IT IS the best Sewing Machine ever of-fered to the public. It home and fells, braids, cords, tucks, marks and embroiders with such elegance and ease, that the finest needle work would look mean in comparison. It is the only Machine ever invented that embroiders with the Lock Stitch, and that embroiders with the Lock Stitch, and on account of its adjustable fort, has greater range of work than any other. It is used almost exclusively by all the Lody Milliners and in all the Convents of New Orseleans and it has the greatest circulation of any Machine in the world. The sale of this Machine now equals that of all others put together, and I warrant every Machine is ell to give satisfaction, and after a fair trial to return the money if it does not do so.
