EDUCATORS BLAST BOARD OF EXAMINERS ALLOCATION TO SCHOOL BUILDING FUND

Helena (U.P.)—Action by the State Board of Examiners in upholding its previous allocation of \$1,200,000 of the \$5,000,000 university building fund to Northern Montana College at Havre has been the target of broadside attack by the heads of two university units, while Northern President calls the News "thrilling."

President James A. McCain of Montana State University at Missoula, where several hundred thousand dollars were sliced off recommendations proposed by the Board of Education and Chancellor Geo. A. Selke, blasted the board's action as a violation of the "principles of non-partisan administration and control so indispensable to freedom and integrity of higher education."

In Bozeman, Montana State College president, R. R. Renne, whose institution also saw an appreciable cut in allocation in order to pigeon hole more than twice the money recommended for the Havre school, says: "This is a very serious blow to Montana's standing in higher education."

Meanwhile, Dr. G. H. Bogart President of the Havre school, calls the action "thrilling news to everyone who believes in educational opportunities for our young people and in the development of this northern area of the state."

Questions and Answers On G. I. Insurance Dividend

Beginning soon after the first of the year the Veterans Administration will pay out \$2,800,000,000 in dividends to some sixteen million veterans of World War II who took out National Service Life Insurance policies. The following questions and answers are designed to help eligible veterans in applying for the dividend:

1.—Q. Who is eligible for a dividend check? A.—Any veteran who took out National Service Life Insurance before January 1, 1949, and kept it in for three months or more.

2.—When do dividend payments begin? A. Dividend payments will begin during January, 1950, and be "substantially completed" during the first half of 1950.

3.—Q. What will be the amount of my dividend? A. Amounts will vary depending on the length of time you paid on the policy, the amount you paid and other factors. It is not possible at this time to give an estimate of the amounts to be paid.

4.—Q. How do I apply for the dividend? A. Application blanks in Libby at the postoffice only.

5.—Q. I do not know my insurance number. Shall I write the VA for it so that I may enter it on the application? A. No. Do not write the VA in connection with the application. If you do not know your insurance number leave that part of the form blank.

6.—Q. I used a different name in the service than I do now. Which

name shall I use on the application blank. A. Unless you have notified the VA of the change, use the exact name and spelling that you used in the service. This is important because your policy records are under that name. Use it again when making application for the dividend.

7.—Q. If my name is entered on the application in line 1, why do I have to enter it again in line 9? A. In line 1 your name should be typed or printed. In line 9 you should write it in long hand just as you sign a check.

8.—Q. I have two insurance policies. Shall I fill out two forms? A. No. One form is all that is required. If you know them, however, enter all your policy numbers in line 7.

9.—Q. Will a letter serve the same purpose as an application form? A. No. The application blanks are designed so that they can be quickly and accurately processed in Washington. Plenty of application blanks are available and it is to your advantage to use one in applying for the dividend.

10.—Q. I am not certain that I will be at my present address next year. Shall I notify the VA if I change my address. A. No. To the best of your ability, use an address at which mail will reach you for the next six months. Notify your

postmaster of any address change. Do not write the VA.

11.—Q. Is the form simple enough so that I can fill it out at the postoffice and mail it immediately? A. It is a simple form. The VA advises, however, that you take it home where you can fill it out carefully and legibly and where you probably have papers with your policy and serial numbers. Don't guess! The information you give must be exact and it must be readable if your application is to be handled efficiently.

12.—Q. Must I keep any records of my application?

A. Yes. When you receive from the VA the acknowledgment portion of the form, keep it until you

receive your check. The form returned to you will contain your dividend application number. This number identifies your dividend case and is important until the case is closed by your receipt of your check. It does not refer to any other claim you may have with the VA.

13.—Q. If I do not receive my check by January 15, 1950, what shall I do? A. Delay action until you are informed through the newspapers that you should follow up your application by letter. Above all, the VA advises, do not check during the early months of 1950. Any letter writing will only delay the job of computing and making payment.
