THE RAILROAD CONTRACT AND MISREPRESENTATIONS.

The San Francisco *Chronicle* is the prince of mendacious journals. The lusty lying it does really excites admiration. Referring to the interest payments on Central Pacific Railroad bonds guaranteed by the State of California, it coolly declares that the railroad company has not complied with the conditions of its contract, and with a deviltry of adroitness that is something stupendous, it so states the case as to leave the impression upon the reader's mind that with the expiration of the interest payments by the State in 1884, the obligations of the railroad company to the State also cease. That this was a purposeful misrepresentation, is undeniable for three reasons: First, that the *Chronicle* had the law before it, written plainly upon the pages of the statutes; secondly, the law has recently had judicial interpretation, of which the *Chronicle* was aware; and lastly, because the State has always claimed, and it has never been denied, that the contract, so far as the obligations of the company are concerned, is continuing; that is, they run coequal with the existence of the corporation.

The matter is a very simple one, and not at all involved, the law reading with perfect clearness. In 1864 the State, by Act of the Legislature approved April 4th, agreed with the Central Pacific Railroad Company to guarantee the payment of interest on $1,500,000 of railroad bonds for the period of twenty years. On its part the railroad company agreed to transport and convey over its road whenever required all public messengers, convicts going to the State Prison, lunatics going to the asylum, materials for the construction of the State Capitol building, articles intended for public exhibition at the fairs of the State Agricultural Society, men and materials in times of war, invasion or insurrection, and at all other times, troops and munitions of war belonging to the State, without any compensation and free of charge. Also to go on and build the railroad in sections of at least twenty miles per year, and equip it. Also to release to the State all claim to warrants provided to be issued by a former Act in aid of the road. Also to deed within ninety days after receipt of a patent therefor certain granite lands in Placer county. If the company fails in any of these obligations, the State has, under the Act, the right to recover back from the company the whole amount paid by the State under the Act.

Now that is the whole of the matter. Yet in the face of this law and of the facts known to all the people the *Chronicle* has the unblushing effrontery to say that the conditions of the contract were "that the railway company should carry free of charge all the granite blocks necessary to build the State Capitol building at Sacramento, and a discount of *half freight charges on all goods* going to or coming from the State Agricultural Fair, and free transportation of all persons taken by rail to the lunatic asylum and to the State Prison."

The italics are ours to specially point out the mendacity of the *Chronicle*. It adds that the railroad company secured practical exemption from the contract as to carrying building material, and "for the rest they have not complied with the contract." This patent and blatant falsification (for the contract has been kept or else the railroad managers have deliberately thrown away $2,000,000 for a song) will be especially surprising to all exhibitors who have ever had goods conveyed to the State Fair, and who know that the company named always has carried them free coming and going over the road and over lines not included in the contract. The obligation of the State has ceased, the obligation of the railroad company remains, says a Court of the State, and if, as the *Chronicle* alleges, the company has, to use the words of the law, "refused to do and perform the said conditions and the said agreement on their part, the said company shall be liable to repay to the State the amount which shall have been paid by the State under this Act;" if it has, as is falsely charged avoided its contract, the company has done that by which the State is gainer in a large sum, since it has had the free service for twenty years, and may now recover back all the interest money paid under the guarantee.

Yet out of such timber as this are anti-railroad assaults constructed, and on such thin substructures as this do the *Chronicle's* misrepresentations rest. We confess that the weakness and transparency of the *Chronicle's* assault in this matter upon a railway company of the State does not reflect credit upon journalistic acumen.

In this connection it is to be noted that even our staid and generally thoughtful contemporary, the San Francisco *Bulletin*, in speaking upon this subject, remarks that the consideration for the guarantee by the State was the conveyance of criminals and insane, thus leaving, but very evidently without intention, the unjust impression that those services comprised the whole consideration, and wholly ignoring the continuing character of the contract, the essential features of transportation of troops, military goods and exhibits for State Fairs.

THE DAY.

