawing any revenue from India, the state of the Indian revenue is a constant source of disquietude to us. We are proud, not unreasonably, of what we have done to establish peace and order and to promote education there. But India is not a source of strength to Britain. The responsibilities which our control of it imposes are tremendous." The same writer states that Britain's tropical possessions have been a load. It requires a large army and navy to protect territory, and it does not pay.

It is not intended to revive the old factional feelings, but it must be noted by thousands of people in this State that no such state of affairs existed in this State from 1876 to 1890 as that disclosed by the committee now investigating the State penitentiary. "Insipient rottenness," something rotten in Denmark," "reeking with fraud," were the terms used to describe the condition prior to 1890, but after nearly ten years nothing has developed to sustain the charge. Look at the record from 1876 to 1890, and compare the record since 1890. We make no further comment

The Farmers Mutual Insurance Co.'s statement which was published in our last issue shows what could be done by home insurance companies. Winnsboro pays annually over $10,000 in fire insurance premiums, yet there never has been a $10,000 loss in Winnsboro. Off-hand we would say for the past twenty years the average loss has not reached over $500 to $800 per annum. A home company with a capital of $50,000 would be ample protection, make a big profit and save money to insurers.

The discovery of coal in Hampton County by the boring of an artesian well and resulting in the owner of the farm securing an offer of $100,000 for an ordinary cotton plantation will doubtless stimulate the artesian well business. Somewhere and somehow we have been informed that the character of the soil in the neighborhood of Blythewood indicates that oil is there. An artesian well might prove a fortune in that locality.

It is all very pleasant—to the sponsors—to be the centre of attraction at the Confederate reunions, but we think the United Daughters of the Confederacy and the News and Courier are right in insisting that the old soldiers be given a chance.

Georgia is not lacking in advertisement. President McKinley. Speaker Reed, Mark Hanna, and other prominent people fill a great deal of newspaper space every day to say nothing of the base ball clubs and the troops in Georgia.

Columbia is getting so many good new things that her friends hardly have time to congratulate her upon one before another good one for Columbia is announced.

## NEWS FROM BUCK LICK.

Easter was a beautiful day, but nearly every white person in the country went away to spend the day with friends in Ridgeway and Mitford. Therefore it was exceedingly quiet for those of us who remained at home.

Mr. L. S. Mellichampe, from Williston, paid his brother here a flying visit last week. It has been several years since he was in our country and we were all delighted to see him again.

In our last news we announced the Peay's Ferry was open for travel But we were a little previous about the matter as our friend, Mr. L. D. Robinson, of Winnsboro, found out. You can cross now, Mr. Robinson, as Mr. David Crawford crossed here Saturday with horses, mules and cattle.

Mr. Wray, of Ridgeway, has poles hauled out on the way to his place here with the view of having a telephone line put up from Ridgeway to his place.

A good many from here attended a picnic Saturday just across the river from Mr. B. F. Cassels' place.

Mr. John Hobbs has been commissioned Magistrate for this district. He has had some work to do in that capacity already. M. C. P.

April 3, '99.

**The Best in the World.**

We believe Chamberlain's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough, and having read their advertisements in our own and other papers we purchased a bottle to see if it would effect us. It cured us before one bottle was more than half used. It is the best medicine out for colds and coughs. —The Herald, Andersonville, Ind. For sale by McMaster Co.

## CLOSING EXERCISES OF ASBURY SCHOOL.

Prayer—by Mr. Jno Wooten.
Salutatory—George Raines.

Blythewood, April 1, '99.

Before the discovery of One Minute Cough Cure, ministers were greatly disturbed by coughing congregations. No excuse for it now. McMaster Co.

## A MORAL TOWN.

*Chester Lantern.*

Your humble scribe having returned from a trip to Winnsboro, where he went to gather and ship some cattle, I will try to give The Lantern a few items By the way, Mr. Editor, I can say that Winnsboro is the most moral town I have visited in this State or any other state, to its size, and I have been in many towns in this state, Georgia, Florida and North Carolina. I find some of the best people there that I have ever met anywhere. I find strictly just and honest men very scarce but I find some in this good old town, one most assuredly. If your scribe felt inclined to go to town to raise and educate his children he would go to Winnsboro, as they have a good school, carried on by Prof. Witherow and other very efficient teachers, and her church facilities are very good. Although the churches are small and behind the times, they are neat and comfortable.

While this lovely little town is far behind as to modern conveniences and modern improvements, she can boast of a very fine cotton mill and an oil mill, etc., and they certainly are far ahead in morality I know whereof I speak, as I am thrown with all classes of people in my business. We did not intend saying so much about this little town, as we are not writing it up.

