REMEDY IN AMERICAN HANDS

A just and equitable reciprocal tariff reaty between the United States and Canada would once and for all sett'e the Chamberlain imperial tariff policy in Great Britain. A commercial Brit ish empire would be impossible without Canada as an important factor, Of all the British colonial possessions, this great American country only is capa-ble of furnishing the breadstuffs for the millions of Great Britain. If Canada should offer Great Britain nothing i return for a better price for her agri cultural products there would be no purpose in Great Britain's increasing the cost of the products of the soil to the British consumers.

On the other hand, if the Unite States shall not take the necessary steps toward making trade freer be tween them and Canada, Chamberlain Greater Britain is one of the inevitable things of the future. The Unite States have shut the British producer out of American markets and they are crowding them out of all free trad-On the other hand, the Americans have free access to the mat kets of Great Britain. It is natura that the greatest statesman in Englan should seek to put a stop to this situation. It is not strange that Chamber lain should desire to exchange the Frii ish market for a market for the Britis instead of presenting it to the Unite States for nothing. The logical se quence of this situation would be fo Canada, which is shut out of the United States, to offer her markets freely t on the other side of the Atlantic for he

The Germans are foreign their tariff against the United State higher and higher. Not in Russia. The Slavs are becoming tired of baying fact, a war against the American producer requires only English action

If American statesmunship mit Chamberlain's commercial empire to materialize the business interest and the producing masses of this courtry will regret it until the end of time

In less than eight weeks the people of the United States will vote for presi dent and vice president of the United States, yet according to the newspapers se persons arriving from the states, there is scarcely no excitem or enthusiasm in the campaign. It is expected that there will be some en thusiasm and some warm politics before the voting day shall have arrived, by local issues are depended upon to creat the enthusiasm. The hot fighting wi be because of the contests for count sheriffs, members of congress and stat governors rather than on account the national election. The nation and the congressional committees both parties are complaining loude and louder because of their inability t get the people interested in political

With the advent of ex-Judge and ex-Mayor Thomas J. Humes, of Seattle in Alaska comes a new political force in this district. The "Mark Twaln" Seattle will not be a passive spectator the workings of society, political conterwise, no matter what community he might call home. Along about that time my kidneys commenced to bother me. There was not as much backache but the principal symptoms were in connection with the kidney secretion. A strate or every exertion very often caused hemorrhages of the kidneys. I cannot say that it was very summitted but it was very amousting. Herpleide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWHRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes," Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandrif, itching goalp, and falling halr, this is the microbe that NEWHRO'S HERPICIDE promptly destroys; after which the CIDE promptly destroys; after which the hair graws. Sold by leading druggists Send 10c. in stamps for sample to The Send 10c. in stamps for sample to The Herpleide Co., Detroit, Mich.
