## WHY THE CHINESE LEADERS ARE ON MAINLAND TRIP

Stories are told in the Japanese papers about Huang Hsing, a Chinese revolutionary leader, who sailed for the United States on board the Tenyo Maru on June 29, from Yokohama, says the Japan Advertiser. He is said to be accompanied by four men, two of whom are graduates of the school maintained by the Chinese revolutionists at Omori in the suburbs of Tokio. According to one story Huang Hsing left Japan as he has not been recently on good terms with Dr. Sun Yat-sen, who, too, is staying in Japan, but another story says that he has left Japan with a large sum of war funds supplied by a certain Japanese wealthy man, as he believes the time is ripe for the outbreak of a fresh revolution in China. Yet it is said that his object is to see first his son staying in the States for study, then go to France to meet the other Chinese revolutionary leaders, who have their headquarters outside Paris, and he got his voyage expenses by disposing of shares of the China Industrial Development Co. in his possession.

Huang Hsing's Alias. Apart from these suppositions, however, an incident occurred after he embarked on the Tenyo Maru on Tuesday afternoon. He was of course disguised, but the authorities of the Japanese and Chinese governments had known it, and after Huang's embarkation, the authorities of the Yokohama office of the Toyo Kisen Kaisha were requested by the two governments to refuse Huang Hsing, in case he attempted to proceed to the United States by any of the company's steamers. The authorities of the shipping company were surprised at this and immediately tried to request Huang to leave the steamer. But when he was examined by the police authorities of the Kanagawa-kencho, together with the authorities of the shipping company, Huang insisted on the alias he had adopted and did not yield to tell his real name, so that the authorities concerned could not press him any more and let him stay on board the steamer. As a result of this the departure of the steamer was delayed one hour, but Huang was allowed to proceed to the States. It is still doubted by Huang's friends whether he could manage to land in the States on the arrival of the steamer at San Francisco. It is also reported that as soon as Huang embarked on the steamer a Chinese, who was believed to be seeking a chance for an attempt upon Huang's life, followed him, and the authorities of the Kagachio police station shadowed the said Chinese. However, he soon left the steamer and entered the Grand Hotel. The Japanese police are said to be still shadowing the Chinese.

The revolutionary school, Kozen Gakusha at Omori, referred to above, was ordered closed by the police authorities of Shinagawa. The school was supported by Mr. Li Lie-chung, the famous Chinese revolutionary leader now staying in Paris, and has had over 70 Chinese students, of course belonging to the revolutionists. One Chinese involved in the bomb explosion case at Chiba was a student of the school.

Wounded Man Recovering. A Chiba report says that Chang, a Chinese revolutionist, who has been injured by the bomb explosion which occurred Sunday last, was examined by Judge Shimakura of the Chiba local court on Wednesday morning at the Chiba prefectural hospital where he has been taken for medical treatment. About 11 o'clock on the same day Chang was taken to the Chiba prison from the hospital under guard of two policemen. Chang will recover in a few days, while Noguchi, a retired army officer, will recover in about three weeks. After his recovery Noguchi will be handed over to the gardener.

### PROLIFIC CATTLE TICK

A male and female tick hatched in April may by October 15 give rise to 6,750,000,000 descendants, about half of which, being females, will lay about 1500 more eggs apiece immediately or the following spring. Take the cattleman's point of view: a thoroughly although not exceptionally infested cow may carry several hundred thousand ticks at one time and, during one season, may be infested by four such broods. Now 1500 ticks, after having engorged themselves for three or four days, will weigh about a pound, this representing almost entirely the weight of the blood taken from the host. Thus from 200 to 500 pounds of blood in a single season. Little wonder that thousands of southern calves never reach maturity; that the pitiful spectacle of a valuable dairy or beef animal actually starving to death in the midst of rich, nutritious pasture is not a nightmare, but a terribly frequent reality.—The World's Work.

A SKIN OF BEAUTY IS A JOY FOREVER Dr. T. FELIX GOURAUD'S Oriental Cream OR MAGICAL BEAUTIFIER

Removes Tan, Pimples, Freckles, Moth Patches, Rash and Skin Diseases, and every blemish on beauty, and cures dandruff. It has stood the test of 66 years, and is so harmless we advise it to be sure it is properly used. See our counterfeits of similar name. Dr. T. A. Sayre said to a lady of the hospital (a patient): "As you ladies will use them, I recommend Gouraud's Cream." At Drug Store and Department stores. Forl. T. Hopkins & Son, Props., 37 Great Jones St., N.Y.C.

## CONVENTION IS VOTED SUCCESS IN EVERY WAY

Second Sunday in November Will be Observed as "Temperance Day"

Having been a complete success in every way, predicting a bright future for the churches and religious organizations coming under its jurisdiction and resulting in the formation of plans for extending their present lines of work, the ninety-second annual convention of the Hawaiian Evangelical Association came to a close at Waikuku Maui, last night. More than 400 delegates, clergymen and laymen were present at the sessions of the convention, which is a record from the standpoint of attendance.

