—Last week we published an article from T. L. Gault, well and favorable known to many of our subscribers. It was composed by him and published in his paper, The Whiteville (N. C.) News Reporter, and should have been credited to this paper. The credit was unintentionally left off and we now hasten to give friend Gault the necessary credit.

The new Graded School opened last week under the most favorable auspices. The largest attendance greeted Prof. J. W. Ballentine the first morning that has been at any session heretofore. Although late in the season, our friend J. E. Medlin, sends us a nice bunch of fresh blackberries, which he has crossed so as to get an October crop. He informs us that he has a fine crop of this late variety and that he expects to revolutionize the fruit growing business in this country. He informs us that he accomplished this feat by crossing them with the coonberry and the hawe.

All camps in this, neighboring counties, and elsewhere about the state will be invited and urged to attend and join in the parade and take part in the other exercises. A speech on Woodcraft by a prominent citizen, of the state, who is very much in the public eye at the present time, will be a feature of the occasion.

—A. T. (Summy) Winchester, of the Hazel section, is nothing, if not energetic. His latest venture is a cannery and he is putting up a mighty nice line of fruits and vegetables. In a talk with Mr. Winchester he informs us that he intends to can for the trade, offering most all of his products to the merchants. He will also can on the shelves for his neighbors. From what we have seen of his output, and knowing him as we do, we are satisfied that only the best vegetables and fruits will be used, and in the cooking, sealing and handling everything will be sterilized and scientifically done. You will be well pleased with these products when you use them. Mr. Winchester has kindly offered to load down the editor's ladder with the various products of his cannery, and when he does, and after using them, we will tell you some more about them.

### Tonic or Stimulant?

There is an immense difference between a tonic and a stimulant. Up one day, way back the next; that's a stimulant. Steady progress, day by day toward perfect health; that's a tonic. Sarsaparilla is a tonic, a strong tonic. The only day Sarsaparilla entirely free from alcohol. Do not stimulate, make your doctor say so. He knows. Ask him. Do as he says. J. C. ### The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment he not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."
