

SHIPYARD'S FIRST WOMAN EMPLOYEE TO SPONSOR SHIP

Miss Margaret Sellers, of Wilmington, the first woman employed by the North Carolina Shipbuilding company, has been selected to christen the S. S. White Falcon, 150th vessel to see completion here, when it goes down the ways at 11 o'clock Wednesday morning.

In announcing the appointment of Miss Sellers for the honor, officials of the company said Tuesday that she established an exceptionally good attendance and efficiency record since entering the yard.

Her attendants will be Mrs. L. V. Swann and Miss Dorothy Forbes, both of Wilmington.

The S. S. White Falcon is the 14th C-2 type ship to be built by the company and is named for a famous American clipper ship. The original White Falcon, built at Pittston, Me., in 1853, was owned by M. O. Roberts of New York and was engaged in trade principally with China and the west coast of Central America and the east coast of South America.

During the winter of 1856-1857, in company with the Great Republic, queen of clippers and other fine American ships, she was under charter to the French government carrying stores from Marseilles to the Crimea.

Early in 1862 she was reported as ashore at Foo Chow, being floated with the loss of a portion of her keel. She was docked and repaired at Hong Kong, later proceeding to Manila. She sailed thence March 2nd and arrived at New York on June 20th.

Shortly after her arrival at New York, on this passage, the Falcon was seized by the government on account of her ownership then being with Southerners. On Aug. 12, 1862 she was sold by order of the Prize commissioners for \$21,000 to Boston parties. Under command of Captain William L. Merry she left New York October 10, 1862 with 1,400 tons of coal to be distributed at San Juan del Sur to the steamer Commodore Vanderbilt's Nicaragua Line.

After her cargo was distributed, the Falcon returned in ballast to San Francisco, arriving Jan. 3, 1864, in 21 days from Acapulco. She was soon after sold for \$28,000.

000 gold to Canavero & Co., of Lima, N. Larco of San Francisco becoming her agent. She became the Peruvian ship Napoleon Canavero and was used to transport coolies from China to the Chincha Islands guano deposits. On a passage from China to Callao, early in 1866, her coolie passengers became rebellious and were driven below by force of arms, after which the hatches were put on and secured. The coolies rather than be suffocated, set fire to the ship and the crew finding the flames could not extinguish the flames left in the boats without opening the hatches, thus leaving the 650 unfortunates below to perish. The crew was later picked up by a passing ship.

DAVIS WILL FLY WAR BOND FLAG

CAMP DAVIS, Mar. 7.—(Special) The Minute Man flag will soon take its place under Old Glory on the flagstaff of the Camp Davis parade ground as a result of the showing this camp made in the Fourth War Loan drive.

With an increase of \$278,000 over the Third War Loan drive, both military and civilian personnel here bought a total of \$778,388 worth of bonds during the drive which ended February 29, according to a report made by Capt. L. B. Wantuck, War Bond Officer. This is an increase of 55.6 per cent over the amount purchased in the Third War Loan drive.

During the drive, Camp Davis soldiers bought \$271,113.25 worth of bonds, and civilian employees bought \$507,275.10 in bonds. Military payroll deductions were \$215,020.61 and civilian personnel deductions \$62,917.67. These figures show an increase of \$20,000 monthly in military personnel payroll deductions and \$6,343 monthly in civilian payroll deductions.

The above figures have no connection with the \$870,000 worth of bonds sold at various rallies in neighboring cities and towns in which Camp Davis soldiers participated and in some cases conducted.

Approximately 996 new allotments were taken out by military personnel and 250 new and increased allotments were taken out by civilian personnel.

On the final date of the drive 1,849 of the 1,974 civilian employees on this post were subscribing for bonds by payroll deduction, resulting in 93.67 per cent subscribing and 10.5 per cent of the total payroll being deducted.

The top-ranking civilian departments with the highest payroll deductions were the following who had a 100 per cent record: Adjutant General, Post Exchange, Transportation, Camp Property Engineer, Finance, and the AA School. Close runner-up was the Quartermaster department with a percentage of 93.7.

Plans to continue the War Bond rating of the camp and to assist in future bond drives are now being made. These plans include the War Bond Council and acts to show appreciation for civilian participation.

ACTRESS TO GET DIVORCE

NEW YORK, March 7.—(AP)—Myrna Loy, screen star, will divorce her wealthy businessman husband, John D. Hertz, Jr., "shortly," Metro-Goldwyn-Mayer publicity department announced today. A joint statement by the couple said they had separated amicably. MGM said, adding that Miss Loy would return to Hollywood immediately to make another picture in the "Thin Man" series.

DESERT VICTORIES SHOWN TO J-CEES

Members of the Junior Chamber of Commerce met last night in the banquet hall of the Friendly Cafeteria for their regular weekly meeting, at which time a motion picture entitled "Desert Victories" was shown through the courtesy of the public relations office at Camp Davis.

