REFORM IN KANSAS

Missouri, Wisconsin, Michigan and Washington have not a monopoly on reform state campaigns this year. The contest in Kansas has involved issues as great as the contests in the other states, but it has not attracted so much attenattention because it was fought out and won in the republican primaries. Edward H. Hoch, the reform candidate for governor of the Sunflower state, was as good as elected when he received the republican nomination last spring. Mr. Hoch is an ideal reform candidate. For half a lifetime he has been the editor and proprietor of the Marion Record, a paper upon which one of the publishers of the Daily Alaskan was once employed. During that time he and his paper, always honest, always clean, always able, have never failed in standing for good government and the right. Mr. Hoch is a staunch republican and has ever been such, but he has never admitted that party loyalty demanded that he accept ring dictation, and he has as fearlessly fought to keep his party pure as he has combatted for cleanliness and decency in the community in which he lives. He is one of those men who distinguish clearly between right and wrong and he has never hesitated a minute as to the side on which to battle. To those who know him, it is not strange that when the republican masses of Kansas desired a man around whom to rally in their fight to dethrone a corrupt ring they turned to Edward H. Hoch, the next governor of the state, or that the selection was unanimous.

There is no doubt but that the liberals will win the Canadian election which will take place in less than two weeks. Everywhere in the Dominion there is satisfaction with the administration of Sir Wilfrid Laurier. It is recognized that Canada ranks among the countries of the world and that this is due in no small degree to the statesmanship of the great premier who is now asking for an endorsement at the hands of the people for whom he has labored so faithfully and with such signal ability.

That balance to the credit of the treasury of Fairbanks indicates a capacity for self-government on the part of those who make up the population of the largest city in Alaska.

Minneapolis is having as hard a time to get Ex-Mayor Ames in the pen as Missouri is having with Ed. Butler.

Steamboatmen in the north are now retiring in favor of the horse teamster and the dog musher.

How to Cure Corns and Bruises

First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequaled. For sale by Kelly Drug Co.

Cures Winter Cough

J. E. Grover, 101 N. Main St., Ottawa, Kan., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got for her a bottle of Horehound Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, two or three dozes stops the cough, and she is able to be up and well." 25c, 50c, $1.00. Sold by Kelly Drug Co.
