sudden checking of the unconscious perspiration by exposure to a change of temperature. Colds whether taking the form of Coryza with sneezing, running nose, and perhaps sore throat, or with chilly and feverish symptoms, should never be neglected in the earliest stages. Serious illness often results from such

neglect.

It is well to get early to bed, to get the body well warmed, and most portant to have the bowels move freely. There is no safer or better remedy to use at the beginning of a cold than "L. F.