The second Sunday of next November will be "Temperance Day" in Hawaii, and will be observed as such by all churches and religious organizations throughout the territory. The passage of a resolution presented by Rev. S. L. Desha and Rev. C. G. Barnham, was one of the last acts of the convention yesterday before adjournment was taken. The resolution follows:

"Whereas, November 8 has been chosen by the committee of International Sunday School arrangements as a World's Temperance Sunday, and whereas, on that day throughout all parts of the world the subject of the entire prohibition of the liquor traffic, as the greatest curse of all nations, is to be that upon which pastors are to preach and of which Sunday school teachers are to instruct their pupils, etc.

"Therefore, be it resolved, that throughout all the Hawaiian churches of this territory, the second Sunday in November next shall be observed as Temperance Sunday in the Christian Endeavor Societies, Sunday schools and all preaching services, and furthermore that all churches and pastors are hereby instructed and requested to cooperate with the Anti-Saloon League of Hawaii in its work of reform, and that this annual convention elect a member as our permanent representative on the executive committee of the league."

The annual chorus contest Monday evening was attended by a crowd which packed the Maui theater. Molokai succeeded in wresting the banner from East Hawaii, which organization has held the trophy for the past two years. Many of the Honolulu visitors to the convention returned home this morning in the Claudine.

### HOW TO SAVE YOUR EYES

Try This Free Prescription

Do your eyes give you trouble? Do you already wear eyeglasses or spectacles? Thousands of people wear these "windows" who might easily dispense with them. You may be one of these, and it is your duty to save your eyes before it is too late. The eyes are neglected more than any other organ of the entire body. After you finish your day's work you sit down and rest your muscles, but how about your eyes? Do you rest them? You know you do not. You read or do something else that keeps your eyes busy; you work your eyes until you go to bed. That is why so many have strained eyes and finally other eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches; they never cure. This free prescription, which has benefited the eyes of so many, may work equal wonders for you. Use it a short time. Would you like your eye troubles to disappear as if by magic? Try this prescription. Go to the nearest wide-awake drug store and get a bottle of Optona tablets; fill a two-ounce bottle with warm water, drop in one tablet and allow it to thoroughly dissolve. With this liquid bathe the eyes two to four times daily. Just note how quickly your eyes clear up and how soon the inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment, but marvelously effective in multitudes of cases. Now that you have been warned, don't delay a day, but do what you can to save your eyes and you are likely to thank us as long as you live for publishing this prescription.—advertisement.

### HAWAII OR KAUAI MAN TO SUCCEED HUGHES IS GOSSIP OF STREET

"Who will be the new Hawaii fair commissioner?" is becoming almost an hourly question.

The latest rumor which went into circulation this morning is that the appointee to take the place of John Hughes, resigned, is to be a man from either Kauai or Hawaii. This information, it is said, came direct from Governor Pinkham.

When seen this morning, Chairman H. P. Wood, while not denying a knowledge of the rumor, said that he has received no information from the chief executive regarding the appointment of a new commissioner. It is highly possible, however, that the governor may choose a resident of one of the other islands for the position. It will be remembered that when the commission was first organized Rev. J. M. Lydgate of Kauai was appointed a member but, for some reason, dropped out shortly after.

Never say die. Expiry sounds more classy.

### WIRELESS SEEING

Science now seems to be claiming that pictures can be received by wireless and that the time is not far distant when seeing through the medium of waves over a space of many miles will be the ordinary incident of the common life. This achievement would mean very much for the entertainment as well as for the advance and advantages of life. It would mean very much more in the science of warfare. The complications of warfare would be very much increased in case a general could erect the apparatus by which he would see what the enemy was doing many miles away. Yet this is the promise of those who heralded the advent of the seeing wireless.

There is nothing impossible in the proposition to project by the aid of wireless waves scenes that can be reformed and perceived by those far removed. Travel might then be dispensed with, as one might have in his home a travelograph, if such it might be called, by which he could pass before him the contemporary events of Cairo or Paris or London, or the shores of the River of Doubt that Mr. Roosevelt has put upon the map.—Baltimore American.

### HOW THIN PEOPLE CAN PUT ON FLESH

A New Discovery.

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food does not work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation, are sadly out of gear and need reconstruction.

Cut out the foolish foods and funny sawdust diets. Omit the flesh cream rub-ons. Cut out everything but the meals you are eating now and eat with every one of those a single Sargol tablet. In two weeks note the difference. Five to eight good solid pounds of healthy "stay there" fat should be the net result. Sargol charges your weak, stagnant blood with millions of fresh, new red blood corpuscles—gives the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, too, mixes with your food and prepares it for the blood in easily assimilated form. Thin people gain all the way from 10 to 25 pounds a month while taking Sargol, and the new flesh stays put. Sargol tablets are a scientific combination of six of the best flesh-producing elements known to chemistry. They come 40 tablets to a package, are pleasant, harmless and inexpensive. For sale by Benson, Smith & Co., Chambers Drug Co., and Hollister Drug Co.—advertisement.