The chief distinguishing feature in the observance of this day should be sincerity of patriotic expression. Whatever the outward manifestations of joy; whatever the forms of celebration, the one thing incumbent upon the adult is to seriously impress the youth under his influence with the meaning of the day. There is no sincere lover of his country who cannot gain a thoughtful and interested auditor in the person of a child upon the topic of the republic. We may teach the youth in few words that there is a reason for "celebrating," and that it is a deep and weighty reason. It is possible and easy to plant patriotic seed in the youthful mind to-day that will come to a ripe fruitage at the very time when the nation shall most need to make the harvest. The disposition to sneer at the old-time celebrations of the Fourth of July, to tip-tilt the nose at the glowing periods of Fourth of July orators, is one to be frowned upon and resented by all good citizens. The man who sneers at manifestations of patriotic attachment to one's country is of the stuff of which traitors are made. Let us to-day teach the generation at our knee that theirs is the best country under the sun; theirs the brightest inheritance of any; theirs the most fortunate of lots among men. Let us impress upon them that admiration for the patriotic, devotion to the principles of human liberty, unfaltering adhesion to a republican form of government, are duties to be measured by the profoundest sacrifices, if need be, even to the laying down of life for the salvation of the nation, the preservation of the Union of sovereign States, and the defense of the right of self-government.

A MANLY PROTEST.

The Dallas *Herald*, a Democratic journal, enters a vigorous and manly protest against personalities in the pending campaign. It voices the better thought of the country when it expresses the hope that the campaign may be wanting in those fierce elements of abuse that have heretofore been so prominent. We join heartily in this expression. There is, as it well says, food enough for campaign consumption without pandering to the passions. "To put a man in the White House who has been publicly branded by millions as a corrupt, bad man, is to belittle ourselves in the eyes of the foreign world and lessen at home the conception of the dignity and the traditional veneration of the Presidential office. Let us make a new departure. Let us have none of it, for it is as useless as it is reprehensible. No votes were ever changed by such methods and substitutes for argument."

THE *Examiner*, referring to the bolting Independents, says: "They publish boldly to the country that the Republican nominations were made in absolute disregard of the reform sentiment of the nation. They assert that a political trickster heads the ticket, and an ignorant and pretentious bully is his associate." Suppose it is admitted that they do these things—are they proofs? Is the allegation that Mr. Blaine is a political trickster, or General Logan a pretentious bully, sufficient? Does the *Examiner* consider charge to be proof? Is the count that the nominations were made in absolute disregard of the reform sentiment of the nation, to be taken as verity because the bolters say it? Denial should offset the allegation, and leave the burden of proof upon the complainants. The truth is the opposition has done nothing but charge. No proof has been offered, nor can it be. Mr. Blaine is not a trickster, nor is he in any sense arrayed against the reform movements. On the contrary, he was a civil service reformer in its earliest history, and there is not to be pointed out a single instance in which he has resisted reforms for the bettering of the condition of the people or the affairs of the nation. Rather, he has been aggressive in the interest of measures and policies that tend to strengthen the Government at home and abroad, and purify and economize its service. As for General Logan being a bully, if any of the Independents have been so silly as to thus denominate the candidate for Vice-President—which we doubt—we sincerely trust they will continue to repeat it, since no better electioneering work can be done for Logan than to assail him in that way. He is too well known, and too widely respected and esteemed, for such envious shafts to be effective against him—they will rather aid his cause by disclosing the straits to which his enemies are driven.

AS THE Chicago *Tribune* well puts it, Mr. Blaine's American policy is of the kind that proposes by peaceful means, as the *Pall Mall Gazette* admits, to supplant European influence and trade wherever he can on the American continent by the influence and trade of the United States. "It is easy to understand why the English should deplore the successful inauguration of such a policy, and would therefore prefer to see Mr. Blaine defeated. But the very same reason which the English have for opposing his election is the very best reason in the world why the Americans should elect him. England may be the loser by Mr. Blaine's policy, but the United States will be the gainer."