The picture was produced by 20th Century Fox, and was the story of the British Eighth Army's victories against the Germans in Egypt.

The film was taken from pictures of the British Eighth and from captured film taken by the Germans themselves.

Desert fighting and modern warfare was the subject of the film. The story began with the plans of General Montgomery to smash through the strong lines of the German troops in the Egyptian desert. His plans included offensive fighting the same as that of a huge crowd, breaking through the solid wall of defense and working for complete victory.

The picture ended with the victorious British troops passing in review before Winston Churchill—mission accomplished.

MARINES CONTINUE DRIVE ON RABAU

(Continued from Page One) command is finding it difficult to maintain its fleet at Truk and already may have withdrawn it to first line units from that vaunted Central Pacific fortress, Admiral Chester V. Nimitz said in Washington yesterday.

"We are going in" to Truk, said Rear Admiral Edward L. Cochran, chief of the bureau of ships. He told a House appropriations committee that the United States Navy planned to establish facilities there "by the first of January, 1945."

Guardians Bombed

Ponape and Kusaie, eastern guardians of Truk, were bombed by Army Liberators Sunday. Pacific fleet headquarters announced. Heavy explosions were set off in the supply dump of Ponape airfield. Navy Liberators hit Nauru, 500 air miles southeast of Kusaie.

Army and Navy search planes joined in attacking four bypassed atolls in the eastern Marshalls. They were not named but undoubtedly they were Wotje, Maloelap, Mili and Jaluit, which lie in a semi-circle around Majuro island.

Secretary of Navy Knox said the American Navy has 900 combatant ships and "this doesn't include any small stuff."

British efforts in the Orient so far have been confined largely to Burma, where American troops now have taken over the spotlight. United States jungle troops fanned out from captured Walawbum in northern Burma to close the pincers on 2,000 trapped Japanese. American-trained Chinese advanced from the opposite direction. Some suicide enemy units in Walawbum are being wiped out.

GREAT VARIETY OF CHARGES FLY

(Continued from Page One) drama unfolds," Miller told the House, "you will find moving mostly behind the scenes the significant name of Thomas J. Corcoran, once an aide to Mr. Roosevelt. It will be shown later on that Mr. Noble employed the former chief counsel of the FCC (William J. Dempsey) at the suggestion of Mr. Corcoran and that Mr. Corcoran was in the picture to the point where he may have shared in a fee estimated to run as high as \$50,000."

No Subversive Tinge Chairman Fly of the Federal Communications commission said today that Pearl Harbor authorities, distrusting the Japanese many months before they attacked, kept a close check on Japanese-language broadcasts from Hawaiian stations but found no subversive tinge.

The question of whether Japanese-language programs might endanger the area came up "early in 1941." Fly told the House committee investigating broad charges against the conduct of the FCC. Fly filed a flat denial of all the charges, including one that he blocked the armed forces request to take over from the FCC control of foreign broadcast intelligence.

He said the Army, Navy and Federal Bureau of Investigation had in fact, commended the cooperation they got from the FCC and had entrusted his agency with sole responsibility for running down any enemy radio transmitters in Hawaii. None was found.

SOVIETS OVER-RUN 200 MORE LOCALITIES

(Continued from Page One) two German headquarters were routed and several railway stations and 400 trucks were captured.

The late bulletin said the Germans were bringing heavy air reinforcements to the north where the Red army was battling to enlarge its Narova river bridgehead in Estonia. Fifty-five German planes were declared brought down during the day while 500 Germans were killed in the land fighting. The Russians said they captured several strongpoints and beat back ten counter-attacks in one sector.

"Our troops were firmly entrenched in newly occupied positions which are of considerable importance," the communique said.

In the south the Germans were also counter-attacking with large forces of tanks and infantry but were beaten back "with heavy losses in manpower and equipment."

PURIM FESTIVAL TO BE CELEBRATED

The Festival of Purim will be celebrated in Synagogues and Jewish homes this week with special interest because the villain of the piece, Haman of Persia, bears a strange resemblance to Hitler of Germany. Jews throughout the world will utter a prayer for the success of the Allied forces and for the repetition of the age-old miracle, the providential deliverance of civilization from the rising tide of barbarism.

In the Book of Esther, which will be read in the Synagogues on the eve of Purim, March 8 and on the morning of March 9, it is recorded that Haman, the Prime Minister of Persia, planned the universal destruction of the Jews and, what is more to the point, the confiscation by him of their possessions. Haman's classic accusation, "There is a people in the kingdom, and their laws are different; neither keep they the king's laws; therefore it is profitable not to the king to suffer them," has served every exponent of intolerance. The triumph of democracy, implying the right to difference of opinion is the key note of the modern celebration.

A Megillah Night Service, beginning at 7 p. m. Wednesday in the Temple of Israel, will usher in the festival of Purim. Special music will be rendered by the choir.
