COUNTRY VOTERS HEAR ARGUMENTS FOR C. A. RICE

Many Voters at Aiea and Wai-pahu Listen to Straightforward Talk on Candidates

A large number of voters of Aiea and Wai-pahu last night heard Senator Charles A. Rice, candidate for delegate, and speakers who favor him, the two down-the-country meetings being regarded as distinctly favorable to the Rice prospects.

At Aiea James Gibb had made arrangements for the meeting while E. M. Scoville had looked after things at Wai-pahu.

Among the speakers were Senator Rice, W. R. Farrington, W. H. Rice, Sr., J. A. Akina, John A. Noble, William Slossman, Alexander Lindsay, Jr., Ed Towse, M. J. Serpa and others.

Rice dwelt on his object in seeking election as delegate. "Hawaii needs an active, energetic man at Washington during the next two years, and I am prepared to give the best service in my power," he told the voters.

Mr. Farrington said that he had been sizing up the delegate situation from his standpoint as a plain citizen, not as a partisan. He sought, as he believed other average citizens sought, to cast his ballot for a man who regardless of party will give the best service for his country, the territory and his fellow citizens.

Mr. Farrington declared his belief and confidence in the man who works—the worker. After going over the record of all men offering themselves for the position of delegate to Congress he was satisfied that Charles Rice best fills the territorial need for a first class, vigorous and thoroughly capable worker. In every public trust he emphasized that Mr. Rice has always been "on the job" early and late. He represented the interests of the people. Mr. Farrington objected as a plain citizen to being represented in Washington by the paid counsel of private interests. He believed that the representative of the people should speak for Hawaii and we should send a man to Washington who will be "everlastingly on hand to speak for us." Mr. Farrington also said that Mr. Rice is a Hawaiian in every sense of the word. He asked what man would stand before the country and say that Rice or any other man reared in the islands is not Hawaiian. He would like to see what men would do this in the light of the fact that the United States has with-cut a second thought or hesitation conferred the rights, privileges, responsibility and dignity of American citizenship on every native-born resident of Hawaii. He urged the voters to measure fully their responsibility to the nation and the territory as a whole, not allowing them to consider solely their selfish interests.

Mr. Farrington said he was on terms of personal friendship with all the candidates for delegate. He had nothing to say against any of them. He believed it his duty, however, and the duty of every citizen to make his choice on the basis of the man best fitted to represent the citizens of the territory. For this reason he intends to vote for Mr. Rice and for this reason he firmly believes that the sound common sense of the people would bring about the selection of Mr. Rice at the primaries.

Other candidates spoke, all of them who have been in office pointing to their records with pride.

In the audience were two policemen, apparently supposed to be on duty, as they wore their clubs conspicuously displayed and were in uniform. A resident of the precinct who was attending the meeting made this remark: "I am glad to see that the Democrats can get noddies up here. We have our bread and milk stolen here and hoodlums all around but could never get any policemen to look into the matter, though we complained to the sheriff."

Supervisor McClellan said that he was seeking support for the fourth time for the office of supervisor and referred to his record as chairman of the ways and means committee. He said that the city has approximately a million dollars to spend and that of this it spends \$750,000 on fixed expenses and has about \$250,000 for other expenses. The fact that his arithmetic was \$100,000 out did not seem to occur to the chairman of the ways and means committee for when he went into details on expenditures he expended on the \$750,000 and \$950,000 making a million in all.

DEMOCRATS SAY RECORD ENOUGH FOR REELECTION

Also, Candidate for Sheriff Says He's Almost Daily in Touch With Wilson

About 160 persons, one-third of whom were voters, attended the Democratic meeting at Emma Square last night and listened to various candidates for legislative and county office appeal for the support of the electorate on September 12.

The crowd showed little enthusiasm, listening attentively but with scant applause to the various Democrats who asked the people to put the party back into power in the county.

Eddie Hanapi spoke in Hawaiian at length, declaring the Democratic party is the only party that has done the territory any good. He is running for the senate and he told the people that if he were elected everybody would be well treated.

John M. Bright, who is editor of Link McCandless' Hawaiian paper, made a speech on behalf of his own candidacy for sheriff. Part of it was in Hawaiian. In his English speech he said:

"Ladies and gentlemen: I am a candidate for sheriff. I am secretary of the Democratic committee and I think you should all support me. I am in almost daily communication with President Wilson, members of his cabinet and the members of Congress, and for this reason I think I am justified in asking you for your support for sheriff. I know I can fulfill the job. If elected I will take the advice of my superiors in office. So don't forget to vote for me on September 12. Thanking you one and all for your kind attention, I thank you."

Supervisor M. C. Pacheco made a speech in which he vigorously attacked the frontage tax laws. "These laws are unjust and inequitable and so long as I am in office I shall fight them," he said. "They are unjust because you in Honolulu have to pay for your roads, but if you live in an outside district, like Ewa or Wai-alea, the government pays for your roads. I believe in district improvement but these present laws are unfair."

Pacheco said the present board of supervisors has done more good work than any other and that it should be reelected.

Supervisor McClellan said that he was seeking support for the fourth time for the office of supervisor and referred to his record as chairman of the ways and means committee. He said that the city has approximately a million dollars to spend and that of this it spends \$750,000 on fixed expenses and has about \$250,000 for other expenses. Where CAN They Go Except To Fair Hawaii?

Of course there are mainland resorts which are stretching out welcome hands to the Tourists whom the European war is causing to "See America First."

But no mainland resort can compare with these "Isles of Peace"—and the Tourists will realize this if we quickly and adequately bring to their notice more information about Hawaii : : :
