

RUSSIANS HURLED AT KOENIGSBERG

GREATER HARBOR PLAN WINS

U. S. ENGINEERS FAVOR KALIHI CHANNEL CUT

Big Point in Fight for Larger Port Accommodations Secured by Washington Report—News Cabled by Debate

"PULL ALL TOGETHER" POLICY IS A WINNER

Honolulu's Glad to Get News—Means Much for Future of City—Project is Revision of Original Plan of Army Engineers

"Chamber of Commerce, Honolulu: 'Kalihiki Channel reported favorably by rivers and harbors board."

"KALANIANAOLE."

The above cable message from the delegate, which reached Honolulu this morning, shows that an important move toward uniting Honolulu and Kalihiki harbors has been successfully made.

The project which has just received the approval of the rivers and harbors board is a revision of the original plan of the army engineers. This first plan called for a 600-foot channel and a 1000-foot square turning basin, and after consideration it was referred back to the district engineer with the suggestion that a 1600-foot channel would afford immediate accommodation for increased shipping.

The scheme which has just been approved is the start of the eventual plan to join Honolulu and Kalihiki harbors by a 1000-foot channel, and which also deepens the Kapalama basin. It will afford increased wharf frontage as well as much better and safer facilities for the maneuvering of large ships.

The cost of the entire project is estimated at \$1,779,000, while for the first part of the work only \$483,000 is needed.

A few months ago the community, aroused to the necessity for united action locally, also took up the project for public discussion. The Chamber of Commerce, Governor Pinkham, Superintendent of Public Works Forbes and many others, individuals and firms, heartily advocated the project as a commercial necessity for Honolulu.

WE'LL INSPECT MILK WITHOUT TERRITORY, DECLARES MAYOR

The city and county will commence inspection of milk on Monday, according to the positive statement issued by Mayor Lane to the Star-Bulletin today.

IT'S ONLY CHLORINE, NOT POISON, YOU'RE TASTING IN WATER

"Ugh," and a couple of "Egh, eghs." Taste anything in the water this morning?

One more step towards "the human perfect" in so far as health is concerned has been established. It was and is and will be chlorine.

FIND PORTUGUESE WITH THROAT CUT; ACCUSES FILIPINO

Fisherman, Who Says He Was Attacked by Holdup, May Die From Wound

Eugene Luanda, a Portuguese fisherman, a recent arrival from Kolon, Kauai, was found unconscious with his throat cut from ear to ear in an unfrequented district of Twiwei early this morning.

After close questioning of the man by the police and examination of his wound by physicians, the alternate theory was advanced that he had attempted to take his life.

Luanda recovered sufficiently to tell his story when taken to the hospital. He says that he had spent the night fishing off the reefs near Twiwei.

Luanda said that he approached a watchman at the railway wharves who, instead of giving him aid, attempted to drive him off the premises.

The injured man is about 40 years old and has a wife and 11 children on Kauai.

Mr. Griffiths in giving this matter publicity said that he felt sure that the homes will be glad to know the facts in the matter and to cooperate with the school in preventing a spread of the disease.

GOVERNOR TO GO BEFORE SOLONS WITH MESSAGE

Follows President Wilson in Shattering Precedents; Will Deliver Views in Person

BEST WAY TO SECURE ATTENTION, HE THINKS

Has Completed Part of Address to Legislature; Will Be Interesting, He Says

Governor Pinkham has decided upon another precedent-smashing innovation. Following the precept of his illustrious superior, President Wilson, the governor will appear before the joint assembly of the territory's law-making body on the opening day of the next legislature and in person read to the senators and representatives his initial message.

President Wilson shattered a time-honored custom when he performed this ceremony on the first day of Congress after he took office, and Governor Pinkham has determined to set a similar record in Hawaii. It will be the first time a governor's opening message has been read by the executive to the lawmakers addressed by him.

"There are a number of things I desire to impress particularly upon the legislators, affairs which need their closest and most careful consideration. The best way to drive the facts home and get their undivided attention on the questions put before the lawmakers, I believe, is to have the message read to them by the person who writes it."

The governor reiterated a former statement to the effect that the communication will not be a lengthy one; at the same time it is to be a nearly exhaustive of the leading governmental problems as he can make it.

He has given considerable time to its preparation the last ten days and already a portion of the document is in writing. He expects to complete it in ample time to have copies ready for distribution among the senators and representatives on February 17, the opening day of the session.