DR. LEHMANN, from Jassy, writes to the *Israelite* that the recent edict in Roumania is a calamity to the Jews of that country such as has not befallen them for hundreds of years. The decree prohibits them following the vocations of peddler, hawker or retail seller of goods. This throws 30,000 Jews out of employment and turns them over to starvation. The Jewish tobacco manufacturers are to be forced to give up their occupation, and all Jewish villagers who have been spirit sellers are to be driven from their homes. Dr. Lippe and Rev. Dr. Trauber, of Jassy, report that the people must have immediate assistance, to be continued until they can adapt themselves to other occupations, or aid to emigrate from so inhospitable a country.

THE Houston *Post* says that one of the peculiar features of Republican politics is hero-worship. If it be admitted, what then? The Democracy has no heroes to venerate. The memory of the great men of its past rises above partisan atmospheres, and the Democracy has not special claim to the luster of their names. But in saying this we are not to be understood as approving the elevation of demi-gods to shelter party from assault.

MR. BLAINE in 1873 spent several days in Sacramento as the guest of General Alfred Redington. At that time a number of our citizens formed his acquaintance, and the magnetism of his presence—the force with which his manner draws men to him—was remarked upon then, as it is now, as something phenomenal.

THERE is every reason to believe that the Cotton Centennial at New Orleans in December will be a complete success. But there is as yet very little to encourage the hope that California will be properly represented at that fair.

PACIFIC SLOPE.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

CALIFORNIA.

Found Dead—Fall of a Painter—First Toy Pistol Accident.

SAN FRANCISCO, July 3d.—A German named Fesenthal, 65 years of age and a widower, was found dead in his room at No. 546 Howard street this morning. He had frequented the stock boards for year. He was about the house in which he resided at 6 o'clock this morning, and an hour later he was discovered kneeling by the side of his bed and dead. Chronic alcoholism is the supposed cause of death.

A painter named William Hoey, while at work on the interior of the Larkin-street entrance to the new City Hall, shortly before noon to-day, fell from his scaffold to the stone floor below, fracturing his left ankle. The injured ankle was set at the Receiving Hospital by the Police Surgeon. Hoey lives at 8½ Willow street.

The first top-pistol accident of the season was recorded at the Receiving Hospital this afternoon, when Louis Esepjo, a youth residing at 1005 Broadway, came in for treatment for a bullet-wound in the second finger of his left hand, caused by the "too-previous" discharge of a weapon with which he was preparing to celebrate.

Narrow Escape from Death.

SAN FRANCISCO, July 3d.—Shortly after 9 o'clock this morning a youth about sixteen years of age, named Gumpets, who serves notices for the Pacific Mail Steamship Company, was riding a horse along Kearny street, when the animal slipped and fell. The rider was thrown out of the saddle. Before he could release one of his feet from the stirrup the horse regained an upright position and started on a run, dragging the youth over the wet cobbles to the horror of those who witnessed the accident. At this juncture a man sprang from the sidewalk and seizing the frightened animal by the bridle-rein held him fast until the foot of the unfortunate rider was released from the stirrup. The wounded youth was in a fainting condition, but willing hands carried him to a neighboring drug store, where it was ascertained that no bones were broken, but he was badly bruised. A gentleman who witnessed the circumstance, and who knew the lad, kindly offered to convey him home in his buggy.

Explosion at Nevada.

NEVADA, July 3d.—About 3 o'clock this morning an explosion occurred in a room in the lower part of the Thomas boarding-house, caused by some person placing therein a stick of giant powder with malicious intent. The explosion shattered the door and broke the windows in that part of the building, but luckily did but little other damage. A hole was torn through the floor about a foot long and eight inches wide. The room in which the explosion happened was formerly occepied by R. M. Wilkins as a depot for sewing machines, he being the agent for the Singer Company. It is supposed that the explosive was put there by some one having a grudge against him, as a card containing a scurrilous charge against him and a fellow named John Morrison was found on the premises. Fortunately Wilkins had moved to another building several days ago. No clue has been obtained to the guilty party.

