

**3 Silver City Nugget 3**  
PUBLISHED WEEKLY.

John Lamb, - Editor and Publisher.

FRIDAY, JUNE 14, 1901.

Grover Cleveland, of tariff and sound money fame, has been quarantined. About time.

The reason why there are so many married men is that two heads are better than one.

The Boers and John Bull are still making goo-goo eyes at each other. The end is not yet in sight.

The promise of local self government to the Philippines is to be carried out on the lines of benevolent assimilation.

Minister Conger, of Iowa, is gwine back to China. In republican politics of that state, this is said to be an allied move.

Ran for office or go courting a girl, and every old scab on the face of the earth steads ready to use his jaw-bone without the usual per diem allowances.

The salvation army has never been able to reform the front part of our morning paper by holding meetings, so now they have attacked the rear end of that establishment.—Boise Clipper.

A Des Moines, (Iowa) minister is preaching against the Almighty Dollar. He must belong to that band of worshippers who believe, "in whatsoever a man soweth, that shall he also reap."

A girl writes to the New York World saying that she is desirous of being a "lady" and the unfeeling editors turned her over to the earl of Yarmouth. The Denver Times says: "It is easy to see her finish."

A West Virginia man, who was recently coronered to death suffering with heart failure, arose from his bed and immediately proceed to sing the doxology. It was certainly time for him to get religion if he ever had any such intention.

What would become of a Kentuckian who would have the temerity to denounce the use of whiskey? A prominent Louisville physician was recently dismissed from the faculty of a medical college in that city for denouncing cigarette smoking.

The Idaho Free Library Commission has published a neat little hand-book which it is circulating for the purpose of giving the public information concerning the scope and purposes of that very worthy institution, and giving the rules and regulations governing the circulation of the books.

Our old friend, Jake Horn, who made his "pile" publishing newspapers in Nebraska and Idaho, has gone into the notion store business at Caldwell. Jake always was sort of a notional fellow and would just as soon burn corn as coal or wood. NUGGET wishes him the compliments of the season.

The Elmore County Bulletin started last week on its 14th anniversary, under the management of Geo. M. Payne and his talented daughter, Nabel. The Bulletin, known throughout the state as the "Old Reliable," is an out and out exponent of democratic gospel, enjoys a good patronage, and is a power for good in Elmore county. NUGGET extends congratulations.

**EVEN UP.**

A laboring man can just as properly demand that an employer quit his union as the employer can demand that the man quit his.—Denver News.

The Laporte Press, our old home paper, republican in politics, is out for the nomination of Cato Sells, an old Laporte boy and a life-long democrat, for governor of Iowa. Cato rose from the "ranks," taught school, published a newspaper, studied law, was U. S. District Attorney under the Cleveland second administration, and is now chairman of the democratic state committee of his native state, filling these several positions with great credit to himself and the people. The main push of NUGGET is under obligations to Mr. Sells for a ticket to the democratic national convention, nominating Bryan at Chicago, and a situation in the government printing office, Washington City, and would like to see him elected governor of the State of Iowa.

How would you like to be a member of the Supreme Court?

Let us hold our noses while we consider the malodorous subject of American aristocracy.

New York City has a population of half a million more than the thirteen colonies which fought for independence in 1776.

**Magazines, Papers.**