PUNAHOU PUPIL HAS DIPHTHERIA; CASE IS MILD

The discovery of a case of diphtheria at Punahou academy today prompted the authorities to make an official statement, reassuring parents and promising to keep special watch over the pupils to prevent the disease's spreading.

The patient is a girl in the freshman class, whose name was withheld. She has been taken to the children's hospital, where it is said the case is a mild one.

Following is the statement of President A. F. Griffiths to parents, in part:

"The source of the infection is not known. The school is watching for any cases that may come from the same source and are asking parents to observe their children carefully. The doctors' report that the chances of students' taking the disease from these cases are very small. But the school is giving full information to the parents of all children in the same classes and asking them to use vigilance daily in watching for possible symptoms and, if the children show any symptoms, not to have them return to school until a physician has been consulted."

WILSON PAYS DELICATE TRIBUTE TO M'KINLEY

WASHINGTON, D. C., Jan. 29.—President Wilson wore a carnation in his lapel today in honor of the birthday of President McKinley.

Daniels Sure to Come Here

Tells Star-Bulletin Won't Cancel Trip

Upset of Canal Opening Will Not Keep Head of Navy From Hawaii Visit

Secretary of the Navy Daniels will not allow the change of arrangements for the formal opening of the Panama canal to block his visit to Hawaii this year.

Following the news from Washington yesterday that the big battleship parade through the canal cannot be held in March because of possibility of the vessels not being able to get through, it was feared in Honolulu that Secretary Daniels' plan to bring five battleships to Hawaii would be entirely abandoned.

The Star-Bulletin cabled to its Washington correspondent to get a direct statement from the secretary. The following cablegram was received today in answer:

"WASHINGTON, D. C., Jan. 29.—Secretary Daniels says his trip may be possibly postponed but will never be cancelled. He is coming without fail. He may

SECRETARY JOSEPHUS DANIELS

be delayed pending the president's visit to the exposition. "O. S. ALBERT" A Washington Associated Press despatch today says: "Secretary Daniels today formally announced that the opening of the Panama canal will be postponed to July."

Successes East and West Are Reported In German Cablegram

The following cablegram was received early this afternoon from official German sources: "WASHINGTON, D. C., Jan. 29.—Headquarters report: English depots in the fortress of Dunkerque (Dunkirk) were abundantly shelled with bombs during a night raid by air-craft. "Attacks in the dunes northwest of Nieuport repulsed the enemy, who in one place had entered a German position. The enemy was driven back with a night bayonet attack. South of the La Bassa canal, the English tried to take back a lost position but their attack was easily repulsed. "On the rest of the western front there is nothing important. "The Russian attack near Kussan, northeast of Gumbinnen, has failed. Heavy Russian losses have occurred in Northern Poland. No change in the situation northeast of Gollnow. "East of Lovicz the Germans drove the Russians out of an advanced position and captured the main position, conquering the trenches with trivial exceptions, accomplished in spite of violent night attacks."

CITIZENSHIP FOR JAPANESE NOT UNKNOWN

Dr. Scudder Points Out That Until Anti-Asiatic Agitation, Naturalization was Granted

That more than 50 Japanese have been granted citizenship by the United States is the statement of Dr. Doramus Scudder, pastor of Central Union church, based upon recent information at Washington. In connection with the application in the federal court here of Takao Ozawa for citizenship, the Star-Bulletin asked Dr. Scudder, who has made considerable investigation of the subject, as to the facts regarding naturalization for the Japanese.

The following letter was received today: Editor Honolulu Star-Bulletin. Sir: Last evening you quote Mr. A. E. Murphy as saying that he knows of no Japanese who having applied for citizenship in the United States was granted the privilege of naturalization. We have one such Japanese in Honolulu, a most excellent citizen, Dr. Katsunuma, an employe of Uncle Sam in the immigration service. While in Washington last month I learned that the number of Japanese who have been granted naturalization by the courts of our country is between 50 and 100. Until the anti-Asiatic agitation of the past quarter century became acute, all applications for citizenship by Chinese and Japanese were granted. The statute governing naturalization as originally passed by Congress in 1791 or thereabouts (Continued on page two)

TESTIFIES CHINESE WAS MISTREATED

Further testimony was taken in the federal court today in the case of Wong Kum Wo, petitioner for a writ of habeas corpus, who recently filed a second petition, asking that he be released on bond and removed from the custody of Richard L. Halsey.