Santa Rosa Island Homicide.

SAN BUENAVENTURA, July 3d.—A. P. More, of Oakland, shot and killed a Chinaman at Santa Rosa Island Sunday. The Chinaman had been in his employ on the island for nearly a year and a half and wanted to come home. More refused, and struck the Chinaman twice, when the latter drew a knife to defend himself. More then shot him, the ball entering his brain. In the preliminary examination at Santa Barbara, More was held in $15,000 bail. Much indignation is expressed against More, who is greatly disliked for his overbearing disposition, and who is believed to have been in the fault. The Six Companies have signified their intention to prosecute More to the full extent of the law.

Sentenced for Forgery.

NAPA, July 3d.—Charles Hoeft was sentenced this morning to eighteen months in the State Prison, for forging an order for the delivery of goods.

Suicide by Shooting.

SAN JOSE, July 3d.—Frank McKenna, a native of Ireland, aged 50 years of age, and the driver of a job wagon by occupation, committed suicide at his residence in this city this morning by shooting himself in the mouth. His wife left him about two weeks ago and went to Europe, and his desperate act is attributed to that fact.

Regatta Postponed.

SANTA CRUZ, July 3d.—The regatta of the Pacific Coast Yacht Club to Monterey to-morrow has been postponed to Saturday, July 5th. The members of the club will participate in the festivities here to-morrow; also, Governor Stoneman. Some 2,000 people are expected from San Jose, mostly members of the P. O. S. of A.

UTAH.

The Railroad Trouble.

SALT LAKE, June 3d.—News was wired here to-day that the Lovejoy interest had taken up one mile of the D. and R. G. track, just eastward from the Colorado line, and the connection between that and the Utah lines is completely severed. It is said that Lovejoy threatened this when here, if the ruling of the Judge was against him on the injunction suit, as it turned out to be.

[SECOND DISPATCH.]

SALT LAKE, July 3d.—Closely following the application of the Denver and Rio Grande Western for a receiver comes another misfortune to the road. This morning, at 3 o'clock, train No. 7 coming west from Grand Junction, Colorado, was stopped about a mile east of the Utah line by a gang of Denver and Rio Grande workmen, who pulled up a mile of track, thus suspending all through traffic over the road. The Denver and Rio Grande Western have been operating the road as far east as Grand Junction, thirty-five miles beyond the Utah line, while properly the management extended only from Ogden to the Utah line east. The displaced track is beyond the jurisdiction of the Utah Courts. It is thought here that the last move in the row was taken by the Denver and Rio Grande for the purpose of forcing the Western to accede to the appointment of one receiver for both companies. The last phase of the case will materially injure business in Utah, as well, probably, as to leave the railroad employes unpaid for the next two months.

BRITISH COLUMBIA.

Burial of the Victims of the Colliery Disaster.

VICTORIA, July 3d.—The funeral of the victims of the Wellington colliery disaster took place yesterday. There were nine of the ten Catholics who received the rites of the Church—seven Italians and two Irishmen. Two Odd Fellows, John Enos and Michael Wilkenson, were buried by that Order. One Knight of Pythias, Christopher Hoskins, was buried by the members of the Wellington Lodge, K. of P. There was one Mason, John Gill, who was interred with the honors of Masonry, and one member of the Cambian Society—a Welsh benevolent association—John Jones.

A sad incident occurred at the funeral. A woman, whose name could not be ascertained, arrived by the R. P. Rithet, expecting to meet her husband, who was a miner, at the wharf. Instead of meeting him, she arrived in time to be present at his burial, unaware until then that anything had occurred. The scene at the grave was harrowing beyond description.

Sunday hours will be observed at the Postoffice to-day. Freight will not be handled at the depot. Wells, Fargo & Co.'s office will be closed. Many of the prominent business houses of the city will be closed to-day and until Monday.

