## SOME INTERESTING FACTS ABOUT ANY TOWN

Are you mentioned in one of these paragraphs?  
Every town has one store where the loafers congregate to regulate the universe.  
Every town has a postoffice and a lot of folks who call for mail every day and don't get any.  
Every town has a horrible example. He gets drunk, won't work, but his wife supports him and loves him with a dog-like fidelity no decent man can ever hope to receive.  
Every town has its own skindint who discounts notes, buys up land, dresses like a tramp and won't get his wife a stove.  
Every town has a bad boy that all parents hold in horror and all boys love.  
Every town has its champion liar who lies for practise when he can't find anything else to lie about.  
Every town has its vicious tongued woman who makes trouble as the sparks fly upward.  
Every town has its village atheist.  
Every town has its arguer who will challenge any statement you may make and prove it's not so.  
Every town has its loud mouth citizen who can't talk without making a noise like a megaphone.  
Every town has its leading citizen who heads every committee and always has a seat on the platform when there is anything going on.  
Every town has its nice, speak-easy creature, who tries to be popular with everybody and whom nobody likes.  
Every town has its grouch-face, who is unfailing confident that the worst is yet to come.  
Every town has its good women that everybody likes, and its honest man whose word is as good as his bond.  
Every town has its group of men who knows that the town is morally the worst in the state.  
Every town has a man who never wears a collar and a dude who pastes down his hair and sports a pink striped shirt.  
Every town caries its own peculiar type of religious crank.  
Every town has its own particular brand of big fool.  
Every town has men that know all about the European war and the government at Washington, but don't know how to make a dollar a day.  
Every town has men and women who hate the place and are always wishing they had lived somewhere else.  
In other words, every town is as chock full of human nature as is every other town.