I have had the pleasure of meeting many of my old school mates in Fairfield county and old friends of my father and grandfather, which reminds me that our family name was at one time very numerous in this dear old county, but it is almost extinct, as I know of but two of the name. I had the pleasure of meeting one of these, but as business was pressing me I saw but little of him, but I hope to make a visit to old Fairfield some time ere long.

Clodhopper.

March 27, '99.

As the season of the year when pneumonia, la grippe, sore throat, coughs, colds, catarrh, bronchitis and lung troubles are to be guarded against, nothing "is a fine substitute," will "answer the purpose," or is "just as good" as One Minute Cough Cure. That is the one infallible remedy for all lung, throat or bronchial troubles. Insist vigorously upon having it if "something else" is offered you. McMaster Co.

## SCHEME TO ABOLISH HEADACHES.

*Chicago Times-Herald.*

It is reported from Ann Arbor that a surgeon in that town has made an anatomical discovery that may result in the complete abolishment of headache. Professor Cleves control the blood vessels of the brain, a theory that is opposed to the teachings of the books, hence physiologists may develop an anatomical process for quickly closing the headquarters of the nine works by shutting off the source of supply

Professor Cleves, it may be possible, through the medium of the X-ray, to wear a connection on the proper accessory nerve in such a way as to completely remove all knowledge of the existence of such a thing as a head. It is unnecessary to say that any device which will decrease the number of bromo-seltzer heads in this way will be a priceless boon to humanity, although it will be a heavy blow to the powder mills that are filling the stomachs of the people with all the various combinations of coal tar products which quite often cure the headache by killing the patient.

We welcome the sensory nerve process of controlling the blood vessels of the head as a happy relief from the tons of tablets and powders. As a result of this discovery the time will come when a man will only need to pinch himself in the proper place or touch a button somewhere on his anatomy to destroy all consciousness of the possession of a head.

"Give a liver regulator and I can regulate the world," said a genius. The druggist handed him a bottle of DeWitt's Little Early Risers, the famous little pills. McMaster Co.

CASTORIA

The Kind You Have Always Bought in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and Substitutes are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Harmless and Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.

The Kind You Have Always Bought
In Use For Over 30 Years.
THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

## GRANTS WEATHER FORECAST FOR APRIL.

1st to 2nd, fair and warmer; 3rd, partly cloudy and warm; 4th, local rains, thunder and wind; 5th, fair and cooler; 6th to 9th, very unsettled weather; about the 10th and 11th, cold rains and wind, followed by clearing skies and cold northerly wind. On the morning of the 12th or 13th, look out for a heavy frost for the season of year. Take care of all tender plants that are liable to be hurt by the frost. From all probabilities the temperature will fall nearly to the freezing point. 14th, nearly cloudy and warmer; 15th, local thunder shower; 16th to 20th, fair, warm and beautiful; 21st, cloudy and local showers; 22nd to 26th, fair and pleasant weather, but warm. From the 14th to 26th will be very propitious for pushing all agricultural work

About the 26th to 28th, local thunder showers; 29th and 30th, nearly fair.

I said in February forecast that I would give my views on the general character of the weather of the spring and summer months in March or April forecast. It is as follows:

That the first half will be very changeable from very warm to cool and much cloudiness and showers, with some heavy local downpours of rain and some hail. The last half the rain fall will increase. Prepare for it.

June—to the 20th, we may look for plenty of rain with some heavy local rains and some hail with much lightning and thunder. After this date the rain fall will be in the minimum. Upon the whole, I believe we will have a heavy rainfall through portion of May and to the 20th of June—more than we will see in several months to come

July—the first week rain will be needed in many places—in places very dry. From 7th to 12th, good rains in places with storms of wind; probably the rains will be general by the 12th; scattering showers about the 21st to 24th. After this the rainfall will be light until about the 18th of August. There will be some good local rains fall within this period, but they will be scattering and far between.

J. Martin Grant.

CASTORIA.
Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

## SUMMER HOMES' FOLDER, 1899.

Mr. W. A. Turk, general passenger agent of the Southern Railway, is collecting information for Summer Homes' Folder for the ensuing summer, giving the names of proprietors, postoffice addresses, at or near what station, conveyance used, number of guests, terms per day, week and month. This information will be printed in an attractive form a large edition published and distributed by the various agents of this immense system throughout all sections of the country. Persons contemplating taking boarders for the ensuing summer are requested to apply to the nearest railroad agent for blanks to be filled out giving the above information, and forward at once to W. A. Turk, general passenger agent, Washington, D. C., so that it may reach him not later than April 1st.

