

JOIN IN ZOA's NEW PROGRAM TO HELP BUILD THE JEWISH STATE

STRIKING back at a whispering campaign that American Jewry's duty to Zionism and the Jewish National Home has been discharged as a result of the U. N. General Assembly decision to set up a Jewish state in Palestine, the Zionist Organization of America, headed by Dr. Emanuel Neumann, announced its post-U. N. program.

THE political aims of the Zionist movement cannot be considered to have been achieved before there shall have been established in Palestine a Jewish state enjoying legal and physical security and recognition within the family of nations and until large-scale emigration of Jews into Palestine and their resettlement shall have been accomplished.

ZOA now seeks to enlarge and enhance its organization in order to do all in its power to facilitate Jewish immigration and colonization in Palestine.

ZOA seeks implementation of the U. N. Resolution on Palestine for the organization of a Jewish state having the greatest measure of political stability and economic security.

ZOA will encourage American businessmen to finance or establish essential industries in Palestine.

ZOA will present the opportunities for a maximum degree of participation by American youth of qualified training and experience in the upbuilding of Palestine.

ZOA will take appropriate steps, in consultation with existing fund-raising agencies, to make available a special and adequate fund in the next sixty days for the defense and security of Jewish Palestine.

ZOA calls upon the U. N. to prevail upon Arab governmental and other leaders whose actions are in defiance of the decision of the assembly to desist from creating and causing conditions constituting a threat to the peace.

ZOA assures the Arab inhabitants of Palestine that the Jewish state will live in accordance with the verse of the Bible inscribed upon the American Liberty Bell ("Proclaim liberty throughout the land, to all the inhabitants thereof.") It is a foremost purpose of the Jewish people to establish and preserve peace and friendship with the neighboring nations of Palestine and the Arab people.

"We are not so naive as to confuse a political decision with concrete reality."—Dr. Emanuel Neuman, President of ZOA.
