

RUMANIANS OCCUPY CITY OF BUDAPEST

Officers of Army Are Executive Force and Soldiers do Guard Duty

Berlin, Nov. 7.—Hardly has the train reached the East station than the notices that Budapest is an occupied city, writes the "Tageblatt," a Budapest correspondent. "The chief of station is a Rumanian officer, the station guard is composed of Rumanian soldiers, the arriving passengers are requested with friendly blows on the head to stand in a long line and give the commanding Rumanian officer the travel pass.

"The baggage is minutely searched and it is more than an hour before it is possible to leave the station. It is almost impossible to get a cab, and if one does find one, the coachman immediately asks if one has 'blue money,' the old Austro-Hungarian bills in contra-distinction to the 'white' money of the soviet regime. 'If one has the blue money' the

one throughout the entire city begins, for lodging in a hotel is almost impossible to find, since nearly all are taken over by the Entente missions and the Rumanian officers. It frequently happens that strangers spend days without a place to sleep in Budapest.

"Everywhere there are Rumanian patrols, including cavalry with lances and the Rumanian flag. The streets at night are absolutely empty, since no one without a special pass may be abroad after 11 o'clock. Only Rumanian soldiers are to be seen and with Hungarian troops may be hunting an occasional Bolshevik.

"In the day time automobiles tear through the streets carrying English, American, Italian and Rumanian officers. From the official buildings bear the blue, yellow, red Rumanian flag. In front of the hotels where the officers live, stand autos under military guard.

"Life is liveliest in the Hotel Ritz where lives the American commission, which since itself particularly popular by its attitude during the Jewish pogroms.

"An official declaration regarding the pogroms gives twelve dead and one wounded, one-third of whom, however, are not Jews. The anti-semitic movement is beginning to diminish and has taken hold of the schools. In the university, Professor Johann Brook, one of the unknown

great ones of the Hungarian scientific world, has started an anti-semitic association which has as its task the clearing of the university of Jews. A whole list of European professors has been called upon to resign their chairs, and Jewish students are not to be allowed at the university in future. Even in grammar schools the anti-semitic agitation is strong, and several high schools have decided to accept no Jewish pupils."

CLOTHING WORKERS BLAMED FOR H. C. OF L.

Agents Call Strikes for Own Benefit: Reasons Why Men's Clothes Cost So Much.

Chicago, Nov. 7.—Present high prices for men's ready-made clothing today were blamed on the Amalgamated Clothing Workers of America by Nicholas Michels, assistant state's attorney, in whose hands were books and records of the organization taken in a raid yesterday on its headquarters. More than \$500,000 in "lines" and "settlements" was taken from clothing manufacturers by the union, the state's attorney's office charged. Agents called strikes for their own gain, it also is alleged.

The organization is said to have more than 150,000 members dominating the clothing industry at Chicago, New York and Rochester, N. Y., the three clothing centers.

Various small factories and shops were driven out of business and the entire industry was compelled to pay tribute, according to Michels.

"One demand of \$3,000 was paid by a Chicago firm," he said. "It was paid in three monthly installments. This and other amounts varying from \$500 to \$1,000 we find entered to the credit of individuals, not to that of the unions.

"These demands were made in the guise of 'lines' or 'penalties.' The employees got the benefit of the strike demands and the officials got the settlement money."

In this connection, Mr. Michels said a strike was planned soon in a nationally known clothing factory for a 44-hour week and 25 per cent. of the manufacturer's profits unless a settlement was made.

"Strong-arm men" were kept on duty in cities covered by the union, correspondence seized showed, the assistant state's attorney added, and were shifted from city to city to prevent police recognition.

Mr. Michels said he had not requested arrests, but would seek a number of indictments after he had conferred with manufacturers and some of the union leaders.

STRIKE RIOTS CONTINUE

Twelve More Women Are Arrested In Connection With Youngstown Steel Co. Walkouts.

Youngstown, O., Nov. 7.—Minor disturbances broke out in widely separated parts of the city today in connection with the steel strike.

Twelve women were arrested in East Youngstown after they had marched up and down the streets and attempted to prevent workmen from entering the Youngstown Sheet & Tube plant. Other disturbances included a workman beaten while on his way to mill; picket stabbed by negro workman whom he accosted; another negro held for carrying a knife; picket arrested after entering the Carnegie Steel Co. plant and attempting to persuade workmen to come out; a striker jailed for assault; five men arrested for carrying concealed weapons. A street car carrying men to the Republic Iron & Steel Co. and the Youngstown Sheet & Tube Co. was bombarded with bricks, several passengers being cut by flying glass. A passenger fired three shots into the air, it is said, dispersing the mob before the police arrived.

The Republic Iron & Steel Co. today reported resumption of operation in its plate mills, while the Ohio works of the Carnegie Steel Co. announce the blowing in of another blast furnace, making four of its six stacks in operation.

MAN WEAR MONOCLES.

But It Is the Fair Sex—And in London.

London, Nov. 7.—English women are wearing monocles. Not only are they adopting them for home wear but they are appearing on the streets so adorned.

COLD SPELL CAUSING DISTRESS IN VIENNA

Vienna, Nov. 5. (By the Associated Press.)—Five days of rain and snow with a temperature around the freezing point has caused much distress in Vienna. There is no fuel for heating and there has been rigid curtailment of lighting and street car service. The hospital authorities report that because of lack of heat the death rate in maternity cases is increasing.