## The Gold That Glitters.

**DO RICHES MAKE HAPPINESS, OR DOES HEALTH MAKE WEALTH?**

The richest man cannot always be said to be the most successful, for true success is not possible without happiness. Many a wealthy man would give all he now possesses to have the health and happiness of a young athlete. Health is not hard to get and keep if good judgment is used in caring for and supplying the needs of the system. Nature often needs assistance; you sometimes abuse nature by overtaxing your nerves, your brain, or your body, and you haven't time to relax, and take the rest that you need. You must have outside help. Pabst Malt Extract, The "Best" Tonic, will supply the extra fuel, food, and strength; it is absolutely pure—an unequalled assistant to nature in giving health, vitality and strength. It will make you eat and sleep well, and cause you to feel like yourself again, or perhaps, better than you ever felt in your life. The "Best" Tonic was awarded the 100 points of perfection at the World's Fair, and was the only Malt Extract which received that honor. Your nearest druggists carry Pabst Malt Extract, The "Best" Tonic in stock.

## THE REGIMENT OF ENGINEERS.

**A South Carolinian Deserves the Credit for it All.**

Camp Michie, Matanzas, Cuba, March 25.—It has always been a genuine pleasure to read copies of the News and Courier, which occasionally find their way into our camp. Here Perched upon the rocks of Cuba, overlooking the beautiful bay of Matanzas, our thoughts run often to our home, and as often to our State, so, when the News and Courier comes to hand in a while, it is in such demand that it is soon too blurred to read.

When we read of the parsimony of the 2nd South Carolina, at Havana, we, perhaps, for the first time, felt how great our loss in not having with the State troops, for here the South Carolina members are few and far between. Yet South Carolina does receive some credit from our regiment, although we are "only United States volunteers."

However, the inspector general says we are the best and most efficient regiment in the service. If we are (and, of course, we believe him absolutely) a South Carolinian deserves credit for it all.

In June, 1898, Capt. D. D. Gaillard, of the engineer corps, was made a colonel of volunteer engineers, and authorized to recruit his regiment—the 3rd United States volunteer engineers. The officers were chosen by competitive examination. A few were appointed.

Among the officers thus selected were many whose knowledge and skill, combined with their wealth, position and family, are well known over the entire country. The enlisted men, the rank and file of the regiment, are different from those of almost any other regiment in the service. There are many men in the ranks with degrees from Harvard, Yale, Princeton, Columbia, Northwestern, California, Georgetown and other colleges and training schools, yet these men use the pick and shovel, carry the chain or rod, and do their military duty as well if not better than many who have done nothing else in their lives. This regiment has made for itself a record as well disciplined soldiers; as skilled and accomplished and proficient engineers; as a body of men who have been social lions on all occasions.

### BRIEF SKETCH OF COL. GAILLARD.

The Secretary of War made a wise choice when he gave the command to Col. Gaillard. Every South Carolinian knows of his work on the Mexican boundary survey, the Alaskan survey and his trip to Manilla prior to the war. An honor graduate of West Point, his work in the army has been such as fulfilled the promise of his youth. To those who have met his family in York County it is unnecessary to say he is a genial, whole-souled gentleman. All who have known him say that he is a tireless worker and a man of wonderful brain and energy. To all who have served under him he is the best friend they have in the service, one to whom they can take appeal for redress of any real grievance, yet one who is always the commanding officer." Being but 35 years of age he has a wonderful future before him.

### MAJOR HENRY C. DAVIS.

When the regiment was mustered in Henry C. Davis, of the regular army, was the major commanding the 2nd battalion. He also came from York County and is a West Pointer. He served less than one month with his command, being received to resume duties as instructor at West Point where his previous work and record had made him indispensable. It is safe to say that no officer was more missed. He commanded men from his men, but gave to them always a thorough type of the ideal officer; for such an officer, and upon the same work of a gentleman.

As the St. Louis Democrat says: "A most wonderful and remarkable regiment. There has never been and probably will never be, another such in the service." Those men and officers are good record for duty done and still more bright chapters of remarkable work, and the skill and bearing of Col. Gaillard, one of our old Palmetto State boys, which has won for him the hearty co-operation of every officer and man in the regiment.

A South Carolinian with the 3rd.

The above is part of a letter written by a member of the 3rd Volunteer Engineers to the News and Courier. The writer makes a mistake in saying that Col Gaillard and Major Davis are natives of York County, as they are both natives of Fairfield County.

