The old fashioned way of dosing a weak stomach, or stimulating the Heart or Kidneys is all wrong. Dr. Shoop first pointed out this error. This is why his prescription—Dr. Shoop's Restorative—is directed entirely to the cause of these ailments—the weak inside or controlling nerves. It isn't so

difficult, says Dr. Shoop, to strengthen a weak Stomach, Heart or Kidneys, if one goes at it correctly. Each inside organ has its controlling or inside nerve. When these nerves fail, then those organs must surely falter. These vital truths are leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. Test it a few days and see! Improvement will promptly and surely follow. Sold by A. Duffner. 24-27.

A Xmas Suggestion

Here's a practical gift suggestion! If you haven't a MONARCH Range in your home now, there is nothing you could buy that's needed more or would be as much appreciated. Every day for years and years to come it would lighten the burden of the kitchen worker and give pleasure to each one who partakes of its cooking. Unlike other possible gifts, the MONARCH really PAYS FOR ITSELF. By next Christmas its first cost will be back in your pocket—through reduced fuel bills. It's different from other ranges in this respect—as well as others—because it is built right of malleable iron, steel plates and asbestos board.

Winner of THE GOLD MEDAL

Seattle, Wash. '09

Exhibited at two great Expositions and at both awarded THE GOLD MEDAL is the record of the MONARCH Malleable Range. But the honor we value most is the verdict of the women who have MONARCHS in their homes. Thousands upon thousands of the most particular house-keepers award this great range the proud title of the STANDARD OF AMERICA. They know that this range cooks better and quicker with so much less fuel and labor than others. Some may know why, and some may not, but the reason is here for you to see. It lies in the manner of construction and the material used. Malleable iron and steel plates riveted together, with asbestos throughout for protection, make the perfect range.
