

# Kodol

## Digests what you Eat

### Dyspepsia Cure

The most certain way of curing indigestion and stomach troubles is to perform the stomach's work for it by using KODOL. KODOL is a natural digestive which you eat and gives the stomach perfect rest. It contains the natural digestants combined in exact proportions, together with the organic substances required for reconstructing the worn out digestive organs. That is why it has never failed to cure the worst cases of indigestion and dyspepsia even after all other methods and preparations have failed. The most sensitive stomach can take it.

**It can't help but do you good**

Prepared by E. C. DeWitt & Co., Chicago. The 21 bottle contains 24 times the 50c. size.

When you need a soothing and healing application for piles, sores and skin diseases, use DeWitt's Witch Hazel Salve. Beware of counterfeits.

## HOG MARKET DOWN

Goes Off 2-1-2 at 5 Cents With Good Demand.

TOPS STILL AT \$5.55

Receipts 1,745—Cattle Steady But Only One Sale.

There was a general weakness and lower tone to all the western live markets yesterday, and while the Wichita market sank down a little under the pressure of the repeated depressing reports from other points, it did not at any time lose as much ground as did the rest. From weak to 2 1/2 cents lower the big market ranged and closed at weakest point. This market was even quoted as steady and firm at some early sales, but the average would be put as 2 1/2 cents lower. By the time all the last hog in early enough to look over had been sold and weighed up the record showed a good one for the day and a very good supply for most of it arrived late in the trading and was to some extent unexpected to the bulk buyers. Receipts from car deliveries came to the books late in the afternoon, one road dumping eleven cars at one landing, with two other lines bringing in still more cars. With the low loads, only two or three that were late in Thursday and on sale first thing in the morning, there were in all twenty-two cars to go across the scales, besides a very fair run of wagon stuff. It was all sold, and four or five cars arriving too late for the market will sell first thing this morning. As to the quality it may be said it was exceptional good. In all the car offerings there were only a very few that were of poor quality or thin lights. At least seventeen cars, or in other words, all but one from six cents up, were very good, fat, well cured and just such as this market's buyers most desire. They all sold strong considering the greater extent of the depression elsewhere, and sellers knew it and were satisfied. The bulk rates were more narrow than any day this week, which indicates the strong demand present and the active trading in the market. The active throughout and a firm tone at the slightly lower quotation, with an over steady demand. The tops remained same as Thursday, 5 1/2 with four cars at that price.

**Cattle.**  
The cattle market was steady, but there was nothing of any consequence save one sale of the Anderson from G. H. C. Co. of H. H. Co. which sold to C. A. Stuart & Co. at a good price. The rest were one cow, one steer and one calf, all of which were sold at 1 1/2 cents. There was also a bunch of eleven calves sold by C. H. Co. to the Cattle Packing Co.

**SHIPPERS AND NOTES.**  
P. Rogers of Ford Creek was among the late arrivals and he had with him two of his best hogs, one of medium weight and one of heavy weight, both of which he sold at 2 1/2 cents. Mr. Rogers is one of the largest stock buyers in the territory and the territory and he sold yesterday was very much to his satisfaction in every way.

## NEWS AGAINST WHEAT BUT EXPORT SALES HELPED.

CORN WEAK AND LOWER

July Oats Lower and Provisions Higher.

Chicago, May 10.—The wheat market today was against wheat for a time, but export sales later caused a recovery and the close was steady. July 10 lower. Corn was weak, closing 10c lower for May and 10c lower for July. Oats closed 10c lower, and provisions 5c higher.

July wheat opened unchanged to 1c higher at 10c to 11c. Local people buying because of steady cables, but northwest receipts and a calmer feeling over the Wall Street situation. Snow's report, claiming previous high conditions to have been well maintained, struck the pit crowd as distinctly bearish and under the influence of the market moved off to 10c during the forenoon. The market which had been fairly active, rallied for a time, but reports of exports alarmed a few shorts in an effort to cover bid the market back to 10c. The close was steady to 10c lower at 10c. Exports reported at 10c taken. Seaboard clearances in wheat and four were equal to 27,000 bushels, while primary receipts aggregated 24,000 bushels against 23,000 bushels last year. Minneapolis and Duluth reported 10c compared with 23c last week and 23c a year ago. Local receipts were 5c, one of contract grade Argentine shipments were 24,000 bushels according to a cable to the board of trade.

Corn prices received rather a severe drubbing as the day's news was scarcely reassuring. Argentine shipments were 1,000,000 bushels last week, double the quantity of the previous week, while out of local receipts of 23c, 10c was sold at 10c. The chief blow came in the Illinois crop report which claimed that 24,000,000 bushels of corn still remained in farmer's hands. This being 15,000,000 bushels less than was held May 1 a year ago. An influential trader dumped 200,000 bushels of July into the pit and scattered lots of corn on small farms were also unloaded. The bull leader furnished about the only defense the price had and probably checked a greater decline than actually took place. The market closed down to 10c and 10c lower at 10c.

Oats were moderately active, but featureless. Commission houses were on the line, but the price of oats was not affected. The price level subsided fractionally. July 10 closed at 10c, 10c lower at 10c. Receipts were 10c. Provisions were dull and the price range narrowed. The opening was easy in sympathy with the wheat market, but a demand for September later steadied the whole list later. July pork closed 7c cents higher at 10c, July 10 closed at 10c and 10c lower at 10c.

Estimated receipts tomorrow: Wheat, 10c; corn, 20c; oats, 10c; hogs, 10c.

**GRAIN AND PRODUCE MARKETS.**

**Chicago.**

Chicago, May 10.—The leading futures ranged as follows:

Wheat—May 10 1/2, July 10 1/2, Sept 10 1/2.