**For Over Fifty Years.**

Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. 1-1-17

## TRIBUTE OF RESPECT.

Whereas, God in his infinite wisdom has seen proper to remove from our midst our esteemed and worthy brother, J. R. Broom, we feel deeply the loss of our brother, he being one of our faithful members. Though he was in feeble health for several months, he was a patient and uncomplaining sufferer. He was gentle as a child in his dealings; but, alas! he is gone. We mourn the death of our brother, but not like those that have no hope, for while his body rests in the silent grave we have a responsive hope that his spirit is in the beautiful House of the soul where sickness and sorrow, pain and death are felt and feared no more; and we trust he is now feasting on the beauties and glories of the heavenly world. Therefore, be it resolved:

1. We, the brother comrades of Camp Hood, No. 1168, do sincerely lament the departure of one of our members, endeared to us by his uniform good deportment and his kind and gentle way.

1. That in his death the camp and comrades have lost a worthy member and the community a good citizen.

3. That as a mark of respect to the memory of our deceased brother there be left a blank poge in our minute book.

4. That we deeply sympathize with his relatives in their bereavement and loss.

5. That these resolutions be sent to the Winnsboro News and Herald to be published and that a copy be sent to his family.

M. L. Braswell,
A. Dunn,
W. J. Hagood,
Committee.

In almost every neighborhood there is some one whose life has been saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy, or who has been cured of chronic diarrhoea by the use of that medicine. Such persons make a point of telling of it whenever opportunity offers, hoping that it may be the means of saving other lives. For sale by McMaster Co.

Mrs. Mary E. Williamson died at the home of her son-in-law, Mr. Geo. W. Fant, in this city, last Thursday. She was sick only about forty-eight hours, and the announcement of her death was a great shock to her friends and relatives. The deceased was a native of Fairfield County, S. C., and was in the 87th year of her age. Her maiden name was Nevit, and her parents moved to Anderson County in 1832. She married Reuben Williamson, of Laurens County, and he preceded her to the grave years ago She was the mother of three children, only one of whom Mrs. T. J. Webb, of this city, survives her. Mrs. Williamson was a most excellent woman, and had long been a devoted member of the Baptist Church. On Friday morning, after appropriate funeral services conducted by Rev. O. L. Martin at the home of Mr. Fant, the remains were interred in the Silver Brook cemetery.—Anderson Intelligencer.

## Regardless of Age.

The kidneys are responsible for more sickness, suffering, and deaths than any other organs of the body.

A majority of the ills afflicting people to-day is traceable to kidney trouble. It prevades all classes of society, in all climates, regardless of age, sex or condition

The symptoms of kidney trouble are unmistakable, such as rheumatism, neuralgia, sleeplessness, pain or dull ache in the back, a desire to urinate often day or night, profuse or scanty supply.

Uric acid, or brick-dust deposit in urine are signs of clogged kidneys, causing poisoned and germ-filled blood Sometimes the heart acts badly, and tube casts (wasting of the kidneys) are found in the urine, which if neglected will result in Bright's Disease, the most dangerous form of kidney trouble.

All these symptoms and conditions are promptly removed under the influence of Dr. Kilmer's Swamp-Root. It has a world wide reputation for its wonderful cures of the most distressing cases.

No one need be long without it as it is so easy to get at any drug store at fifty cents or one dollar. You can have a sample bottle of this wonderful discovery, Swamp-Root, and a book telling all about it, both sent to you absolutely free by mail. Send your address to Dr. Kilmer & Co., Binghamton, N. Y., and kindly mention that you read this liberal offer in The News and Herald.

We have also received a beautiful line of White Goods—Lawns, Checked Muslin, Dimity, Pique, and Welts. We are marking these goods extra cheap to start the season.

Another Bargain in Towels.

A good size Linen Towel at 10c.; extra large and heavy Turkish Towels at 20c. and 25c.; full stock in Huck and Damask Towels.

New Lot Gents' and Boys' Colored Shirts; extra good value and pretty pattern.

We want your business. We are better prepared to sell goods at low prices than ever before. Our buyer will start to the Northern markets in a few days and we expect to show an elegant Spring Stock. Our constant endeavor is to please you in the best goods at lowest prices. Come and see us.

The Caldwell Dry Goods Company.

## Hardware, Etc.

THE UNDERSIGNED HAS PURchased the interest of the estate of F. Gerig, deceased, in the stock of goods of Gerig & Seigler, and solicits the trade of the people of Fairfield County.

Plows, Hoes, Harness, Saddles, Farming Implements

of all kinds, and everything found in a FIRST-CLASS HARDWARE STORE.

The trade of the friends and customers of Gerig & Seigler is fully appreciated, and the undersigned hopes they may find it to their interests to continue their business relations with him

J. W. SEIGLER.
