Taking advantage of the weak market, the bears made an attack on the stronger issues on the New York exchange on Saturday. Support being lacking, the market went down sharply in all quarters with the specialties most affected. Weakness of Steel had a dispiriting effect on the general market and foreign selling of Canadian Pacific was a factor in depression of the railroad list.

It is estimated by the statisticians of commerce in Washington that the sugar consumption of the United States the coming year will be larger than ever before and will amount to about eighty-seven pounds per capita, against eighty pounds per capita in 1910 and thirty-nine and a half pounds in 1880. More than eight billion pounds of sugar were consumed in the United States this year, costing approximately 400 million dollars. Hawaii furnished approximately forty-seven million dollars' worth.

Reorganization of the Kona Tobacco Company is under way, including an increase of the capital stock from one million to two million dollars, W. D.

Some Growing Children are under size—under weight. Some grow tall and thin, others are backward in studies—pale and frail—improper assimilation is usually the cause. If your children are not rugged and ruddy and rosy—bubbling with energy and vim at all times, you use them SCOTT'S EMULSION—nature's concentrated nourishment to build body, bone, muscle and brain. CHILDREN NEED SCOTT'S EMULSION TO PROGRESS.

Schrader has succeeded J. L. Danley as manager and better buildings than those recently burned are being erected. Mr. Schrader, who was lately manager of the Hawaiian Tobacco Company, has begun the clearing of thirty acres of land, which will increase the planted area to thirty acres this year, and the crop will be more than doubled. The company raises a superior quality of tobacco, which brings high prices in New York.

Who Will Be the Lucky 1000?

This month we will produce one thousand HUDSON cars. That is a small percentage of the number of people who will want them, for before a single HUDSON was offered, more than one thousand individuals had paid their deposit to assure getting cars.

The demand in excess of the number we can build has been in about that ratio ever since the first photographs were shown.

Electric Self-Cranking—Electrically Lighted

WHY THIS GREAT DEMAND? People recognize now the importance of engineering brains in their relation to mechanical perfection. Without knowledge a smooth, safe, satisfactory car is impossible.

These cars were designed by 48 skilled engineers gathered from Europe and America, representing 97 factories. They had a hand in building over 200,000 automobiles. These men represent about all that has been learned in motor car design. Some have made the greatest headway of all in designing six-cylinder cars. Some are specialists in other lines. So the combined skill and knowledge of all these men is focused upon the perfection of HUDSON cars.

All who are motor-wise recognize the importance of having a car built under such favorable conditions. It sells at \$2450, is why, with the maximum of 1,000 completely finished and equipped as cars for delivery this month, only one above. Prices are f. o. b. Detroit.
