

**LEWISTON.**  
This coming metropolis is located in the sheltered valley of Snake river, at the head waters of navigation. It is the natural outlet to the land-locked empire behind it. The country tributary contains empires.

**FRUIT.**  
Lewiston lies at the center of the great fruit growing regions. Thousands of tons of fruit are now ripening in this sunny climate. The fertile valleys of the Clearwater and the Snake can be easily irrigated and produce abundantly.

**MINERALS**  
Are found in the camps of Salmon river, Ori Fina, Elk City, Pierce City, Florence and Warrens. The richest unexplored mineral regions in the west lie tributary to this point. Their supplies are furnished by our merchants. Their ore is shipped from here.

**TIMBER.**  
The Clearwater reaches back into the great timber regions of the Bitter Root Range. Millions of feet of the finest timber known can be floated here at slight cost. Lewiston is the only market for this vast timber region.

Two railroads are now in process of construction. Hundreds of men are employed. A plant for a Water and Light company costing \$50,000 will be erected this season.