Very lively work is being done at the railroad shops in the way of repairs to the pay-car. As many men as can work to advantage are engaged upon it, and somehow they seem to feel an interest in pushing the work with great rapidity.

Yesterday morning's train over the Western Division was 35 minutes behind time in its arrival here, and the afternoon train over the same route 1:15 late, they having been detained at Modesto waiting to connect with the train from the south.

The family of Fritz Stein, of this city, a few days since were attacked with convulsions after supper, and became very seriously ill. They ate heartily at supper of sturgeon and potatoes, and one or the other, presumably the fish, poisoned them.

Wednesday evening the horses Tump Winston, B. B., Frank Moscow and Haddington went up to Grass Valley from San Francisco, to take part in the races to take place there to-day and to-morrow, and several others went up from Sacramento yesterday.

The following officers have been elected by the A. O. H. to serve for the ensuing term: President, J. B. White; Vice-President, P. J. Brown; Recording Secretary, William Ryan; Financial Secretary, J. J. Carroll; Treasurer, W. J. O'Brien; C. D., John Diviny.

At the annual election of the Elk Grove Masonic Building Association, held July 1st, the following Directors were elected: Thos. Tavenor, R. Allen, O. S. Freeman, John Richards, S. S. Stewart. Thomas Tavernor, President; S. C. Stewart, Treasurer; R. Allen, Secretary.

Uncle John Douglass will send up several balloons, from the front balcony of the St. George building, while the procession is moving this morning. In the afternoon, on O street, between Eleventh and Twelfth, he will send up two large balloons, with life-size figures of men attached.

Last evening a party of four or five public women, evidently under the influence of liquor, stopped for a talk on the south-east corner of Seventh and K streets. A respectable lady passed about that time, and one of the women, out of pure cussedness, stepped up and hit her a resounding slap on the face, then ran away.

Yesterday the sand was cleared out of the steamer Azalea, and she was much improved by a good washing. Her plunge bath does not appear to have done any very serious damage, though her upper works will have to have considerable done in the way of repairs. Steam will probably be got up and a trial trip made to-day.

William Price, who was returned to Woodland a few days since to answer a charge of embezzlement, on Wednesday waived trial, by consent of counsel, and pleaded guilty, asking for immediate sentence. Acting upon this request Judge Bush sentenced him to two years at Folsom, and he was taken there yesterday.

General Superintendent A. N. Towne's car, which has recently been repaired, improved and repainted, came out of the shops yesterday, presenting a very handsome appearance, being of the new Pullman color, and went down to Oakland in the afternoon. It has been named "Francisco." It is understood that Mr. Towne purposes going East next week.

In order that there may not be any lack of police protection in the city, in consequence of so large a number of the police force appearing in the procession to-day, Chief Jackson has secured the services of nine special officers, well acquainted with the business, to do duty for those who turn out on parade. There will also be on duty several of the regular special officers.

Officers Sullivan and Coffey arrested, about 11 o'clock last night, a tough citizen, who gave the name of Frank Lendel, and put a charge of being a healthy beggar against him. He begged for a quarter from parties on Second street, between K and L, and then threatened to whip them for refusing to donate. Officer Sullivan had a lively chase after him before he could be caught.

The gripsack supposed to have been stolen from the Golden Eagle Hotel 'bus at the depot about 3:30 A. M. Wednesday, was returned to the hotel yesterday by a gentleman who reported that he and a friend found it at the corner of Sixth and K streets that morning, and, seeing the item in yesterday's RECORD-UNION, were thus enabled to find out who owned it. It probably fell out of the door of the 'bus while the latter was going up the street.

Frank Foster's horse and phaeton, which ladies of the family were using yesterday in doing shopping, was appropriated by some one in the forenoon from in front of a dry goods store. Knowing of R. J. Merkley's recent display of rare detective ability, Mr. Foster called upon that gentleman to assist in recovering the property, and half an hour later the turnout was found hitched at the place from which it had been taken. The thief had probably heard who was after him, and, like Davy Crockett's coon, "came down" at once.