MEXICO CITY IN ANOTHER TURN OF FORTUNE'S WHEEL

This Time It's Gen. Obregon and His Men Who March in Triumph Through Streets

[A. P. by Fed. Wireless] MEXICO CITY, Mexico, Jan. 29.—Gen. Obregon, supposedly friendly to Carranza, yesterday entered the capital at the head of an army of 10,000 men. Sharpshooters hidden under and on the roof of the cathedral attempted to assassinate him, three of his soldiers being killed and several wounded by the "sniping" fire. The snipers were not caught. Last night 20,000 more soldiers entered the city. The capital is quiet today and business is resuming.

MAYOR OF TOKIO LOSES ON PLAN AND QUILTS JOB

[Special cable to the Nippon Jiji.] TOKIO, Japan, Jan. 29.—Because of his failure to effect a consolidation of the electric lighting plants here and bring the entire system under municipal control, Baron Y. Sakatani, mayor of Tokio, has resigned.

Baron Sakatani is personally known to a number of Honolulu residents. He was particularly hospitable in his entertainment of the Hawaii party that toured the empire last spring on a semi-official peace mission.

DRIVING ONSLAUGHT TAKES

SLAVS 30 MILES INTO EAST PRUSSIA; AUSTRIA STIFFENS

DESPITE INTERNAL TROUBLES IN HUNGARY, DUAL MONARCHY DISPLAYS STRENGTH IN CARPATHIAN BATTLES—VIENNA DEMANDS FOODSTUFFS BE SEIZED AND DISTRIBUTED BY GOVERNMENT—WESTERN LINE QUIET

[Associated Press Service by Federal Wireless.] PETROGRAD, Russia, Jan. 29.—The object of the Russian invasion of East Prussia is the German stronghold of Koenigsberg, where it is understood the garrison is depleted. The route of the invading forces lies farther north than that taken by Gen. Rennenkampf in his disastrous attempt early in the war, and the Russian army is now stronger and better equipped.

LONDON, England, Jan. 29.—Answering the strategy of German and Austrian generals in starting an offensive movement in Hungary and Bukowina to repel the Slav troops, Russia has resumed her invasion of East Prussia. The czar's forces are now more than 30 miles inside the German border.

Simultaneously with the stiffened Austrian attack, the Turks further southeast are attempting to exert a new pressure on the Russo-Turkish line. The reports there are contradictory but heavy fighting is evidently taking place. The western front is quieter. The costly German assaults of the past few days seem to have accomplished nothing.

Russian General Staff Declares Recent Attacks Proving Success

PETROGRAD, Russia, Jan. 29.—A statement issued today by the Russian general staff says: "North of Tilsit, in East Prussia, on Monday the Russians drove back the Germans, destroying the Pogegan railway station. Fighting continues in the Pilkallen and Gumbinnen regions, which at certain points is resulting advantageously to us. "Southeast of Dukla Pass we gained an important success on Tuesday and compelled the enemy to retreat precipitately, abandoning much material. "The attempts of the enemy to assume the offensive on the Carpathian front have everywhere been smothered by the assaults of our forces. "The situation in Bukowina is unchanged."

Austrian Press Demands Germany's Example in Seizing Food

VENICE, Italy, Jan. 29.—Despatches from Vienna say that the city council and newspapers are demanding that Austria follow Germany's example and confiscate all foodstuffs, to be distributed by government agencies. The press denounces as selfish the Hungarian agriculturalists who are opposing this plan. The Vienna newspapers declare that a great catastrophe threatens the Dual Monarchy unless energetic measures are taken to conserve the food supplies and place them in official hands.

Crown Prince Lays It All to England

NEAR VERDUN, France, Jan. 29.—Crown Prince Frederick William has made the following statement to the Associated Press: "We are convinced that the day will come when Russia and France will find that they are only doing England's dirty work. We expect of America absolutely fair play in all quarters."

Berlin Official Report Featureless

BERLIN, Germany, Jan. 29.—German aeroplanes last night made a raid on Dunkirk and dropped bombs on the English provision depots. Except for minor engagements in Flanders, the remainder of the front was inactive.

German Banks Show Gain in Deposits

BERLIN, Germany, Jan. 29.—The report on savings banks finances for the past year show that the deposits in 1914 increased \$250,000,000.

Paris Says Western Front is Quiet

PARIS, France, Jan. 29.—Yesterday there were only local and minor engagements along the entire western front. The present civil service commitment positions will be made from 5:00 p.m. to 10:00 p.m. tomorrow. The examination of its last coup Saturday afternoon when held in McInley high school appointments to several police depart-ment.
