

10 POLIO CASES ADDED TO LIST

RALEIGH, June 30.—(AP)—Ten new cases of infantile paralysis were reported today by the State Board of Health, bringing to 126 the number reported during June, and at the same time drastic steps were being taken in infected areas to curb the disease.

The Mecklenburg county Health board ordered all children under 15 years of age to remain off the public roads and streets, ordered all Sunday schools to be closed to children aged 15 and under, and applied the same order to all swimming pools and amusement places.

The action was taken unanimously by the board and followed a report of a third case of polio in the county. The order will be enforced by the police.

With exception of two cases, all cases reported today were in counties already infected, centering in the Piedmont and upper Piedmont sections. New cases were reported in Person and Buncombe counties, with the Buncombe case being described as "a contact of a Wilkes case."

Alexander 4, Ashe 8, Burke 15, Cabarrus 3, Caldwell 11, Catawba 40, Gaston 16, Iredell 1, Lee 1, Lincoln 5, Rowan 8, Stanley 2, Union 1, Watauga 2, Wilkes 4, Wilson 1, Alamance 1, Buncombe 1 (contact of Wilkes), Guilford 1, and Person 1.

Five deaths in the current outbreak have been recorded. A number of "suspected" cases are under observation in the immediately infected areas and in other counties outside the Piedmont.

Governor Broughton, meanwhile, pledged his help in curbing the disease and approved the use of three school buses in Catawba county to be used in transporting nurses within the county. Further steps will be taken to provide transportation of health officials when needed, he said.

In Gastonia, Dr. Ralph McDonald, Chairman of the North Carolina division of the National Federation for Combating Infantile Paralysis, announced an emergency program to combat the disease.

Dr. McDonald designated three emergency centers for treating the disease; they are: North Carolina Orthopedic hospital in Gastonia, the Emergency hospital established at Hickory, and Charlotte Memorial hospital.

A state emergency fund is being created, he said, to meet the situation. Money for this fund will come from local chapters of the federation in most of the state's 100 counties.

C. H. Crabtree, state field representative of the federation, was in Gastonia with Dr. McDonald. They plan to visit all three emergency centers to complete plans for checking the epidemic.

Dr. Carl V. Reynolds, state health officer, said here that the outbreak of abnormal infection was being stabilized in the Piedmont and upper Piedmont areas. Western and Eastern North Carolina are free of abnormal infection, he said.

He recalled that during the epidemic of 1935, when 675 cases were reported during the year, their western part of the state was heavily infected "and suffered the consequent epidemic during the year, the western section is not in the current epidemic and should not be penalized by erroneous references, or terminology."

The public may rest assured," Dr. Reynolds said, "that it will be kept fully and frankly advised of the sections in which the disease occurs. However, at present the abnormal occurrence of cases has been kept confined to certain Piedmont counties, and it is hoped that it will not spread beyond that area."

ABC AUTHORIZES RATION INCREASE

The New Hanover Alcoholic Beverage Control board yesterday was authorized to sell one-fifth of Rocking Chair whiskey each on coupons No. 31 and 32 at anytime in July, making an additional one-fifth available to imbibers next month. The authorization, it is understood, applies to all ABC boards in the state.

The sale of an additional one-fifth of the brand in July was ordered by the Association of County ABC boards after a meeting yesterday in which it was the "consensus of opinion that present stocks of Rocking Chair would justify additional allotment of these goods in July."

In a previous order to the local ABC board, it had been authorized to sell one-fifth of Rocking Chair on coupons No. 31 and 32.

Now coupons Nos. 29, 30, 31 and 32 will be valid for three fifths of Rocking Chair at any time during July, or Nos. 29 and 30 may be used to purchase one quart, or two pints, or one-fifth, or two tenths of domestic whiskey or Scotch, and Nos. 31 and 32 may buy one-fifth of Rocking Chair each.

Effective tomorrow, all imported brandy, cordials, rum and Tequila will be ration free and may be purchased without the presentation of ration coupons.

W. D. MacMillan, chairman of the ABC board, today asserted "we will have plenty of Rocking Chair to serve all ration coupons. We have a large stock of other whiskeys at this time, but it will probably be used up as soon as the new coupons become valid tomorrow."

V. O'Callahan, Southern Pines, third vice president; W. H. Hunt, of Durham, secretary-treasurer, and R. M. Kermon of Wilmington, executive secretary and attorney.

Directors appointed by Brashford are: C. C. Davis of Wilmington, chairman; J. E. Gant of Albemarle, F. D. Nunnemaker of Durham, E. B. Grady of Concord, W. H. Sullivan of Greensboro, J. W. Thurman of Rocky Mount, B. G. Moser of Asheville, H. L. Hopkins of Charlotte, A. Z. Price of Charlotte, L. H. Bramble of Fayetteville, W. J. Sullivan of Lumberton, E. E. Darnell of Gastonia, R. B. Thomason of Lexington, T. L. Blow of Goldsboro, L. W. Nash of Graham, J. W. Warr of Hamlet, George A. Moore of Wilmington, R. V. Fisk of Charlotte, L. R. Wensil of Concord, John Bagwell of Durham, R. E. Deans of Wilson, Frank C. Ruth of Raleigh, and M. W. Herrin of Albemarle. Also appointed by President Brashford were members of the executive committee: F. B. Nunnemaker, C. C. Davis, E. B. Grady and H. L. Hopkins.

The principal address of the evening was given by F. D. Landreth, president of the National Association of Master Plumbers, who spoke of the postwar building opportunities in Wilmington and North Carolina. Landreth also began yesterday morning's program with an address in which he predicted a great postwar building boom, saying that over a million and a half homes will be built each year for the next ten years following the end of the war.

Presentation of Landreth was made by E. G. Harris of Richmond, Va., national director. Introduction of Harris was made by John R. Bagwell of Durham.

The entire morning portion of yesterday's program was spent in a closed business meeting, called to order by President C. C. Davis of Wilmington, who told of planned postwar improvements in the home, such as modernization of bathrooms by the replacement of outmoded and outworn fixtures, the installation of additional bathrooms and first floor wash rooms, kitchen rehabilitation, and the replacement of outworn heating plants by new automatically fired hot water or steam heating systems.

After reports of committees and officers, the ladies at the convention were treated to a boat ride up the inland waterway.

Landreth began by paying homage to those who left the association for war conflict and to ask care be paid to individuals returning from the battlefronts.

"Whether or not the soldier was employed by a contractor, if he was a plumbing and heating man and served in the armed forces, he should be given preference in procuring a position."

The leader further pointed out the important role the plumbing and heating industry plays in national defense through their cooperation and effort in the national program of building camps and ships and its successful fulfillment of these tasks.

Landreth stressed cooperation between city officials and local and state boards of health and pointed out the importance of plumbing contractors by bringing to attention to the various bodies harmony which is necessary for proper functioning of the groups. He stated that from experience he found throughout cities that one health department functions with more benefits than more than one body.

In reviewing work during the past 34 years of the State Association H. S. Ritchie, of Albemarle, showed the way plumbing and heating contractors have been responsible for plumbing codes now effective throughout the State by which inspections are made of all plumbing. He advocated strengthening of regulations regarding typhoid fever and other water-borne diseases caused primarily in drinking water systems.