FOR a family medicine Ayer's Sugar Coated Pills are unrivalled. They root out disease as if by magic.

LEGAL NOTICES.

IN THE SUPERIOR COURT, COUNTY OF Sacramento, State of California. It is ordered that notice is hereby given, to all whom it may concern, that the State of California has commenced an action to escheat the estate of JOHN SMITH, deceased, which estate is described in the information which is made a part of this notice.

In the Superior Court, county of Sacramento, State of California. THE STATE OF CALIFORNIA, Plaintiff, vs. JOHN SMITH, Jr., JOHN SPRINGER, GEORGE MADDUX, JOHN SKELTON, WILLIAM CROSSLY, M. HANRAHAN, GEO. F. BRONNER, JOHN DOE, RICHARD ROE, JOHN DEN, Defendants. The above named plaintiff, by E. C. MARSHAL, Attorney-General of the State of California, files this information on behalf of the State of California.

First—That JOHN SMITH, a resident foreigner, and a native of the Kingdom of Great Britain, died intestate, on or about the 3d day of November, 1883, in the city of Sacramento, county of Sacramento and State of California, seized and possessed at the time of his death of the following described real estate, lying and being in said city, county and State, described as follows: Lots one, two, five, six, seven, eight, and the east 23 feet of lot four, in the block bounded by K and L, Twenty-ninth and Thirtieth streets; lots one, two, three and four, in block K and L, and Twenty-eighth and Twenty-ninth streets; lots one, two, three, four, five, six, seven and eight, in block M and N, and Twenty-sixth and Twenty-seventh streets; a three-acre tract of land next east of Thirty-first street, between J and K streets of the city of Sacramento, if extended.

Second—That John Smith, Jr., and John Springer, defendants, foreigners and natives of the Kingdom of Great Britain, and now residents of the State of California, at the time and prior to the decease of the said John Smith, deceased, and George Moddux, M. Hanrahan, George F. Bronner, William Crossly, John Skelton, defendants, and others whose names are unknown to plaintiff, and are named by fictitious names as John Doe, Richard Roe and John Den, defendants, are all now in the possession of said real estate, claiming some right therein adverse to this plaintiff and against law.

Third—That all the relatives next of kin and heirs of the said John Smith, deceased, were non-resident foreigners, and non-residents of the State of California at the time of his death; that he had no wife, no children, no descendants or next of kin residents of the State of California at the time of his death capable of inheriting, of succeeding to his estate at the time of his death, of which all persons and claimants have notice in and by virtue of the records of this Court.

Fourth—That by reason of the foregoing facts stated and the law in such cases the real estate of John Smith, deceased, has escheated to the State of California, plaintiff herein, and that the State of California, plaintiff, is legally the owner thereof and entitled to the possession of said estate.

Fifth—Wherefore, the State of California, plaintiff herein, asks and demands judgments of this Court declaring that said estate has escheated, and that the State of California is in law the rightful owner thereof and entitled to the possession of the same.

E. C. MARSHALL,
Attorney-General of California.
Per S. P. SCANIKER, of Counsel.

And it is further ordered that this notice be published in SACRAMENTO DAILY RECORD-UNION, a newspaper published in the city of Sacramento, county of Sacramento and State of California, for the period of one month, requiring all persons interested in said estate to appear and show cause, if any they have, within forty days from the date of this order, why the said estate should not vest in the State of California.

CAUTION.

DON'T BE MISLED BY REPRESENTATIONS of full iron frames in Upright Pianos as being equal to the MATHUSHEK, for upon examination it will be found that the MATHUSHEK Upright Piano is the only Piano that has a cup or wood bushing forced into solid iron, into which the tuning pins are set, which no other Piano has. Take a toothpick or penknife blade, and you can insert it all around the tuning pin in all other Pianos down to the wooden plank, which will prove the above assertion. Then note the MATHUSHEK, and don't be deceived. **Agency, 527 J street.**
