12 Suits for \$10.

We just received an assortment of Linen and Alpaca
Furnishing and other Goods for summer wear.

ELDREDGE & CRAIG!

Dakota for Health.

The physicians are beginning to discover the value of Dakota air for health giving purposes and they recommend this territory as a health resort. The Chicago Daily News of June 8, says:

"At the regular annual meeting of the Chicago Academy of Homeopathic Physicians and Surgeons, at the Grand Pacific last evening a paper was read by T. C. Duncan on 'Dakota as a Health Resort.' Premising that the essentials of a health resort are its sources productive of diversion, deep respiration and vigorous digestion.

The doctor showed that Dakota furnished such in a marked degree, the water, air and other favorable conditions contributing to the cure of dyspepsia, diseases of the kidneys and bladder, catarrh, bronchitis, and consumption in its early stages, though in its advanced stages the patient should seek a warmer and less bracing air. Asthma is also markedly affected by Dakota air, which moreover is more beneficial than that of Colorado, or other elevated regions, in cases of heart disease complicated by asthma, bronchitis or indigestion. The large amount of soda in the soil makes the wheat of Dakota especially healthful, while from its large amount of nitrogenous elements the use of this staple supplants the demand for meat." — Sioux Falls Press.

A sad accident occurred at Glasgow, Scotland, July 3rd, while launching the new steamer Daphne into the river Clyde.

There was a great crowd both in the dock and yard and on the opposite bank to see the launching, and the rigging of all the craft in the immediate neighborhood was pretty well peopled. The craft went down from the stocks well and easily, and the crowd aboard were in the very height of enthusiasm, cheering and waving flags and handkerchiefs when the accident occurred. Just as the Daphne was about to level herself on the water, she leaned to one side slowly at first, and suddenly keeled over completely because of some fault in the ballasting. The keeling was done with such quickness that every person aboard was literally put under water and there tumbled by the hulk. It is not believed that over half a dozen of those who were on the deck escaped. All the men who were in the rigging, with the exception of a few who were stunned by the collision with the water, were able to swim ashore. The number of killed is placed at 150. The greatest excitement prevails. Seventy bodies have so far been recovered.

See Here.

Movius Bros. have had experience in getting the numbers on land changed and they know how to do it. Give them a call.

"Wonder Books."

Not books of magic, but solid, choice classic literature, at prices so low as to seem really amazing to the old-time book-buyer. And they are printed, not in "diamond line" type, on "straw paper", but the type and paper are so good that even the fastidious bibliophile would never think of disdaining such a presentable production. In the recent issues of THE ELZEVIR LIBRARY, to which we refer and which is receiving, as it well deserves, the strongest commendations of the press and the people, are "Sunshine and Other Stories" for young folks, illustrated by Mrs. Alden, price 3 cents; "The Civilizations of Asia," by the world-famous historian, Rawlinson, price 2 cents; a sketch of "Buddhism" by John Caird, the Oriental Scholar, price 2 cents; "Demonstrative Evidences of evolution, by Huxley, price two cents; "Philosophy of Style" by Herbert Spencer, price 4 cents; "The Great Bridge" containing the orations of Hon. A. S. Hewitt and Rev. Dr. R. S. Storrs, on the recent occasion of the opening of that greatest engineering work of the world, price 4 cents.

This remarkable series of books, of which over 50 numbers or volumes have been issued since the first of the present year, at prices ranging generally from 2 cents to 10 cents each, is not sold by dealers, but only direct, by the publisher, who will send a 68-page illustrated catalogue free, upon request, and who also offers to send any of his publications to be paid for after they are received and found satisfactory, to any one giving reasonable evidence of good faith. Address John B. Alden, Publisher, 18 Vesey Street, New York.

Oats for sale on time or for cash at the Grant County Bank.

Have the ladies seen those unique flower-pots at the postoffice? If not just call and examine.

FLAX SEED

For Sowing on New Breaking.

The Large Russian Variety, Clean and Pure.
