

May Festival Pleases Large Attendance at Maui High Building

By special train and by automobile from all East and Central Maui there journeyed to Hamakua on Tuesday evening friends of the pupils of Maui High and Grammar School, friends of the school and many who were "just interested in children and their doings." They went to see the May Festival, some to join in the dance that was announced to be held at that time, and they were thoroughly repaid for their journey.

About 150 children participated in the dances that were held in the courtyard of the school and they performed charmingly, their entertainment being one of the prettiest of its kind produced in East Maui. They had been drilled by Miss Susanne Stolle and her work with them was highly effective.

Most of the dances were participated in by large numbers of the grade children but there was one small dance which made an especial hit, the "Scare Crow Dance," in which Misses Lucy Baldwin, Agnes Deineri, Edith Langa and Esther Palmatier participated. The names of those participating in the other dances could not be secured in time for this issue.

Decorations for the occasion were in charge of a committee of the junior class of the High School of which Floyd Brown was chairman and were beautiful and effective, flowers being profusely used. The M. A. Company had generously assisted in solving the lighting problem and the effect was all that could be asked.

Somewhat embarrassing to the participants but solved with Yankee like quickness and hence amusing was the predicament in which the young "Indian Dancers" found themselves. The paving was wet when their number was rendered and when it came to "squatting" on the wet paving, it was uncomfortable. Their quick solution was to sit on their heels.

BIRTHDAY CELEBRATED

Master Walter Weight was seven years old yesterday and he and his friends had the jolliest sort of a birthday party in celebration at the home of Mr. and Mrs. George N. Weight on Main street, Wailuku. And the enjoyment of the occasion was not confined to the 27 young folk that came to congratulate Walter for there were about a dozen folk who came with them and seemed to enjoy it as much as did the children.

In the Weight home there were provided a sufficient number of small tables and low chairs for the small members of the party and the tables were decorated and set "just like a grown folk party." There were favors and table decorations, the color scheme being lavender and yellow. At the tables delicious ice cream and other refreshments were served and each child had a gift of some sort while Master Walter was the recipient of many remembrances.

Games interspersed with recitations and musical numbers made the afternoon speed along all too quickly. The pretty recitations were rendered by Eloise Campbell and Patsy and Elizabeth Murphy and Walter Weight and his sister sang several numbers charmingly and all joined in chorus numbers, directed by Mrs. Martinsen.

The juvenile guests were Emily May Taylor, Persis Paris, Annie McNicoll, Eloise Campbell, Jean Savage, Katherine Savage, Caroline Gibb, Jean Gibb, Peggy Livingston, Patricia Murphy, Elizabeth Murphy, Charlotte Winifred Engle, Barbara Engle, Alma Vincent, Marjorie Kunewa, Dorothy Weight, Keola Lee, James Gibb, John Wilmington, Arthur Blair, Ward Russell, Robert Hughes, Billy Blair, Roy Savage, Charles Willett, John Bohr, Joseph Ting, August Conrad, Billy

Invitations had been issued to about 50 friends and the evening was spent in dancing until a late hour. Refreshments of coffee and sandwiches were served.

EVENING AT BRIDGE

Four tables at bridge furnished a thoroughly enjoyable evening at bridge at the home of Mrs. P. H. Ross last evening. First ladies' prize was won by Mrs. H. B. Penhallow and the ladies consolation by Mrs. F. L. Hoogs. The men's prizes went to William H. Engle and H. B. Penhallow. Refreshments were served in an intermission. An Appreciation and Thanks

I wish to take this opportunity of thanking all the good friends on Maui, School Principals, teachers and others, whose cooperation and earnest endeavor resulted in my being chosen as the delegate-at-large for the Territory to the N. Russia Recognizes Rights to Property

(ASSOCIATED PRESS)

MOSCOW, May 23—The executive committee has unanimously decreed recognition of rights of private ownership of property whereon depend Russian rights. On other points, within certain limits, gives capital and industrial effort a wide latitude but there is a specific non-restrictive clause. Persons whose property has been previously seized have not the right to demand its return.

The Soviet authorities this morning told the Associated Press representative that they considered that the decree meets the stipulations expressed by Secretary Hughes of the United States regarding Russian reforms and they declare it represents the maximum concession their government can make to capitalism.

CATERPILLARS MAKE TRUCKS MORE EFFICIENT

Kelly Caterpillar Tires prevent slipping wheels. Their patented side-vent construction enables them to grip the road as no ordinary tire can. They conserve the engine's power, enable the truck to carry bigger loads and to travel over roads where they dare not venture on ordinary tires. That is why Caterpillars are growing in popularity so rapidly.

"We believe **ZEROLENE** is the most efficient lubricant made for the modern automobile engine. If it were possible to make a better oil than **ZEROLENE** this company would make it."

The President of the Standard Oil Company (California), author of the statement quoted above, is right in believing that Zerolene is the best motor oil made. The lubrication engineers of this company have proved it repeatedly, by means of thousands of dynamometer and road tests of Zerolene and competing oils.

The reasons for Zerolene's superiority are: First, that the Standard Oil Company (California) possesses resources of crude oil and of manufacturing equipment and personnel that are unsurpassed in the entire petroleum industry. Second, that the engineers and chemists of this company have, from the beginning, been given carte blanche to make full use of these exceptional resources, and to spend all the time and money needed to develop a lubricant ideally suited to the needs of the modern internal combustion engine.

At the President's request, we are undertaking to tell the motorists of the Islands the story of Zerolene. We shall do this by means of a series of signed statements in the public press. These statements will set forth in plain language the requirements of an efficient motor lubricant, and the detailed reasons why Zerolene meets these requirements perfectly.
