CUT RATES

Special Cheap Tariff In
Effect In Summer

The lowest through rate ever made on commodities over the W. P. & Y. R. will be in effect next summer from July 1 to August 15. On oats, feed, hay and some other staples the through rate from Puget Sound points to Dawson will be \$2.50 per ton less between those dates than it was last summer, and \$7.10 per ton cheaper than it will be before July 1, or after August 15. These figures apply to carload lots.

This reduction in rate for that particular time is made to induce shippers to get their stock in those particular lines in early and thus to avoid the blockade that has hitherto preceded the last few weeks of river navigation.

The new tariff sheets have not yet been issued but a letter containing the foregoing information have been received by the W. P. & Y. traffic office. It is stated that the different members of the association of transportation companies engaged in Alaskan and Yukon traffic had little difficulty in coming to an amicable arrangement for the ensuing season.

The rates to Atlin from Puget Sound and from Skagway will remain this year about the same as they were last year. That also applies to rates from Skagway to Whitehorse.
